#### Session 3:

# Part 3 - Public Investment Planning: Cash Flow

Victoria L. Beatley
Director of Finance/City Treasurer
City of Seal Beach

Kent Morris Chief Investment Officer City of San Diego

March 12, 2014

#### Lessons

- 1. What's the big deal about cash?
- 2. Finding cash when you need it
- 3. The consequences of running out of cash
- 4. Recognizing trouble

## **Budget**

- A document with numbers that are a virtual representation of:
  - Revenues
  - Expenses
  - Earnings

## **Budget**

- Represents policies and priorities
- No cash in budget

#### What is Cash Flow?

- Actual inflow and outflow of funds
- The difference between available cash at the beginning and end of a period of time

#### What is Cash Flow?

- Positive cash flow means more money to spend/invest
- Negative cash flow means less money to spend/invest

#### What is Cash Flow?

- Negative cash flow can be mitigated by borrowing
- No corrective action can lead to insolvency

## What is Cash Insolvency?

- Generally occurs when expenses exceed revenues
- Negative cash flow over an extended period of time

## What is Cash Insolvency?

- Erosion of fund balance/reserves
- Erodes the Public trust
- Bankruptcy

#### What is Cash?

- Funds in the bank
- Funds in investments

## So What's the Big Deal?

- Loss of revenue
- Erosion of fund balance/reserves
- Need to identify cash requirements

## Finding Cash When You Need It

- Earnings
- Borrowing

# What Can You Do in an Uncertain Cash Environment?

- Have a system in place to analyze and monitor cash
- Report on cash flow status include projections

## What Can You Do in an Uncertain Cash Environment?

- Conserve cash when possible
- Build fund balance/reserves

## What Can You Do in an Uncertain Cash Environment?

- Create a spending plan to manage available cash
- Don't run out

- The following items have something in common, what is it?
  - Deficit spending
  - Low reserves
  - Untimely account reconciliation
  - Not monitoring the current financial environment

- Deficit Spending:
  - Spending faster than earning
  - Causes depletion of fund balance/reserves
  - Periodic may be okay

- Low Reserves:
  - Policy limits
  - Bond covenants
  - Loss of protection against the unexpected

- Untimely Account Reconciliation:
  - Missing cash
  - Unexpected withdrawals
  - Loss of protection against losses

- Not monitoring the Current Financial Environment:
  - Forecasting assumptions
  - Trends

## So What Do They Have in Common?

- Poor financial management
- Can result in running out of cash

- Total assets are irrelevant if you can't write checks to pay your bills
- Good cash management systems facilitate accurate projections, timely payment, discounts taken, and good credit ratings

- Uneven receipts/expenditures
- Temporary shortfall
- No new problems

## Sample Cash Flow Model

- Layout
  - Horizontal time in days, weeks, months
  - Vertical beginning balance, revenues, expenses, investments, ending balance

## Sample Cash Flow Model

- Forecasting Methods
  - Build from budget
  - Historical actual/trends
  - Identify one-time occurences

## City of San Diego Cash Flow Forecasts

- Daily Investment Worksheet
  - Feeds historical spreadsheet
- Historical Cash Flow Spreadsheet
  - Used for Investment Reports & Interest Earning Forecasts/Revisions
- Near Term Cash Forecast

## **Daily Investment Worksheet**

- Determine Net Cash Available to Invest
  - Components
    - Opening Bank Balance
    - ACH/Wire Deposits
    - Float
    - Investments
    - Disbursements

## Daily Investment Worksheet

### **Daily Investment Worksheet**

- Source of Information:
  - SAP
  - Sungard
  - Depository Bank's online website
- Benefits
  - Avoid Overdrafts
  - Maximize daily Investment
  - Retain data for other purposes

## **Historical Cash Flow Spreadsheet**

- Fiscal Year Spreadsheet
- Components:
  - Same Components as Daily Investment Worksheet
  - Deposits (Armor & Cash Letters)
  - Estimated Repurchase Interest
  - Major Wire Payments (In/Out)

#### **Historical Cash Flow Worksheet**

#### Source of Information:

- SAP
- Sungard
- Depository Bank's online website

#### Benefits

- Provides a reconciliation for final repurchase agreement amount
- Allow for deposit/disbursement studies
- Track major cash flows
- Basis for our Interest Earnings Forecast & State Code Compliance
- Improves transparency

#### **Near Term Cash Forecast**

- Displays Available Cash 45-60 days out
  - Components
    - Data from historical cash flow spreadsheet
      - Major Debits/Credit
    - Maturing Investments

## Near Term Cash Forecast Spreadsheet

#### **Near Term Cash Flow Worksheet**

- Source of Information:
  - Historical Cash Flow Spreadsheet
  - Sungard
- Benefit
  - Provides forward looking view on cash balances
  - Easy to identify cash deficits
  - Data readily available
  - Customizable timeframe & simple to update
  - Facilitates opportunistic investment opportunities
