BORROWER PROJECT ELIGIBILITY CRITERIA AND CERTIFICATION FORM
(Revised May 2012)

The undersigned Borrower hereby applies for CalRecycle funds to pay the borrower's and lender's premium for participation in the California Pollution Control Financing Authority (CPCFA) California Capital Access Program (CalCAP). The lender will submit this form with the standard CalCAP Loan Enrollment Form to CPCFA. For assistance, see CalRecycle contact information below.

Eligible Applicants and Projects*:
(Check an appropriate box)

- SOURCE REDUCTION: Applicant is a business that practices, or proposes to practice, appropriate *source reduction* by performing specific actions that cause a material net reduction in the generation of solid waste in the production of a product.
- REUSE: Applicant is a business that *reuses* a product (not a material) which has served its useful life, and provides new value to the product, by reconditioning, reprocessing, or some other value-added process which makes the product usable again for its original intended purpose. In all cases, the project must demonstrate that it will have a reduction in the amount of material being disposed of in California's landfills.
- RECYCLING: Applicant is a business that *recycles* by using post-consumer or secondary materials to produce a value-added finished product or provides necessary intermediate processing of a recycled/recovered material. A value-added product is one in which a material has changed its character or composition through a manufacturing process. This differs from collecting, sorting, and baling of recycled/recovered material for convenience or ease of transportation.

The full project criteria and examples may be viewed on the CalRecycle website at:
www.CalRecycle.ca.gov/rmdz/loans

Corporations and limited liability companies must be duly authorized to do business in California and properly registered with the Secretary of State (SOS). The SOS website is <http://kepler.sos.ca.gov/>

In all cases, the borrower agrees to annually submit documentation, upon request of CalRecycle, to verify annual diversion of solid non-hazardous waste from California's landfills.

*The materials and or products that are source reduced, reused, or recycled exclude metals, electronic waste, and hazardous waste.
