Independent Auditor's Report

Members of the Board California Health Facilities Financing Authority - Bond Financing Program Fund

We have audited the accompanying basic financial statements of the Bond Financing Program Fund of the California Health Facilities Financing Authority (the Authority) as of and for the year ended June 30, 2012, as listed on the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements present only the Bond Financing Program Fund (and do not purport to, and do not, present fairly the financial position of the California Health Facilities Financing Authority or the State of California) as of June 30, 2012 and the changes in their net assets and their cash flows, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Bond Financing Program Fund of the California Health Facilities Financing Authority as of June 30, 2012 and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued a report dated April 17, 2013 on our consideration of the Authority's Bond Financing Program Fund's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 5 through 7 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America and the Governmental Accounting Standards Board. We have applied certain limited procedures that consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying supplementary information on pages 20 through 25 is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Authority's Bond Financing Program Fund. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management Discussion and Analysis

For Fiscal Year Ended June 30, 2012

This section presents the analysis of the financial performance of the Authority's Bond Financing Program Fund during the fiscal year that ended June 30, 2012. Please read it in conjunction with the financial statements that follow this section.

General Background and Overview

The California Health Facilities Financing Authority (CHFFA) was created in 1979 pursuant to the CHFFA Act (codified in Government Code sections 15430-15462.5) which provided CHFFA with the authority to serve as a conduit issuer of tax exempt debt for health facilities throughout the State of California.

Tax Exempt Financing Program Activity

Over the years, CHFFA has served as a conduit issuer for a wide range of providers and systems throughout the State of California, from rural community-based organizations to stand alone and large multi-hospital systems. CHFFA's enabling legislation guides the specific types of eligible entities, covering a wide range of entities, including without limitation acute care hospitals, specialty centers, intermediate and skilled nursing care facilities, clinics and adult day health centers. The legislation also addresses project eligibility (including without limitation, construction, expansion, remodeling, renovation, and refinances), in addition to the make-up and responsibility of the nine member board. The borrowers are categorized under the following bond financing programs:

<u>Standard Bond Financing Program</u> - This program provides borrowers with access to low interest rate capital markets through the issuance of tax-exempt revenue bonds. Proceeds from the bonds may be used to fund construction/renovation projects, land acquisition for future projects, acquisition of existing health facilities, refinancing of existing debt, and costs of issuance.

<u>Pooled Bond Financing Program</u> - This program provides borrowers, with more modest financing needs, the option to group or "pool" into a single bond financing, where bond issuance costs are shared by other participants. This type of financing will generally allow a borrower to finance an eligible project with a minimum bond issuance of \$500,000.

<u>Tax Exempt Equipment Financing Program</u> - This program provides health facilities with access to tax-exempt fixed rate financing for equipment purchases. A borrower under the program can fund qualifying equipment purchases of \$500,000 or more. The maturity of the notes must be related to the useful life of the equipment to be financed. Notes issued through the program are collateralized by the equipment that is purchased. Funds may be used to purchase or reimburse all types of qualifying equipment by an eligible health facility, including but not limited to, medical and

Management Discussion and Analysis - Continued

For Fiscal Year Ended June 30, 2012

diagnostic equipment, computers, and telecommunications equipment. Funds can also be used to finance minor equipment installation costs.

During the fiscal year ended June 30, 2012, the CHFFA Board authorized \$2.9 billion in conduit revenue bonds and bonds issued during the fiscal year amounted to \$2.9 billion. As of June 30, 2012, CHFFA's total debt issued was \$28.7 billion and total debt outstanding was \$11.8 billion.

Overview of the Financial Statements

The financial statements of the Authority's Bond Financing Program Fund include the Independent Auditor's Report, Management Discussion & Analysis (MD&A), basic financial statements, accompanying notes and supplementary information.

Required Financial Statements

The financial statements report information using accounting methods similar to those used by private sector companies. These statements offer both short-term and long-term financial information about the activities of the Authority's Bond Financing Program Fund.

The **Statement of Net Assets** include all of the Authority's Bond Financing Program Fund's assets and liabilities for the year ended June 30, 2012 and provides information about the nature and amounts of investments in resources (assets) and the obligations to the Authority's Bond Financing Program Fund's creditors (liabilities). It also provides the basis for evaluating the capital structure of the Authority's Bond Financing Program Fund and assessing the liquidity and financial flexibility of the Authority's Bond Financing Program Fund.

