

Considerations for School Debt Financing

Basic Considerations Before Assuming Debt

Prepared By Ruth Alahydoian February 6, 2009

Why Are We Here?

- Purpose of today's workshop:
 - Understand basics of school district debt
 - Terminology
 - Options
 - Understand obligations and responsibilities
 - Know what questions to ask
 - Resources for future reference
- Like a home mortgage, taking on debt has long-term implications for a school district.

ABC's of Debt Financing

- What do we mean by "debt"?
 - Borrow now, pay back later with interest
- What do we mean by "financing"?
 - The technical side of borrowing
 - the legal documentation
 - the interest rates & amortization
 - the on-going obligations
 - Must be in place for someone to give you the money

Constitutional Debt Limit

California Constitution, Article 16, Section 18a:

No county, city, town, township, board of education, or school district, shall incur any indebtedness or liability in any manner or for any purpose exceeding in any year the income and revenue provided for such year, without the assent of two-thirds [now 55% for schools] of the voters of the public entity voting at an election to be held for that purpose [...]

- In other words, public agencies can't go into debt without voter approval.
- TRANs are not debt because they are short-term.
- Leases are not debt because they are contingent on use of equipment or property

Why Borrow?

- Economics of debt & time value of money
- Future students and homeowners will benefit, they should pay for some of the costs.
- Reduce one-time burden and match repayment to useful life of project
- Bridge financing or cash flow needs
- To qualify for State matching funds
- Reduce energy and maintenance costs savings to the General Fund

Match Repayment Term to Use

Useful Life Table (Partial) (from SACS & ASBO)

Capital Asset	# of Years
School Buildings	50
Portable Buildings	25
Site Improvements	20
HVAC Systems	20
Roofing	20
Kitchen Equipment	15
Vehicles (Buses)	8
Copiers	5
Computer Software (Instructional)	10 - 20
Computer Software (Administrative)	5 - 10
Computer Hardware	5

State Match Requirements

- State School Facilities Program requires local match.
 - 50% local / 50% State for new construction
 - 40% local / 60% State for modernization
- State funds usually insufficient
 - Local community preferences may cost more
 - Some projects outside scope of State program

Questions to Start the Process

- 1. What is the District's financing need?
 - Cash flow deficit.
 - Capital Project (real property or equipment)
- 2. How much will you need to borrow?
 - Offset by other sources of funds, interest earnings
 - Increase by costs of issuance, reserve fund, capitalized interest
- 3. Who will pay it back?
 - District (General Fund)
 - Designated revenue (e.g., developer fees)
 - Taxpayers
 - Specific neighborhood

Other Considerations

- Length of repayment
 - Must match useful life of project
 - For cash-flow borrowings, generally must be repaid within one year
- Board & community support
- Staff time/capabilities

Sources/Types of Financing

Type of Financing	Voter Approved	Not Voter- Approved	Who's responsible for repayment?
General Obligation Bonds (GOB)	X		All Taxpayers
School Facility Improvement District (SFID)	X		Taxpayers within specific SFID
Mello-Roos (Community Facility District (CFD))	X		Property owners within CFD
Direct Lease (under \$3 million)		X	District
Certificates of Participation (COPs) (over \$3 million) Or Lease Revenue Bonds		X	District
Tax and Revenue Anticipation Notes (TRAN)		X	District
Bond Anticipation Notes (BANs)	X		Taxpayers
Refundings – GOB or COP		X	For GOB Refunding – Taxpayers For COP Refunding - District

Features

Type of Financing	Uses	Amount	Term
General Obligation Bonds (GOB)	Capital Projects on Voter List	\$500,000+	Up to 40 years
School Facility Improvement District (SFID)	Capital Projects on Voter List	\$500,000+	Up to 40 years
Mello-Roos (Community Facility District (CFD))	Capital Projects	\$500,000+	Up to 40 years
Direct Lease (under \$3 million)	Capital Projects, may include equipment	\$50,000-\$3M	2-10 years

Fefunding GOBs or Refunding COPs	Refinance existing bonds or COPs	\$3,000,000+	Same as original issue

Key Features to Evaluate

- Key features used to determine best financing option:
 - Interest rates (short/long term + costs)
 - Type of interest (variable/fixed)
 - Cost of issuance (one time costs)
 - Prepayment penalty
 - Need for credit rating or bond insurance
 - Paperwork
 - Approximate processing time

Debt Management Policy

- Sets guidelines for debt issuance decisions
 - Caps on General Fund Debt
 - Parameters for technical terms and conditions of debt
- Provides opportunity to educate Board and staff on roles and responsibilities
- Look to CDIAC and other advisors for help developing policy.

