Small-Issue Industrial Development Bond Programs and Projects

January 23, 2008 Allocation

Small-Issue Industrial Development Bonds (IDBs) are tax-exempt private activity bonds that are issued through state and local governmental agencies to assist manufacturing facilities finance capital expenditures. Today, most IDBs support expansions of existing manufacturing. IDBs offer considerable interest rate savings to small and midsize manufacturers in contrast to conventional loans. When used by manufacturers, IDBs serve to retain and create new jobs within their communities.

The California Debt Limit Allocation Committee (“Committee”) is responsible for administering California’s annual tax-exempt private activity bond program, known as “the annual State ceiling”. For calendar year 2008, California’s State ceiling is approximately \$3.107 billion. Each year the Committee divides the annual State ceiling among several bond programs, known as “Program Pools”, including the Small-Issue Industrial Development Bond Project Pool. For calendar year 2008, the Committee reserved \$100 million, or 3.2%, of the State ceiling for the IDB Project Pool. The \$100 million of bond authority will be allocated throughout the 2008 program year.

The Committee awarded \$20 million to the Small Business Program and \$12,471,886 to Small-Issue Industrial Development Bond Projects on January 23, 2008. The award to the Small Issue Industrial Development Bond Projects represents 12.5% of the \$100 million IDB Project Pool and .4% of the 2008 \$3.107 billion State ceiling.

The Small Business Program funds small businesses on an ongoing basis throughout the year. In awarding the \$20 million of allocation to the California Industrial Development Financing Advisory Commission (CIDFAC), the Committee authorized CIDFAC to transfer portions of the allocation to local issuers and the California Infrastructure and Economic Development Bank (I-Bank) for purposes of issuing bonds under the Program on behalf of qualified Small Businesses. CIDFAC, local issuers and/or I-Bank will have until mid-December 2008 to issue bonds. Any unused allocation will revert back to the Committee to reallocate to other programs.

The Small-Issue Industrial Development Bond projects funded on January 23, 2007 will create a total of 89 new jobs and retain a total of 229 existing jobs in Los Angeles County. Of these, 20 new and 169 retained jobs are in the City of Los Angeles, 69 new and 60 retained jobs are in the City of Vernon.
