**Tie-Breaker Information**

First:	<b>Special Needs</b>
Second:	<b>62.347%</b>

**Cost Analysis and Line Item Review**

Staff analysis of project costs to determine reasonableness found all fees to be within TCAC’s underwriting guidelines and TCAC limitations. Annual operating expenses exceed the minimum operating expenses established in the Regulations, and the project pro forma shows a positive cash flow from year one. Staff has calculated federal tax credits based on 7.50% of the qualified basis. Applicants are cautioned to consider the expected federal rate when negotiating with investors. TCAC's financial evaluation at project completion will determine the final allocation.

**Special Issues/Other Significant Information:** Of the 37 proposed special needs units for the homeless in the project, 23 of the units are for chronically homeless individuals with mental illness. 11 of these 23 units are CalHFA MHSA units. The project has 21 HUD Section 8 project-based vouchers from the Housing Authority of the City of Los Angeles covering 17 efficiency units and 4 one-bedroom units, and HUD Shelter Plus Care from the Los Angeles Homeless Services Authority (LAHSA) for 16 efficiency units.

**Legal Status:** Staff has reviewed the Applicant's responses to the questions contained in the Legal Status portion of the Application. No information was disclosed that raised any question regarding the financial viability or legal integrity of the applicant.

**Local Reviewing Agency:**

The Local Reviewing Agency, the Los Angeles Housing Department, has completed a site review of this project and strongly supports this project.

**Recommendation:** Staff recommends that the Committee make a preliminary reservation of tax credits in the following amount(s) contingent upon standard conditions and any additional conditions imposed by the Committee:

<b>Federal Tax Credits/Annual</b>	<b>State Tax Credits/Total</b>
<b>\$797,550</b>	<b>\$0</b>

**Standard Conditions**

The applicant must submit all documentation required for a Carryover Allocation, any Readiness to Proceed Requirements elected, and a Final Reservation. Failure to provide the documentation at the time required may result in rescission of the Credit reservation and cancellation of a carryover allocation.

TCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of TCAC.

The applicant must pay TCAC a performance deposit and allocation fee calculated in accordance with regulation. Additionally, TCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within TCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by TCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by TCAC in its final feasibility analysis.

The applicant must ensure the project meets all Additional Threshold Requirements of the proposed project. If points were awarded for service amenities, the applicant will be required to provide such amenity or amenities identified in the application, for a minimum period of ten years and at no cost to the tenants. Applicants that received points for sustainable building methods (energy efficiency) must submit the certification required by Section 10325(c)(6) at project completion. Applicants that received increases (exceptions to limits) in the threshold basis limit under Section 10327(c)(5) must submit the certification required by Section 10322(i)(2) at project completion.

**Additional Conditions:** None.