The **Statement of Activities** accounts for all of the Authority's Bond Financing Program Fund's revenue and expenses for the year ended June 30, 2012. This statement reflects the results of the Authority's Bond Financing Program Fund's operations over the year and can be used to determine the Authority's Bond Financing Program Fund's credit worthiness and its ability to successfully recover all its costs through fees and interest revenue and other income.

The **Statement of Cash Flows** provides information about the Authority's Bond Financing Program Fund's cash receipts and cash payments during the year ended June 30, 2012. This statement reports cash receipts, cash payments, and net changes in cash resulting from operations, capital and related financing, noncapital financing and investment activities. The statement provides answers to questions of where cash came from, what cash was used for and what caused changes in cash for the reporting period covered.

Management Discussion and Analysis - Continued

For Fiscal Year Ended June 30, 2012

The accompanying **Notes to the financial statements** provide additional information that is essential to a full understanding of the data provided in the financial statements.

In addition to the basic financial statements and accompanying notes, the final section in this report also presents certain **supplementary information**. This supplementary information section contains the detail of conduit bonds issued and conduit bonds outstanding as of June 30, 2012.

Requests for Information

This financial report is designed to provide a general overview of the Authority's Bond Financing Program Fund's financial position and is intended for distribution to a variety of interested parties. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Executive Director, California Health Facilities Financing Authority, 915 Capitol Mall Room 590, Sacramento, California 95814.

Notes to Financial Statements

June 30, 2012

Note 1 - Organization and Nature of Operations

The California Health Facilities Financing Authority (CHFFA or the Authority) was created in 1979 and operates pursuant to the California Health Facilities Financing Authority Act (codified in the California Government Code Sections 15430-15462.5). CHFFA is a public instrumentality of the State of California, authorized and empowered by the provisions of the CHFFA Act for the purpose of providing financial assistance to eligible and creditworthy non-profit and public health facilities in California through loans funded by the issuance of tax-exempt bonds, low-cost loans, and direct grant programs to promote important California health access, healthcare improvement and cost containment objectives. The diverse nature of the facilities funded by the Authority reflects the changing health care needs of California. From rural community-based organizations to large multi-hospital systems, the Authority has financed a wide range of providers and programs throughout California.

CHFFA's enabling legislation guides the specific types of eligible entities, covering a wide range of entities, including without limitation acute care hospitals, specialty centers, intermediate and skilled nursing care facilities, clinics and adult day health centers. The legislation also addresses project eligibility (including without limitation, construction, expansion, remodeling, renovation, and refinances), in addition to the make-up and responsibility of the nine member board. CHFFA has served as conduit issuer for a wide range of borrowers under the following bond financing programs:

<u>Standard Bond Financing Program</u> - This program provides borrowers with access to low interest rate capital markets through the issuance of tax-exempt revenue bonds. Proceeds from the bonds may be used to fund construction/renovation projects, land acquisition for future projects, acquisition of existing health facilities, refinancing of existing debt, and costs of issuance.

<u>Pooled Bond Financing Program</u> - This program provides borrowers, with more modest financing needs, the option to group or "pool" into a single bond financing, where bond issuance costs are shared by other participants. This type of financing will generally allow a borrower to finance an eligible project with a minimum bond issuance of \$500,000.

<u>Tax Exempt Equipment Financing Program</u> - This program provides health facilities with access to tax-exempt fixed rate financing for equipment purchases. A borrower under the program can fund qualifying equipment purchases of \$500,000 or more. The maturity of the notes must be related to the useful life of the equipment to be financed. Notes issued through the program are collateralized by the equipment that

Notes to Financial Statements - Continued

June 30, 2012

is purchased. Funds may be used to purchase or reimburse all types of qualifying equipment by an eligible health facility, including but not limited to, medical and diagnostic equipment, computers, and telecommunications equipment. Funds can also be used to finance minor equipment installation costs.

Effective January 1, 2010, legislation (Senate Bill 99, which added Chapter 10.7 of Division 6 of Title 1, commencing with section 5870, to the Government Code) increased the reporting and auditing requirements for conduit issuers. While the focus of the legislation was on the joint powers authorities that frequently issue bonds with the result requiring the inclusion of state finance authorities, the legislation was written to include the finance authorities chaired by the State Treasurer. As a result, the Authority must comply with the same reporting/auditing requirements imposed on the joint powers authorities.

The Program is one of many programs administered by the Authority. Other State agencies, such as the State Treasurer's Office and the State Controller's Office support the Authority by providing services and thus allocate a portion of their expenses to the Authority. Then, the Authority allocates its portion of such expenses to its different programs along with any direct costs associated with each program. The Program Fund has no direct employees and is entirely supported by staff at the Authority to perform all necessary functions. Thus, the accompanying financial statements of the Authority's Bond Financing Program Fund are not indicative of the Authority's financial position or net assets as a whole.

