## CDIAC Updates Local Agency Investment Guidelines for 2012

CDIAC has updated the [Local Agency Investment Guidelines for 2012](#). Among the changes made were those to Chapter III – Reporting Requirements. The discussion now makes reference to Government Code 53607.

Specifically, under Chapter III – Reporting Requirements, CDIAC has added a reference and consensus recommendation related to Government Code 53607.

Government Code Section 53607 requires a local agency treasurer to whom the authority to invest or reinvest funds or to sell or exchange securities has been delegated by the legislative body of a local agency to submit a monthly report of transactions to the legislative body. The delegation of authority may be made for a period of one year. The requirement to submit the transaction report lasts until the authority is revoked or expires.

Inclusion of this requirement resulted in amendments to the Consensus Recommendation concerning investment reporting. Specifically, a local agency treasurer who has been delegated authority to invest or reinvest funds of the local agency by the legislative body under Government Code Section 53607 must submit a monthly report to the legislative body accounting for transactions made during the reporting period. In addition the treasurer must address the reporting requirement set forth by Section 53646. This section requires a treasurer or chief fiscal officer who submits a quarterly report to the legislative body to provide specific information described in Section 53646. These reports are separate and distinct.

### OTHER UPDATES

CDIAC amended the description of Government Code Section 53684 to include Section 20822 of the Revenue and Taxation Code as an additional reference for the investment of surplus funds. **DL**

## MSRB and CDIAC to Co-Host Education and Outreach Seminar in San Francisco

The Municipal Securities Rulemaking Board (MSRB) and the California Debt and Investment Advisory Commission (CDIAC) will co-host an education and outreach seminar, *The New Rules and Tools of Municipal Finance* for municipal market professionals on July 24, 2012 at the Palace Hotel in San Francisco.

The seminar will provide market participants and, in particular, public agencies, with information about how regulation of the municipal securities market is changing and the MSRB's long-range plan for greater market transparency. MSRB representatives and California public finance professionals will discuss regulatory changes affecting municipal securities issuers, the duties of municipal advisors and dealers in the municipal market, and the current and future capabilities of the MSRB's Electronic Municipal Market Access (EMMA®) website. The seminar will conclude with a roundtable discussion during which the panelists will solicit input from public agencies and market participants on initial and continuing disclosure.

The keynote luncheon speakers will be Alan D. Polsky, MSRB chair and the Honorable Bill Lockyer, California State Treasurer.

[View the agenda.](#)

The seminar is open to all members of the municipal securities community. There is no cost to attend, however, capacity is limited. Pre-registration is required.

The deadline to register is July 13, 2012.

## A COMPARISON OF MELLO-ROOS COMMUNITY FACILITIES DISTRICT (CFD) ISSUANCE FOR FISCAL YEARS (FYS) 2005-06 THRU 2010-11<sup>1</sup>

Since January 1, 1993, all public issuers of Mello-Roos bonds have been required to submit yearly fiscal status reports on their outstanding bonds to the California Debt and Investment Advisory Commission (CDIAC) by October 30<sup>th</sup>.<sup>2</sup> Through this annual process, CDIAC collects data on all outstanding Mello-Roos bonds including, the principal amount outstanding, the balance in the bond reserve fund, and parcel delinquency data.

As noted in the 2008-09 Mello-Roos CFD Yearly Fiscal Status Report,<sup>3</sup> land-secured financings showed a steady decline from FY 2005-06 to 2008-09. Issuance for this purpose fell to its lowest level since FY 1993-94 in FY 2008-09. While the uptick in issuance since that time may be consistent with improvements in the state's housing market, issuance in FY 2010-11 represented only 20 percent of the land-secured issuance during the peak period of FY 2005-06 (Figure 1).

The percentage of refunded debt has followed the same trend. As reflected in Figures 2a and 2b, refundings decreased both in principal amount and as a percentage of principal issued from FY 2005-06 through 2008-09 and began to rise in FYs 2009-10 and 2010-11.

FIGURE 1

FISCAL YEAR	PRINCIPAL	PERCENT CHANGE (YEAR OVER YEAR) <sup>a</sup>
2005-06	\$2,960,399,478	76.0%
2006-07	2,279,358,062	-23.0
2007-08	926,928,952	-59.3
2008-09	178,341,133	-80.7
2009-10	349,587,663	96.0
2010-11	\$604,161,046	72.8%

<sup>a</sup> Principal amount issued in fiscal year 2004-2005 was \$1,682,299,085.

FIGURE 2A  
PRINCIPAL REFUNDED<sup>a</sup>

<sup>a</sup> Based on Reports of Final Sale received by CDIAC.

Cities remain the leading issuer of Mello-Roos bonds by agency type, when measured by the number of bond issuances. They represent approximately 43 percent of CFD financings since FY 2005-06. School districts, water districts, community service districts and counties round out the top five issuers (Figure 3).

This review also revealed that the two main purposes for Mello-Roos issuance are for multiple capital improve-

ments/public works and K-12 school facilities. These two purposes comprise more than 93 percent of the CFD debt issued. For the past six fiscal years, no other purpose exceeded two percent.

CDIAC's Data Collection and Analysis Unit expects to publish full versions of the Mello-Roos CFD Yearly Fiscal Status Reports for 2009-10 and 2010-11 in the coming months. These reports will be available on the CDIAC website when completed.

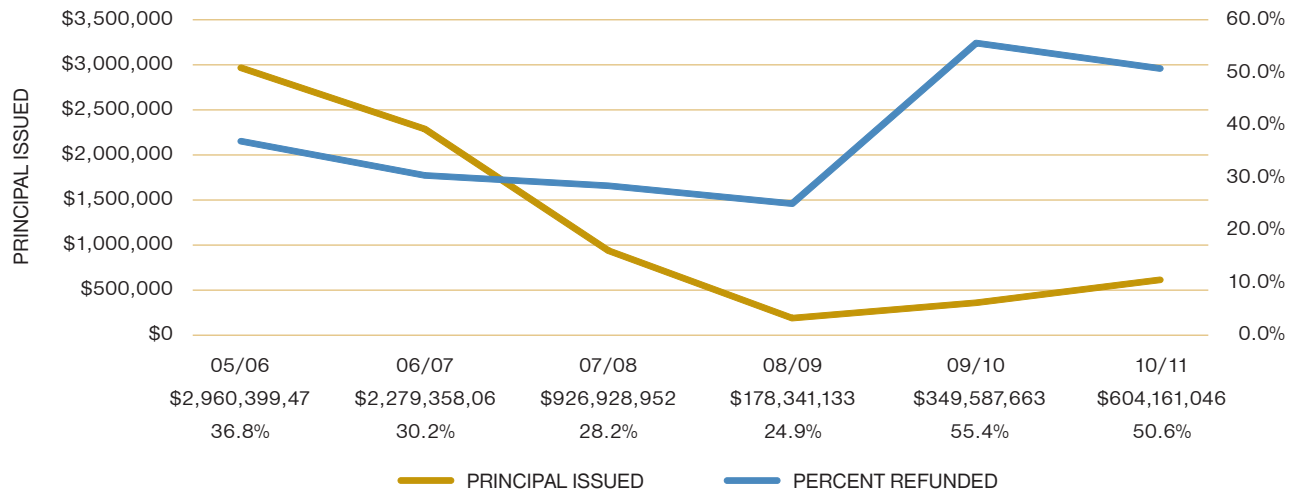

<sup>1</sup> Based on Yearly Fiscal Status Reports received as of March 31, 2012

<sup>2</sup> Government Code Section 53359.5(b).
