Summary. The California Capital Access Program for Small Businesses (“CalCAP”) assists small businesses in obtaining financing. The Independent Contributor Program has been a very successful part of CalCAP. California Air Resources Board (ARB) has agreed to participate in CalCAP as an Independent Contributor. The current Interagency Agreement (the “Agreement”) between the California Pollution Control Financing Authority (the “Authority” or “CPCFA”) and ARB allocates up to $500,000 of ARB funds toward the Independent Contributor program for a pilot program aimed at assisting off-road diesel equipment operators to comply with new air quality regulations. This amendment to the Agreement would increase ARB’s allocation up to $1,000,000. The pilot program will be conducted in portions of the Central Valley. The term of the Agreement will be July 1, 2008 through February 28, 2010.

Background. The ARB adopted the in-use, off-road diesel vehicle regulation (“Regulation”) in July 2007. The Regulation will apply to about 180,000 vehicles in approximately 8,000 fleets across the State. Affected vehicles are used primarily in the construction and mining industries. The total cost to affected fleets is expected to be over $3 billion. The Regulation is expected to significantly reduce particulate matter and oxides of nitrogen pollution and prevent approximately 4,000 premature deaths.

To meet the Regulation’s requirements, ARB estimates over 100,000 exhaust retrofit devices will need to be installed over the course of the Regulation’s implementation, with over 30,000 needed by 2010. These exhaust retrofits are most commonly diesel particulate filters, which capture particulate matter before it can be released back into the atmosphere. The cost for one filter ranges from $8,000 to over $60,000, depending on the horsepower of the engine being retrofitted. Therefore, the cost to individual fleets for retrofits will be significant. During the course of the regulation development, many fleets indicated they would need to borrow money to purchase the required retrofits.
Agenda Item 4.C.

The Interagency Agreement. On June 25, 2008, the Board approved the Authority enter into an Interagency Agreement with ARB that would allocate up to $500,000 of ARB funds toward the Independent Contributor Program from July 1, 2008 through February 28, 2010. The Interagency Agreement was executed by ARB and the Authority and was approved by DGS on August 27, 2008. Subsequently, ARB received additional funds to be used towards the program. As such, staff is now requesting approval to amend the Interagency Agreement with ARB to increase the Agreement from $500,000 to an amount not to exceed $1,000,000. For every $100,000 ARB contributes to the program, CalCAP will be able to leverage $715,000 to $1,250,000 in loans.

Staff Recommendation. Staff recommends approval to amend the Interagency Agreement with the California Air Resources Board, an Independent Contributor for the California Capital Access Program, to increase the Agreement from $500,000 to an amount not to exceed $1,000,000.
