Summary. Metropolitan Recycling, LLC and/or its Affiliates (the “Company”) requests approval of a Final Resolution and Volume Cap Allocation for an amount not to exceed $12,120,000 to design and construct a modification to its existing Material Recovery Facility (“MRF”) as well as the purchase of processing and recycling equipment, and of rolling stock, drop boxes, bins, carts and containers (the “Project”). The new facility is designed to process 45,000 tons of materials per year. The Board approved the Initial Resolution in the amount of $6,175,000 on September 27, 2011. Due to a franchise extension and a larger service area, the Company requests an increase via the Final Resolution to $12,120,000. The Company also requests assistance from the Small Business Assistance Fund in the amount of $39,120.

Borrower. The Metropolitan Recycling Corporation (MRC) opened for business in 1999. MRC, which was created to respond to the necessity for greater recycling options, initially provided small volume sorting of construction and demolition waste including wood, aggregate materials, paper, plastic, dirt, sand and more. On April 7, 2010, the Company converted to an LLC.

The Company currently provides recycling services to the metropolitan Bakersfield area.

Note: The Project costs reported in the Company’s application and shown here in staff’s report are estimated costs. At the time this financing closes, the estimated Project costs will be finalized and stated in the Tax Certificate. Variations from the costs shown in the application and in this report may occur prior to the closing due to increased costs of certain components of the Project from original estimates, and other reasons. In addition, such costs may vary after closing due also to increased costs, as well as common design and equipment modifications during construction, changes in equipment due to future changes in law or regulation or for other reasons. However, the Company confirms, through submission of a signed application and will confirm through covenants and representations in various bond documents, that all assets purchased with bond proceeds will qualify for tax exempt financing, that they will be used to complete the Project as described, and that the average life tests required by federal law and described in the Tax Certificate will continue to be met. Tax-exempt financing may be only one source out of multiple sources of financing for a given project.

**Anticipated Timeline.** The Company has already started purchasing equipment and anticipates completing the Project by the end of 2013.

**Local Government.** The Company received a letter of support from Mr. Paul M. Rojas, Public Works Director with the City of Bakersfield (Attachment A).

**Pollution Control and/or Environmental Benefits.** The Company represents the Project will generate the pollution control and environmental benefits described below.

**Waste Diversion.** Up to 90% of the materials that will be collected by the Project will be diverted from the local landfills where the materials previously were disposed.

**Air Quality.** Emissions associated with the transportation of materials will be reduced as the MRF is approximately 15 miles closer to the material collection points than the landfill.

**Energy Efficiency.** Less fuel will be required to transport materials to a MRF that is 32 miles closer than the landfill where they were previously disposed.

**Recycling of Commodities.** The recycling of commodities benefits the environment by reducing greenhouse gas emissions, conserving valuable landfill space, and minimizing the use of natural resources by recovering post-consumer materials and making them into new products. It is estimated that approximately 50% of the material processed, approximately 22,500 tons per year, will be recycled.
**Permitting and Environmental Approvals.** The Project will be undertaken within the limits of the company’s existing Conditional Use Permit. No discretionary permits are required.

**Financing Details.** The Company anticipates issuance of negotiated tax-exempt, weekly reset, variable rate bonds with a term not to exceed 30 years for the qualifying portion of the Project. The Company plans to secure the bonds with an irrevocable, direct pay Letter of Credit from Comerica Bank that is rated at least “A-” by Fitch Rating Agency or equivalent. The target date for financing is July 19, 2012.

RESOLUTION NO. 09-136-04

A RESOLUTION DEDICATING FOR USE OF A PORTION OF THE 2009 STATE CEILING ON QUALIFIED PRIVATE ACTIVITY BONDS FOR AN EXEMPT FACILITY PROJECT

WHEREAS, the California Pollution Control Financing Authority (“CPCFA”) has received an application (“Application”) from Metropolitan Recycling, LLC and/or its Affiliates (“Project Sponsor”) for approval of the issuance of revenue bonds; and

WHEREAS, on June 19, 2012, CPCFA approved Final Resolution No. 519 (“Final Resolution”) authorizing the issuance of up to $12,120,000 of its solid waste disposal revenue bonds (Metropolitan Recycling, LLC Project) Series 2012 (“Bonds”); and

WHEREAS, in seeking CPCFA approval of the Final Resolution, the Project Sponsor represented certain facts and information concerning the Project to CPCFA which were relied upon by CPCFA in approving the Final Resolution; and

