Summary. Agri Service, Inc. and/or its Affiliates (the “Company”) requests approval of an Initial Resolution for an amount not to exceed $3,065,000 to finance the installation of an aerated compost system located at its El Corazon Compost Facility, the construction of a scale house and site improvements and other essential operating equipment. The Company anticipates that the project will provide waste diversion, air quality, water quality, and recycling benefits.

Borrower. The Company is in the business of composting organic waste into beneficial soil, mulch, and potting soils that is available for purchase. Its El Corazon Compost Facility has helped the city of Oceanside and neighboring cities meet their waste diversion and disposal goals. Agri Service, Inc. was incorporated in California in November 2001.

The Company is 100% owned by Mary Matava.

Legal Questionnaire. The Staff has reviewed the Company’s responses to the questions contained in the Legal Status portion of the Application. No information was disclosed in the Legal Status portion of the Application that raises questions concerning the financial viability or legal integrity of this applicant.

Project Description. Since 1994, Agri Service, Inc. has leased approximately 15 acres of land from the city of Oceanside to permit and operate the El Corazon Compost Facility (the “El Corazon”). In 2005, the Oceanside City Council approved a Master Plan for the El Corazon that includes the relocation of the El Corazon to a different parcel on the site. Bond proceeds will be used to finance the installation of an aerated compost system that includes the implementation of concrete pads with built-in channels that pump air through the compost piles (see Attachment A). The air channels will result in a reduction of emissions of volatile organic compounds and aid in the reduction of microbial activity. In addition, bond proceeds will also be used to finance a scale house and other equipment vital to the compost facility operations.

Volume Cap Allocation. The Company anticipates applying to the Authority for volume cap allocation in August 2012.
