PACE Loss Reserve Program Regulations

The proposed PACE Loss Reserve Program (Program) will not impose any costs on businesses in California. Fees and reporting requirements will be for PACE programs run by local governments that are participating in the Program on a voluntary basis. The Program will not create any additional costs for local governments or the State.

By assisting PACE programs, the Program may facilitate investment in home retrofits that will create jobs for contractors in California; however, these benefits are not quantifiable at this time. The Program will also have non-monetary benefits from reduced energy consumption, air pollution and greenhouse gas emissions resulting from residential PACE retrofits.