WHEREAS, the California Debt Limit Allocation Committee (“CDLAC”) has previously transferred to CPCFA a portion of the 2009 State Ceiling on Qualified Private Activity Bonds pursuant to Section 146 of the Internal Revenue Code of 1986, as amended, for use by CPCFA to issue bonds or other obligations in a manner consistent with CDLAC’s policies and procedures. Accordingly, capitalized terms not otherwise defined shall have the meanings ascribed to them in the “Procedures of the California Debt Limit Allocation Committee Implementing the Allocation of State Ceiling on Private Activity Bonds” (“CDLAC Procedures”); and

WHEREAS, it is appropriate for CPCFA to confirm the use of a portion of the 2009 State Ceiling on Qualified Private Activity Bonds allocated to CPCFA (“CPCFA Allocation”) to the issuance of the Bonds as set forth in the Final Resolution;

NOW, THEREFORE, CPCFA resolves as follows:

Section 1. CPCFA Allocation in the amount of $12,120,000 is hereby dedicated to the issuance of the Bonds. The dedicated CPCFA Allocation may be used only by the Project Sponsor and only for the issuance of Bonds for the Project, as specifically described in Exhibit A, and consistent with the terms of the Final Resolution. All of the terms and conditions of Exhibit A, and the Final Resolution are incorporated herein as though set forth in full (this resolution, the Final Resolution and Exhibit A, collectively “Resolution”).

Section 2. The terms and conditions of this Resolution shall be incorporated in appropriate documents relating to the Bonds, and the Project Sponsor and all its respective successors and assignees, will be bound by such terms and conditions.
Section 3. Any modification to the Project made prior to the issuance of the Bonds must be reported to the Executive Director and shall require reconsideration by the CPCFA before the Allocation may be used for the Project.

Section 4. The CPCFA Allocation dedicated by this Resolution shall automatically revert to CPCFA unless the Bonds for the Project have been issued by CPCFA by the close of business on September 17, 2012. In a case of extreme hardship, the Deputy Executive Director or the Executive Director may extend this date by up to thirty (30) business days.

Section 5. Within twenty-four (24) hours of issuing the Bonds, CPCFA shall notify CDLAC via the email or the fax number as provided in Section 5140 of the CDLAC Regulations that the Bonds have been issued. This notice shall identify the Project Sponsor, the Project or program, the date and amount of the Bonds issued.

Section 6. Within fifteen (15) calendar days of the Bond closing, CPCFA or its counsel shall formally transmit to CDLAC information regarding the issuance of the Bonds by submitting the appropriate completed Report of Action Taken in a form prescribed by and made available by CDLAC.

Section 7. Any differences between the amount of Bonds issued and the amount of the CPCFA Allocation dedicated in Section 1 of this Resolution shall automatically revert to CPCFA. If at any time prior to the expiration date set forth in Section 4 hereof the Project Sponsor determines that part or all of the CPCFA Allocation dedicated in Section 1 of this Resolution will not be required by the Project by that date, the Project Sponsor shall promptly give notice to CPCFA.

Section 8. In consideration of the CPCFA Allocation dedicated in Section 1 of this resolution, the Project Sponsor shall comply with all of the terms and conditions contained in this Resolution and ensure that these terms and conditions are included in the documents related to the Bonds. Further, the Project Sponsor expressly agrees that the terms and conditions of this Resolution may be enforced by CDLAC or CPCFA through an action for specific performance or any other available remedy, provided however, that CDLAC and CPCFA agree not to take such action or enforce any such remedy that would be materially adverse to the interests of Bondholders. In addition, CPCFA shall ensure that the Bond documents, as appropriate, expressly provide that CDLAC is a third party beneficiary of the terms and conditions set forth in this Resolution.

Section 9. The Project Sponsor or its successor-in-interest shall provide certifications of compliance with the terms and conditions set forth in this Resolution when reasonably requested by CDLAC or CPCFA.

Re: California Pollution Control Financing Authority, Exempt Facility Approval for Metropolitan Recycling, LLC Project  

Dear Mr. Paparian:

I write to you today on behalf of Metropolitan Recycling, LLC ("Metropolitan") with respect to their commercial recycling project for which approval for financing will be requested at the California Pollution Control Financing Authority ("CPCFA") meeting in April.

My staff and I have worked with the management of Metropolitan over the past year in their development of the proposed project and they now have a twenty year lease term on the property as requested for approval of the financing. I understand that in order to receive approval for the issuance of tax exempt bonds, on whose lower interest rates the "project" economics have been based, that CPCFA must grant part of the State's allocation for "private activity" bonds as defined by the federal government to the Project.

We agree that the implementation of this project is a cost effective addition to our overall program, taking into account cost, technology and expected waste diversion.

On behalf of the City of Bakersfield I would appreciate it if you would approve the Metropolitan Project. Thank you.

Very truly yours,
