- Crisis Stabilization Program**
- Mobile Crisis Support Team**

Summary of Project:

The County of Sacramento (the “County”) will implement a new 15-bed Crisis Residential Treatment (“CRT”) Program to expand alternatives to inpatient psychiatric services for individuals experiencing an acute mental health crisis between the ages of 18 and 59. The County will improve access to crisis services by coordinating the services of the proposed new CRT Program, the new Triage/Peer Navigators program, the Mobile Crisis Support Teams Program approved for a Grant in the first funding round, and an existing 12-bed Crisis Residential Treatment program. The additional 15 beds will increase the County’s capacity for CRT services by 125%. The existing 12-bed CRT program currently serves 177 individuals annually and it is anticipated that the new CRT Program will serve an additional 231 individuals annually, increasing total individuals served to 408 annually. The County expects to begin providing CRT services within nine months of Final Allocation. Grant funds will be used to renovate an existing building, purchase furnishings, equipment, and information technology, and to finance three months of start-up costs. Staff has evaluated the plan and determined it is likely both feasible and sustainable.
