Every Cool Roof installation financed through GoGreen Home must meet the following performance requirements\*, regardless of climate zone or roof type/slope:

Solar Reflectance (SR)	Thermal Emittance (TE)	Solar Reflectance Index (SRI)
<b>0.63</b>	<b>0.75</b>	<b>75</b>

For more information on SR, TE and SRI: [Cool Roof Rating Council Guidance Sheet](#)

GoGreen Home has created a pre-filtered list of hundreds of rated roof products that comply with these requirements: [GoGreen Home Eligible Cool Roof Products List](#)