The Authority contracts with the State Treasurer's Office to provide administrative support including, but not limited to accounting, budgets, data processing, personnel and business services.

Note 2 - Significant Accounting Policies

Basic Financial Statements

The basic financial statements of the Authority's Bond Financing Program Fund (i.e. the Statement of Net Assets, the Statement of Activities and the Statement of Cash Flows) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The financial statements report information on all of the enterprise activities of the Bond Financing Program Fund and are presented in accordance with standards established by the Governmental Accounting Standards Board (GASB).

Notes to Financial Statements - Continued

June 30, 2012

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The basic financial statements are prepared using the economic resource measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Assets. The Statement of Activities presents increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

The Program distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services. Operating expenses include the cost of sales and services, general and administrative expenses and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

In accordance with GASB, the Program has elected to apply all Financial Accounting Standards Board (FASB) pronouncements issued prior to November 30, 1989, which are not inconsistent with GASB pronouncements. Subsequent to this date, the Authority accounts for its proprietary funds as required by GASB.

Cash and Cash Equivalents

The Program's cash and cash equivalents are considered cash and short term investments that are held on deposit with the State Controller's Office. Cash receipts and disbursements of the Program are made through a cash pool maintained by the State Controller.

Fees Receivable

Fees receivable consist of application, initial and annual administration fees receivable from conduit bond financing borrowers. Fees receivable are reported net of an allowance for doubtful accounts. Management's estimate of the allowance is based on historical collection experience and a review of the current status of fees receivable. It is reasonably possible that management's estimate of the allowance will change.

Notes to Financial Statements - Continued

June 30, 2012

Capital Assets

Capital assets are recorded at cost or estimated historical cost. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Depreciation is being provided using the straight-line method over the estimated useful lives of the assets as follows:

Equipment 5 to 10 years Computer software 3 years

Impairment of Capital Assets

The Authority reviews its capital assets for impairment whenever events or changes in circumstances indicate that there has been a decline in service utility that is large in magnitude and outside of the normal life cycle of the capital asset being evaluated. As of June 30, 2012, there has been no impairment of the capital assets.

Other Liabilities - Accrued Leave

Other Liabilities - Accrued Leave on the statement of net assets include vested and unpaid vacation and annual leave. It is anticipated that compensated absences will generally not be used in excess of a normal year's accumulation. Unused sick leave balances are not included in the liability because they do not vest to employees. For further information, refer to the financial statements of the State of California for the year ended June 30, 2012.

Net Assets

In the statement of net assets, net assets are classified in the following categories:

Invested in Capital Assets, Net of Related Debt - This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition or improvement of the assets.

Restricted Net Assets - This amount is restricted by external contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets - This amount is all net assets that do not meet the definition of "invested in capital assets, net of related debt" or "restricted net assets."

As of June 30, 2012, all of the net assets are classified as restricted by enabling legislation for purposes specified in the CHFFA Act as described in Note 1.

Notes to Financial Statements - Continued

June 30, 2012

General and Administrative Expenses

The Authority is subject to an allocation of intradepartmental support costs in accordance with an agreement between the Authority and the State Treasurer's Office (STO). Such costs could affect the Program's financial position or operating results in a manner that differs from those that might have been obtained if the Authority was autonomous. The Authority records these costs as invoiced by STO for the fiscal year and allocates the costs to the Program. However, the allocation is subject to review and adjustment subsequent to year-end. Any adjustment is included on invoices and recorded in the period in which the adjustment is identified.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Note 3 - Cash in State Treasury

Deposits with State Controller

The Authority invests excess cash funds in the Surplus Money Investment Fund (SMIF). All of the resources of SMIF are invested through the Pooled Money Investment Board and is administered by the office of the State Controller. As of June 30, 2012, the Authority has invested funds in SMIF in the amount of \$15,335,000. During the year ended June 30, 2012, the Program earned interest and investment income in the amount of \$53,925, of which \$13,231 is receivable as of June 30, 2012.

Disclosures regarding interest rate risk, credit risk, concentration of credit risk, custodial risk and other additional detailed disclosures required by GASB regarding cash deposits and investments, are presented in the financial statements of the State of California for the year ended June 30, 2012.

