

California Pollution Control Financing Authority

California Capital Access Program (CalCAP)

Severely Affected Communities

If a CalCAP loan enrollment is for a borrower located within a Severely Affected Community (SAC), it may qualify for an additional contribution. Borrowers with addresses in areas of high unemployment are located within a Severely Affected Community, as provided in the CalCAP Program Regulations. Currently, SAC contributions are offered in the CalCAP for Small Business Loan Loss Reserve program, the CalCAP Collateral Support Program, and the CalCAP Americans with Disabilities Act Financing Program.

To determine whether a business is located in a Severely Affected Community, CalCAP uses data published by the Employment Development Department (EDD). A business is located in a Severely Affected Community if the Borrower's address is in a city where the unemployment rate is 110% of the state unemployment average or more. If the business is located in an unincorporated area of a county or if the city is not listed, the unemployment rate for county where the business is located will be used to determine whether or not the business is eligible to receive an additional premium.

Follow these steps to report a loan enrollment located in a Severely Affected Community:

1. Check the current California unemployment rate posted by reviewing EDD's Monthly Data Release by navigating to <http://www.labormarketinfo.edd.ca.gov/data/monthly-data-release.html> and selecting California and Counties under Current Month Data:

The screenshot shows the EDD website interface. At the top, there is a navigation bar with links for 'About EDD', 'Find a Job', 'File & Manage a Claim', 'Employer Services', and 'EDD News'. Below this is a section titled 'Monthly Data Release' with a description of the data and a list of links. A 'Monthly EDD Press Release' section contains a dropdown menu for 'View a Statewide or a County Press Release:' set to 'California - Official EDD Release' and a 'Go' button. Below this is a list of links for 'Current Month Data'. A red arrow points to the 'California and Counties' link in this list.
