

**CALIFORNIA HEALTH FACILITIES FINANCING AUTHORITY (“Authority”)**

**Investment in Mental Health Wellness Grant Program (“IMHWGP”)**

**Third Amendment to Resolution Number MH 2014-06 (Los Angeles County)**

**December 3, 2015**

**PURPOSE OF THE REQUEST:**

The Authority approved a Final Allocation for an Investment in Mental Health Wellness Grant for Los Angeles County (“Los Angeles”) in an amount not to exceed \$40,892,700.49 at its April 24, 2014 meeting. An amendment to the resolution was approved on May 29, 2014 to amend the project to correctly reflect the number of crisis stabilization beds and mobile crisis support teams to be implemented by Los Angeles. On April 9, 2015, the resolution was amended to reflect a change to the entire program allowing Los Angeles to collaborate with private non-profit organizations that contract with Los Angeles to enter into an agreement directly with the Authority to purchase and construct or renovate real property using awarded grant funds.

Since then, Los Angeles has hired all personnel for the Mobile Crisis Response Teams proposed under its grant and these teams are working with local law enforcement. Los Angeles is currently in the process of evaluating six proposals that were received in response to a Request for Proposal (“RFP”) for the Crisis Stabilization Units. Los Angeles expects to have all proposals scored and contracts awarded by the end of January 2016. Additionally, Los Angeles is preparing to issue an RFP for the Crisis Residential Treatment Programs and expects to have the RFP issued by the end of December 2015.

Los Angeles expects that the county will need to request grant funds after the grant period expires and respectfully requests that the Authority extend the grant period to fully implement the remaining project components. Los Angeles expects to have all programs fully operational by June 30, 2017.

**RECOMMENDATION:**

Staff recommends the Authority approve a third Amendment to Resolution Number MH 2014-06 for Los Angeles to extend the project period end date and resolution expiration date to June 30, 2017. All other conditions of the Resolution would remain the same and in full effect.

## EXHIBIT A

### PROJECT DESCRIPTION

The proceeds of the grant will be used by the County of Los Angeles as follows:

#### **Crisis Residential**

The County of Los Angeles (the "County"), will implement 35 new Crisis Residential Treatment Programs ("CRTPs") with a capacity of 16 residents each located throughout the county for a total of 560 new beds to serve adults with mental illness in psychiatric crisis, including those with co-occurring substance abuse disorders. CRTPs will be located throughout the County, and provide a safe home-like environment. The funds will be used to purchase land/facility, construct/renovate the facility, furnish and equip the facility, finance information technology, and finance three months of startup costs. Grant funds for the acquisition and construction/renovation of real property may be given directly to a designated private nonprofit corporation.

#### **Crisis Stabilization**

The County will establish three additional Crisis Stabilization Units aka Urgent Care Centers ("UCCs") in areas that do not have UCCs at this time. The three new UCCs will expand access and capacity throughout the region and will be located in the Antelope Valley area, San Gabriel Valley/Tri City area, and the South Bay/Harbor area. Each UCC will provide services for 12 adults and six adolescent beds with the ability to treat up to 45 individuals per day whose problems can be met with short-term (under 24 hours), immediate care and connections to community-based resources. The program will emulate the four existing UCCs, providing 24 hour stabilization services, 365 days a year in a home-like environment and will add 54 new Crisis Stabilization beds. The funds will be used to purchase land/facility, construct/renovate the facility, furnish and equip the facility, finance information technology and finance three months of startup costs. Grant funds for the acquisition and construction/renovation of real property may be given directly to a designated private nonprofit corporation.

#### **Mobile Crisis Support**

The County will establish 14 mobile crisis support teams and 1 clerical staff to provide field based crisis intervention services to children, adolescents, and adults throughout the county. The program's objectives are to expand access and capacity throughout the region, which decreases the need for inpatient psychiatric hospitalizations by providing immediate field based services. The teams will include partnerships with law enforcement agencies throughout the county in which law enforcement officers, along with one licensed clinician, will respond to 911 calls for assistance involving persons experiencing a mental illness. This program will partner with nine law enforcement agencies. Also the law enforcement agencies will contribute unmarked police vehicles (for the teams to respond to calls), office space, furniture, training, and personnel to partner with licensed clinicians. Planned psychiatric mobile response teams will provide two licensed mental health clinicians to respond to community calls to persons of all ages with various acute mental health issues. The project will be operational by March 2015. The funds will be used to purchase four vehicles, information technology equipment, three months of program expansion costs, and to hire the new personnel.