Notes to Financial Statements - Continued

June 30, 2012

Note 4 - Fees Receivable

A detailed schedule of the fees receivable as of June 30, 2012 is as follows:

Annual administration fees Less allowance for uncollectible fees		1,081,316 (21,688)
Total accounts receivable, net	\$	1,059,628

Note 5 - Due from Other Funds

During the year ended June 30, 2012, the Bond Financing Program paid for payroll expenses incurred by other funds and as of June 30, 2012 the Program is owed \$32,431.

Note 6 - Capital Assets

Capital assets are comprised of the following at June 30, 2012:

Furniture and equipment	\$ 73,504
Computer software	 65,000
Subtotal Accumulated depreciation	 138,504 (77,410)
Net	\$ 61,094

Note 7 - Conduit Finance Activity

The Program's conduit finance activity for the year ended June 30, 2012 is as follows:

Qualified Private Activity Debt	Debt issued during fiscal year 2012 (third party debt)	Total debt outstanding as of fiscal year 2012 (third party debt)
Qualified 501(c)(3) Nonprofit - Hospital and Health Care Bonds	\$ 2,947,055,000	\$ 11,762,063,248
Total Conduit Debt Issued and Outstanding	\$ 2,947,055,000	\$ 11,762,063,248

Notes to Financial Statements - Continued

June 30, 2012

The Program acts as a conduit by assisting eligible borrowers with access to low interest rate capital markets through the issuance of tax-exempt revenue bonds. The financings are secured by the full faith and credit of the participating institutions, and the Program is not responsible for payment in any financing. As a result, the financing obligations are not recorded in the Program's financial statements. The borrowers' obligations may be, but need not be, secured by issuance of a letter of credit or guaranty.

At June 30, 2012, the aggregate amount of the Program's conduit debt obligations outstanding issued on behalf of program participants totaled \$11,762,063,248.

Note 8 - Employee Retirement Plan

The Program is a participant in the State of California's Public Employees' Retirement System (CalPERS), which is a defined benefit contributory retirement plan. CalPERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and their beneficiaries. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Since all State agencies are considered collectively to be a single employer, the actuarial present value of vested and nonvested accumulated plan benefits attributable to the Program's employees cannot be determined. The significant actuarial assumptions used to compute the actuarially determined State contribution requirements are the same as those used to compute the State pension benefit obligation as defined by CalPERS. Generally, full-time and permanent part-time employees are eligible to participate in CalPERS. Depending upon the plan option selection, benefits vest after five to ten years of service. Participants are eligible for service retirement after age 50 or 55 and must have five to ten years of CalPERS credited service, depending upon the tier of participation. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law. The amount of pension contributions by the Program to CalPERS is actuarially determined under a program where contributions plus the expected earnings of CalPERS will provide the necessary funds to pay the earned benefits of the employees when due. The total payroll of the Program is covered.

The Program's contribution to CalPERS for the year ended June 30, 2012 was \$127,185. Participant contributions range from zero to six percent of their salary depending on the tier of participation. The excess of plan assets over vested and unvested benefits at June 30, 2012 was not available. Such information is available for CalPERS as a whole, which is audited annually by other independent auditors. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the

Notes to Financial Statements - Continued

June 30, 2012

CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

Additional detailed disclosure required by GASB, regarding the defined benefit plan are presented in the financial statements of the State of California for the year ended June 30, 2012.

Note 9 - Other Post Employment Benefits (OPEB)

Upon retirement, the State of California provides health care benefits to the participants in the retirement systems to which the State contributes as an employer. A portion of the costs associated with the State's other post-employment benefits is allocated to the Program.

Additional detailed disclosure required by GASB, regarding other post employment benefits are presented in the financial statements of the State of California for the year ended June 30, 2012.

Note 10 - Subsequent Events

Events that occur after the date of the statement of net assets but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the date of the statement of net assets are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the date of the statement of net assets require disclosure in the accompanying notes. Management evaluated the activity of the Program through April 17, 2013 and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to financial statements.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Members of the Board California Health Facilities Financing Authority - Bond Financing Program Fund

We have audited the financial statements of the Bond Financing Program Fund of the California Health Facilities Financing Authority as of and for the year ended June 30, 2012, and have issued our report thereon dated April 17, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of California Health Facilities Financing Authority is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered California Health Facilities Financing Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of the Bond Financing Program Fund of the California Health Facilities Financing Authority are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions and requirements was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under <u>Government Auditing Standards</u>.

This report is intended solely for the information and use of the management and the members of the Board of the California Health Facilities Financing Authority and is not intended to be and should not be used by anyone other than these specified parties.

Sacramento, California