Pre-Financing Process

- Determine needs even if you don't think you can afford them all.
- Research alternatives other funding sources, timelines, requirements.
- Communicate with stakeholders Superintendent, Board, Staff, Community.

Managing the Financing Process

- Bring in the experts
- Check references

- Compare net funds to district to the net payment(s) by district
- Is disclosure complete, accurate, and not misleading?
- How complicated is the ongoing management? Who is going to do it?

Overview of the Financing Process

1. Determine need

- Project description
- Timeline
- Cost/Expenditure schedule

2. Identify repayment source

- Are funds available "internally"?
- Will community support a tax, and how much?

3. Identify "team" to coordinate financing

- Retain Financial Advisor and/or Underwriter
- Retain Bond Counsel

Process Overview, continued

4. Legal Framework

- Voter approval
- District Board approval
- County Board approval

5. Disclosure & Credit Review

Information provided to investors must be:

- Accurate
- Thorough
- Up-to-Date

Process Overview, continued

6. Pricing

- Can be done competitively or negotiated
- Interest rates are determined
- Repayment schedule is set

7. Closing

- Paperwork is signed
- Money changes hands

8. Ongoing responsibilities

- Repayments
- Investing proceeds
- Other obligations

Description of Bond Ratings

Moody's	Standard & Poor's	Description	
High Grade			
Aaa	AAA	The highest rating assigned to a debt instrument, indicating an extremely strong capacity to pay principal and interest. Bonds in this category are often referred to as "gilt-edge" securities.	
Aal	AA+	High-quality bonds by all standards with strong capacity to pay principal and interest and are judged to be of high quality by all standards. These bonds are rated lower primarily because the margins of protection are less strong than those for Aaa and AAA.	
Aa2	AA		
Aa3	AA-		
Medium Investment	<u>Grade</u>		
A1	A+	These bonds possess many favorable investment attributes, but elements that suggest a susceptibility to impairment given adverse economic changes may be present.	
A2	A		
A3	A-		
Baa1	BBB+	Bonds are regarded as having adequate capacity to pay principal and interest, but certain protective elements may be lacking in the event of adverse economic conditions that could lead to a weakened capacity for payment.	
Baa2	BBB		
Baa3	BBB-		
Speculative			
Ba1	BB+	Bonds regarded as having only moderate protection of principal and interest payments during both good and bad times.	
Ba2	BB		
Ba3	BB-		
B1	B+	Bonds that generally lack characteristics of other desirable investments and have greater vulnerability to default. Assurance of interest and principal payments over any long period of time may be small.

В3	B-		

CDIAC Workshop The ABC's of School Debt Financing

Session I Competitive vs. Negotiated

Prepared By Ruth Alahydoian February 6, 2009

Key Players in A Bond Sale

- Underwriter intermediates between borrower and lender
 - Buys bonds at wholesale price from issuer
 - Resells to investor at profit
 - In negotiated sale, also serves as investment banker in assisting to structure transactions

Who Finances School Debt?

- Who are the "Investors" buying school debt?
 - Banks
 - Insurance Companies
 - Funds mutual funds, money market, hedge funds
 - Individual investors

- What are investors are looking for:
 - Tax-exempt investment
 - Low risk, high quality
 - Market interest rates
 - Liquidity

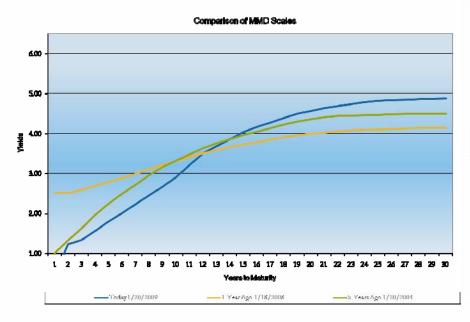

What's Happening in the Bond Market?

