¹ GoGreen Business uses a credit enhancement in the form of a Loan Loss Reserve to leverage private capital at reduced rates and extended term lengths for borrowers. The credit enhancement is provided by utility ratepayer funds.

² Some properties are served by more than one IOU, meaning the total of financing agreements enrolled by IOU may not match the total number of loans enrolled. Financing agreements enrolled by IOU are reported regardless of what measures are installed.

³ Represents the number of contractors/project developers enrolled in GoGreen Business as of December 31, 2022. Over time, some contractors/project developers are suspended or removed from the Program as part of routine quality checks for reasons such as license expirations.
