

CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE

Public Benefit Analysis

Small-Issue Industrial Development Bond Programs and Projects

September 26, 2007 Allocation

Small-Issue Industrial Development Bonds (IDBs) are tax-exempt private activity bonds that are issued through state and local governmental agencies to assist manufacturing facilities finance capital expenditures. Today, most IDBs support expansions of existing manufacturing. IDBs offer considerable interest rate savings to small and midsize manufacturers in contrast to conventional loans. When used by manufacturers, IDBs serve to retain and create new jobs within their communities.

The California Debt Limit Allocation Committee (“Committee”) is responsible for administering California’s annual tax-exempt private activity bond program, known as “the annual State ceiling”. For calendar year 2007, California’s State ceiling is approximately \$3.098 billion. Each year the Committee divides the annual State ceiling among several bond programs, known as “Program Pools”, including the Small-Issue Industrial Development Bond Project Pool. For calendar year 2007, the Committee reserved \$97.7 million, or 3.2%, of the State ceiling for the IDB Project Pool. The \$97.7 million of bond authority will be allocated throughout the 2007 program year.

The Committee awarded \$24,475,000 million to Small-Issue Industrial Development Bond Projects on September 26, 2007. This represents 25% of the \$97.7 million IDB Project Pool and .7% of the 2007 \$3.098 billion State ceiling.

The Small-Issue Industrial Development Bond project funded on September 26, 2007 will create a total of 298 new jobs and retain a total of 275 existing jobs in Alameda, Los Angeles and San Joaquin Counties. Of these, 41 new and 19 retained jobs are in the City of Alameda, 110 new and 220 retained jobs are in the City of Montebello, and 147 new and 36 retained jobs are in the City of Stockton.