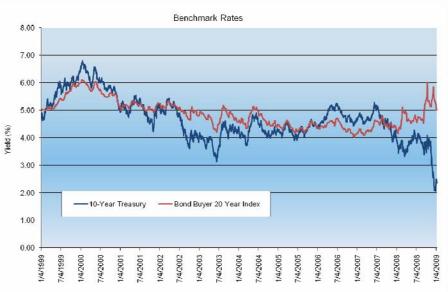

- Current "Credit Crunch" has been developing since Summer 2007.
 - Sub-prime mortgage exposure resulted in bond insurer downgrades
 - Banks, insurance companies and funds also felt affects of unknown sub-prime exposure – had to conserve assets, stopped lending.
- Government intervention will take time to trickle-down
- Credit quality is key
- New year brought refreshed balance sheets.

Bond Market Indices

 Municipal bond scale currently looks "normal". Municipal bond spread to Treasuries still "abnormal".

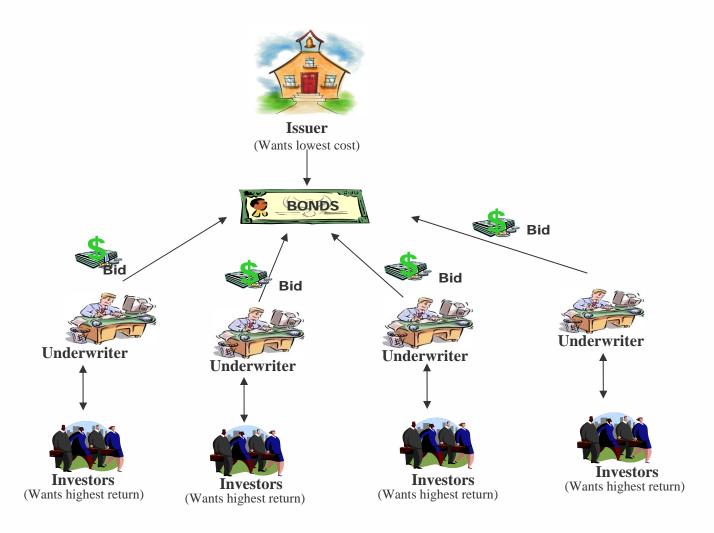

Competitive Sale

- Deal is structured by financial advisor
- Request for bids advertised
- Bids accepted at a specific date and time
 - Most commonly via electronic platform
- Bonds sold to bidder with lowest "true interest cost"
- Best when:
 - Market is familiar with issuer
 - Active secondary market, broad investor base
 - Unenhanced credit rating of "A" or above
 - Issue is neither too large nor too small
 - Not complex, easily understood revenue stream

Bond Sale - Competitive

page

Negotiated Sale

- Underwriter selected up-front
- Underwriter participates in structuring
- Interest rate established through collaboration
- Adjusted based on actual investor interest and orders
 - Individual maturities will be repriced based on order flow
- Best when:
 - Underwriter selection process ensures multiple proposals are considered
 - Knowledgeable employee or outside professional (other than underwriter) assist is structuring, pricing, and monitoring sales activities

Bond Sale - Negotiated

Advantages of Each Method of Sale

Negotiated Sale

- Best suited for "story bonds" and very large transactions
- Allows underwriter to pre-market bonds
- Transaction can be re-structured to meet specific investor demand
- More flexibility in timing

Competitive Sale

- Emphasizes "commodity" nature of bonds
- Satisfies public policy preference for competitive procurement
- Sometimes legally required
- Generally the best way to get the lowest interest rate

Oversight Committees

- Citizens Oversight Committee required for 55% (Prop. 39) elections
- Committee oversees bond program expenditures and construction progress
- Role is limited oversight and review only, no decisionmaking powers
- Make-up of committee specified in law

Expert Committees

- Community members often can provide expert advice on construction matters
- Builds community support for District
- Need to balance with demands on staff

Investing in the Interim

- While funds are waiting to be spent, consider interest earnings
- Interest earnings stay with the funds that earn it
- Arbitrage considerations

Investment Options

- County Pool
 - Default for District Funds
- Direct investment in government security
- Local Agencies Investment Fund (LAIF)
 - Requires Board Approval
- Guaranteed Investment Contract ("GIC") or Investment Agreement
 - Requires board approval
- Sweep or Other Trustee-Held Account
