At the time this financing closes, the estimated Project costs will be finalized and stated in the Tax Certificate. Variations from the costs shown in the application and in this report may occur prior to the closing due to increased costs of certain components of the Project from original estimates, and other reasons. In addition, such costs may vary after closing due also to increased costs, as well as common design and equipment modifications during construction, differences in equipment due to future changes in law or regulation or for other reasons. However, the Borrower confirms, through submission of a signed application and will confirm through covenants and representations in various bond documents, that all assets purchased with bond proceeds will qualify for tax exempt financing, that they will be used to complete the Project as provided in the loan agreement, and that the average life tests required by federal law and described in the Tax Certificate will continue to be met. Tax-exempt financing may be only one source out of multiple sources of financing for a given project.

RE: California Debt Limit Allocation Committee, Exempt Facility Approvals  
Yulupa Investments, LLC Project

Dear Ms. Jones-Kelly:

I write to you today on behalf of Yulupa Investments, LLC, relating to bond financing for their solid waste processing facilities for which approval will be requested at the California Debt Limit Allocation Committee ("CDLAC") meeting in January 2008.

My staff and I have worked with the management of Yulupa Investments, LLC in their development and permitting of the proposed project and they now are ready for final approval of the financing.

I understand that in order to receive approval for the issuance of tax exempt bonds, on whose lower interest rates the "project" economics have been based, that CDLAC must grant part of the State’s allocation for “private activity” bonds as defined by the federal government to the Project. I further understand that the demand for such allocation is greater than ever, and far exceeds the available allocation.

While I can imagine that your job in apportioning the available allocation among competing and equally beneficial projects is difficult, I want to let you know that, to the City of Ukiah, this project is important. It is a project which is a part of, and crucial to, our overall plan of compliance with AB 939. In addition, we and Yulupa Investments, LLC agree that the implementation of this project is a cost effective addition to our overall program, taking into account cost, technology and expected waste diversion.

On behalf of the City of Ukiah, I would therefore strongly urge that you approve the Yulupa Investments, LLC Project at your meeting in January. Thank you.

Very truly yours,

Candace Horsley  
City Manager
