CALIFORNIA ALTERNATIVE ENERGY AND ADVANCED TRANSPORTATION FINANCING AUTHORITY

Request to Approve Regulations for the Property Assessed Clean Energy (PACE) Loss Reserve Program

Tuesday, February 17, 2015

Prepared By: Ashley Bonnett

REQUEST

CAEATFA staff are requesting approval of modifications to the PACE Loss Reserve Program regulations currently undergoing the regular rulemaking process to incorporate the statutory changes made by Assembly Bill 2597, suspend the Program’s administrative fee requirement, and change the month in which the Authority shall review the administrative fee.

SUMMARY

In 2013, Senate Bill 96 (Committee on Budget and Fiscal Review) authorized the California Alternative Energy and Advanced Transportation Financing Authority (“Authority” or “CAEATFA”) to create a risk mitigation program for Property Assessed Clean Energy (“PACE”) financing using $10 million allocated in the Budget Act of 2013 (“PACE Loss Reserve Program” or “Program”).

On February 18, 2014, the CAEATFA Board approved the initial Program regulations, which were adopted and made effective through the emergency rulemaking process on March 10, 2014. The emergency regulations were readopted on September 8, 2014, and were readopted for a second time on December 5, 2014. The emergency regulations are set to expire on March 6, 2015. CAEATFA staff (“Staff”) have also been completing the regular rulemaking process to adopt the initial Program regulations. The initial 45-day public comment period for the proposed regulations began on August 29, 2014, and concluded on October 14, 2014.

After the initial public comment period, Staff issued two separate notices proposing modifications to the Program’s regulations. On October 15, 2014, Staff noticed proposed modifications incorporating statutory changes made by Assembly Bill (“AB”) 2597 (Ting, Chapter 614, Statutes of 2014). AB 2597 clarified that PACE financings are voluntary contractual assessments or voluntary special taxes, not loans, by replacing all statutory references to “loan” with “assessment” or “financing,” as applicable. AB 2597 also amended the underwriting criteria by which CAEATFA must evaluate PACE programs when applying for coverage under the PACE Loss Reserve Program. Specifically, the legislation increased the amount of financing eligible for coverage under the Program from less than 10% of the underlying property’s value to less than 15% of the property value for the first $700,000 in property value, and less than 10% of the remaining value of the property over $700,000. The legislation also added the requirement that the total mortgage-related debt and the PACE financing amount not exceed the value of the underlying property. The full text of AB 2597 can be found in Attachment A.
The proposed modifications incorporating AB 2597 were originally approved by the Board on October 21, 2014. CAEATFA subsequently received a written comment on the proposed modifications, described below. Therefore, Staff is requesting the Board reapprove the modifications at this time.

The second notice of modifications to the Program’s regulations was issued January 12, 2015. The proposed modifications suspend the Program’s administrative fee requirement and change the month in which the Authority reviews the fee. Staff learned that the Program will receive ongoing funding designated for the Program’s administrative costs through sources other than an administrative fee; therefore, a fee is not necessary to cover the Program’s administrative costs at this time. The Board approved these proposed modifications to the administrative fee requirements as emergency regulations at the January 20, 2015 meeting. Staff is now requesting approval to incorporate the modifications in the current regular rulemaking file.

Proposed Modifications to the Regulations.

Following is a brief summary of the key changes made by the proposed modifications noticed on October 15, 2014 and January 12, 2015. The full text of the proposed modifications to the regulations can be found in Attachment B, denoted with strikeout and underlined text. Modifications proposed on October 15, 2014 are illustrated in red text, and modifications proposed on January 12, 2015 are illustrated in blue text.

§10080–10086.

The proposed modifications replace all references to “Loan” or “Loans” with “Financing” or “Financings” throughout the regulation text in order to be consistent with the statutory language under AB 2597.

§10081(b): Application by PACE Program to the PACE Loss Reserve.

The initially proposed regulations, as required under existing statute at the time, limited the value of financings receiving assistance under the Program to less than 10% of the property value. The proposed modifications require that the financing amount “is for less than fifteen percent (15%) of the value of the property, up to the first seven hundred thousand dollars ($700,000) of the value of the property, and is for less than ten percent (10%) of the remaining value of the property above seven hundred thousand dollars ($700,000),” as required by AB 2597.

CAEATFA staff received one comment suggesting that the proposed language in Section 10081(b)(9), provided above, is ambiguous and recommended that the language be amended to read, “The Financing is not to exceed the amount calculated as 15% of the property value up to $700,000 plus 10% of the remaining property value over $700,000.” Staff recommends rejection of the language proposed by the commenter because it does not accurately reflect the statutory requirement that the financing amount be for less than the calculation set out in statute. Additionally, the modifications to the text of Section 10081(b)(9) were made to comply with statute as amended by AB 2597, and the language
was taken directly from AB 2597 to ensure compliance. Staff believes the language is sufficiently clear and therefore recommends not amending the statutory language reflected in Program regulations.

