

Project Requirements Checklist for Contractors

GoGreen Home Energy Financing Program

Projects must meet the following requirements in order to qualify for a GoGreen Home loan.

BORROWER

- Owner, or tenant with written permission from owner

PROPERTY

- Upgrade is for 1-4 units
- Single-family, townhome, condo/apt unit, or manufactured/mobile home with permanent foundation

EEEMs

- Measures are on the EEEMs list¹ OR are eligible for an IOU/REN/CCA energy efficiency or demand response program
 - Title 24/20 compliant (and ENERGY STAR, if applicable)
- Must save energy corresponding to the fuel provided by an investor-owned utility (IOU)

¹EEEMs List: [GoGreenFinancing.com/ResidentialMeasures](https://www.GoGreenFinancing.com/ResidentialMeasures)

PROJECT

- Maximum (claim-eligible) loan amount: \$50,000 per unit
- 70% or more of (claim-eligible) loan amount funds EEEMs and other legally (e.g. permits, safety testing) & practically (e.g. installation, patching, painting) necessary alterations
- 30% of the (claim-eligible) loan amount may be used for additional related home improvements (e.g. new cabinets)
 - EEEMs for non-IOU fuel sources are eligible
 - Inefficient versions of EEEMs (e.g. non-ENERGY STAR refrigerator) are not eligible
- Claim-eligible loan amount is NOT funding solar electric generation or battery storage

ADDITIONAL REQUIREMENTS

- Borrower must be provided with a [Bill Impact Estimate](#)
- Contractor must be [enrolled](#) in the GoGreen Home Program at time of project approval
- All legally required permits must be obtained
- Required combustion appliance safety testing must be conducted, if required

Note: Projects with multiple contractors may result in a funding delay until the entire project is complete. Talk with the lender about options in this situation.
