**Project Title:** Crisis System of Care

- Crisis Residential Treatment Program:** 8 new beds
- Crisis Stabilization Treatment Program:** 10 new beds
- Mobile Crisis Support Team:** 2 new vehicles and 10 new staff

**Summary of Programs:**

Crisis Residential Treatment Program

The County of Santa Barbara (the "County") will establish a non-institutional Crisis Residential Treatment Program for mental health clients to receive up to 30 days of respite, peer support, and linkages to ongoing services and resources. The program will increase capacity by adding eight new beds. Approximately 190 consumers annually will have access to crisis residential services as a result. A County owned low-income residence is currently under consideration for renovation. Services will be provided by a local nonprofit contract provider. The funds will be used for renovation, furnishings and equipment.

Crisis Stabilization Treatment Program

The County will partner with Cottage Hospital to establish its first-ever Crisis Stabilization Unit, which is designed to provide a safe, nurturing, short-term emergency treatment alternative to hospitalization for individuals experiencing a mental health emergency. The County identified a building located three blocks from Cottage Hospital that can accommodate up to 10 consumers daily for stays up to 23 hours. The environment will be designed to be comfortable and non-clinical to provide a calming experience. A minimum of 3,650 client contacts can be handled annually, eliminating the backlog at the hospital's emergency department while providing patients with a more appropriate, less restrictive, environment and immediate treatment for de-escalation of crisis symptoms. Services will be provided by the County in close partnership with Cottage Hospital. The funds will be used to purchase, renovate, furnish and equip a building.

Mobile Crisis Support Team Program

The County will establish a Mobile Crisis Support Team for the City of Lompoc, which is the only service area without a team. It is one of the three largest population centers in the County, and will complete its continuum of care. The program will provide rapid response in mental health emergencies. The program will dramatically decrease response times, expedite transfer to appropriate care, and relieve overburdened medical and law enforcement personnel. A team will consist of a Peer Recovery Assistant, a Mental Health Specialist, and a Psychiatric Nurse. Services will be provided by the County. The funds will be used to purchase two vehicles and fund the salaries of 10 staff members.

Staff evaluated the plan for all three programs and they are likely both feasible and sustainable.

**Staff Recommendation:** Staff recommends the Authority approve a Final Allocation not to exceed the recommended amounts in this report for the County.

<sup>1</sup> Senate Bill 82 suggests that each county may seek through California Department of Health Care Services to recover 41% of total operating costs for its Mobile Crisis Support Team from Medi-Cal Federal Financial Participation.

<sup>2</sup> Based on 12 months of personnel funding at 59% of total annual operating costs.

<sup>3</sup> This amount reflects the totality of remaining funding for the region after higher-scoring applications are funded.