The proposed modifications also add new underwriting criteria requiring that the total mortgage-related debt and PACE financing not exceed the value of the underlying property, as required under AB 2597.

§10085(b):  PACE Program Reporting and Administrative Fee.

Although the Program will receive administrative funding in its annual base budget presently, because the availability of the funding may be subject to change, the proposed modifications suspend the administrative fee requirement by reducing the administrative fee from twenty five basis points to zero basis points. The proposed modifications maintain the requirement that the Authority review the fee on an annual basis to ensure the administrative fee can be adjusted if funding availability does change, but the month in which the Authority reviews the fee is changed from March to May to provide sufficient time to collect the March semi-annual reports and analyze the information received for consideration when reviewing the administrative fee, and ensure there is sufficient time to incorporate any administrative fee adjustments, if applicable, in the Program’s regulations before the subsequent reporting period begins on July 1st.

The proposed amendments also remove the reference to financings outstanding at the time of enrollment for purposes of clarity because under the proposed regulation, both financings outstanding at the time of enrollment and financings enrolled through the semi-annual reports will not be assessed an administrative fee.

CAEATFA received no written comments regarding the proposed modifications to the administrative fee requirements during the public comment period.

Regulatory Process.

Emergency regulations remain in effect for 180 days while Staff completes the regular rulemaking process. The emergency regulations may be readopted for up to two 90-day periods if necessary to complete the regular rulemaking process. The initial Program regulations were adopted and made effective through the emergency rulemaking process on March 10, 2014. The emergency regulations were first readopted on September 8, 2014, and were readopted for a second time on December 5, 2014. The initial Program emergency regulations are set to expire on March 6, 2015. The emergency regulations suspending the Program’s administrative fee became effective on January 30, 2015, and are set to expire on July 30, 2015. Staff must file a certificate of compliance and complete rulemaking file with the Office of Administrative Law ("OAL") certifying CAEATFA complied with the regular rulemaking procedures within the required timeframe to prevent the emergency regulations from being repealed.

The regular rulemaking process requires CAEATFA to provide notice of the text of the proposed regulations, the Initial Statement of Reasons, and the Notice of Proposed Rulemaking and to
publish the Notice of Proposed Rulemaking in the Notice Register. Upon notice and publication, the rulemaking file must remain open for a 45-day public comment period. After the conclusion of the comment period, CAEATFA may hold a public hearing on the proposed regulations. If CAEATFA makes any modifications to the proposed regulations originally made available in its initial notice and publication, CAEATFA must make the proposed modified regulations available to the public for an additional 15-day public comment period. After the 15-day comment period, CAEATFA may adopt the regulations and file the regular rulemaking package with OAL. OAL has 30 business days to review the regulations.

As mentioned above, Staff is currently completing the regular rulemaking process to adopt the Program regulations. The initially proposed regulations were published in the Notice Register on August 29, 2014, commencing the initial 45-day public comment period that ended on October 14, 2014. The proposed modifications to the regulations incorporating the statutory changes made by AB 2597 were made available for public comment from October 15, 2014, through October 30, 2014. The proposed modifications to the Program’s administrative fee requirements were made available for public comment from January 12, 2015, through January 27, 2015.

CHAPTER 614

[Approved by Governor September 26, 2014. Filed with Secretary of State September 26, 2014.]

LEGISLATIVE COUNSEL’S DIGEST

AB 2597, Ting. Energy: PACE program.
Existing law authorizes a public agency and a property owner to enter into voluntary contractual assessments to finance the installation of distributed generation renewable energy sources or energy or water efficiency improvements that are permanently affixed on real property (PACE financing program).
Existing law requires the California Alternative Energy and Advanced Transportation Financing Authority to establish a Property Assessed Clean Energy (PACE) Reserve program to assist local jurisdictions in financing, among other things, the installation of distributed generation renewable energy sources or energy or water efficiency improvements on residential projects. Existing law requires the authority, in considering the eligibility of a public agency’s PACE financing program for assistance under the PACE Reserve program, to consider whether the PACE program provides a loan that is less than 10% of the value of the property.
This bill would require the authority to consider whether a PACE financing program provides financial assistance that is less than 15% of the value of the property, for up to the first $700,000, and less than 10% of the remaining value of the property above $700,000, and whether the PACE financing program limits the total mortgage-related debt and PACE financing from exceeding the value of the property.

The people of the State of California do enact as follows:

SECTION 1.
The Legislature finds and declares all of the following:
(a) Property Assessed Clean Energy (PACE) financing programs are voluntary contractual assessment or voluntary special tax programs that finance the installation of distributed generation renewable energy sources, electric vehicle charging infrastructure, or energy or water efficiency improvements.
(b) The PACE risk mitigation program is intended to provide an additional safeguard for both existing and new residential PACE financing programs to expand in California.
(c) The PACE risk mitigation program is intended to remove any additional risk to the first mortgage lender and federal mortgage enterprises, such as Fannie
Mae and Freddie Mac, resulting from the existence of a PACE assessment on a property in foreclosure or forced into sale for unpaid taxes.
