gogreen@egia.org

Phone: 888-987-3443

All eligible measures can be found on the EEEMs list.

- The EEEMs list can be searched by the measure name, measure category, and the measure's fuel source (gas, electric or both). (A)
- All EEEMs must be installed in compliance with Title 20/24, which can vary based on climate zone; some have additional efficiency requirements such as ENERGY STAR (B)
- The EEEMs list indicates which measures can be self-installed and which require professional install by a contractor (C)
- A measure which is not on the EEEMs list but qualifies for an IOU/REN/CCA energy efficiency or demand response program (e.g. a rebate program) is eligible
 - IOU: Investor-Owned Utility (PG&E, SoCalGas, SoCal Edison, SDG&E)

The screenshot shows the GoGreen Financing website interface. At the top, there are navigation links for Residential, Business, Multifamily, Partner Resources, and About GoGreen. Below this is a search and filter section labeled 'Filter results' with '(58 results)'. It includes a 'Fuel type' dropdown menu set to 'Any', a search box for 'Search by measure name' with the placeholder 'Enter measure name', a checkbox for 'Self-install eligible', a 'Search' button, and a 'Reset' link. A red box labeled '(A)' highlights this search area. Below the search area is a table titled 'Appliances'. The table has four columns: 'Measure Name', 'Fuel Type', 'Self-Install Eligible', and 'Measure Identifier'. The first row is 'Air Cleaner/Dryer' with 'Electric' fuel type, 'Yes' for self-install eligible, and identifier 'AP-ACLN'. A red box labeled '(B)' highlights the 'Requirements: Energy Star®' text under the measure name. The second row is 'Clothes Dryer (Electric)' with 'Electric' fuel type, 'Yes' for self-install eligible, and identifier 'AP-DRYE'. The third row is 'Clothes Dryer (Gas)' with 'Gas' fuel type, 'Yes' for self-install eligible, and identifier 'AP-DRYG'. A red box labeled '(C)' highlights the 'Self-Install Eligible' column for this row. The fourth row is 'Clothes Washer' with 'Electric or Gas' fuel type, 'Yes' for self-install eligible, and identifier 'AP-WASH'. The fifth row is 'Convection Electric Oven' with 'Electric' fuel type, 'Yes' for self-install eligible, and identifier 'AP-CNVE'.

Measure Name	Fuel Type	Self-Install Eligible	Measure Identifier
Air Cleaner/Dryer Requirements: Energy Star® (B)	Electric	Yes	AP-ACLN
Clothes Dryer (Electric) Requirements: Energy Star®	Electric	Yes	AP-DRYE
Clothes Dryer (Gas) Requirements: Energy Star®	Gas	Yes (C)	AP-DRYG
Clothes Washer Requirements: Energy Star®	Electric or Gas	Yes	AP-WASH
Convection Electric Oven	Electric	Yes	AP-CNVE

Project Eligibility Requirements

Questions? Contact the Contractor Liaison:

gogreen@egia.org

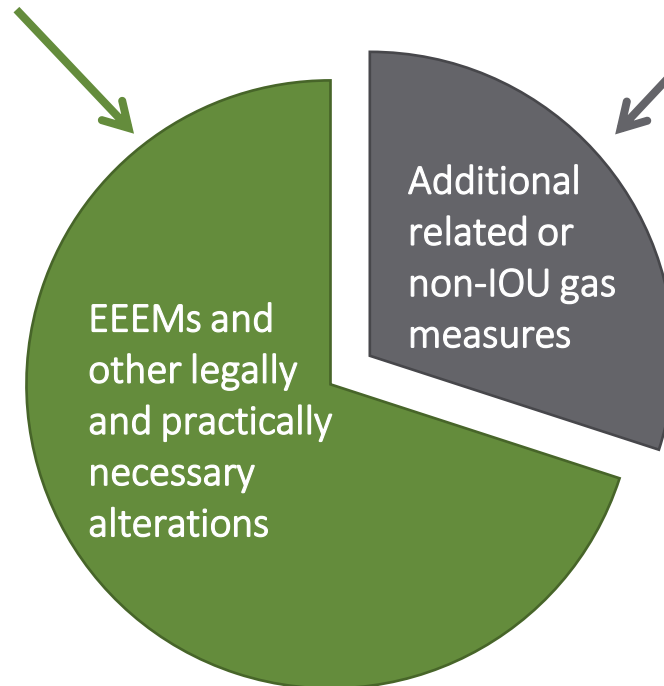

Phone: 888-987-3443

Maximum loan amount eligible for the credit enhancement:
\$50,000 per unit

- 70% of claim-eligible portion of the loan must fund **Eligible Energy Efficiency Measures (EEEMs)** and other **legally and practically necessary** alterations (e.g., drywall repair, electrical panel upgrade, safety testing, pulling permits etc.)
 - Property must receive gas *or* electricity from an IOU or the City of Palo Alto Utilities (CPAU)
- 30% of the claim-eligible portion of the loan may be used for **additional related home improvements** (e.g., landscaping, cabinetry, tile) and/or to fund gas-only EEEMs when the customer gets electricity from an IOU but gas from a non-IOU
 - Additional related home improvements can be self-installed or installed by a non-GoGreen Home contractor if needed

At least 70%

Up to 30%

¹ The Cool Roof measure is not eligible for GoGreen Home when the property receives gas from an IOU and electricity from a POU like SMUD or LADWP

Illustrating the 70/30 Split

Phone: 888-987-3443

At least 70%

Eligible Measures

- On the [EEEMs list](#)
- Total cost may include **practically necessary** construction (installation, patching, painting, etc.) or **legal** requirements to install the measures (permits, combustion safety testing, etc.)

Up to 30%

Additional Related Home Improvements

- Cabinets, fixtures, water efficiency measures, etc.
- Can be self-installed or installed by a non-GoGreen Home contractor

Gas-only EEEMs when electricity is provided by an IOU but gas is provided by a non-IOU utility (e.g. Long Beach Utilities)

Cannot include a less efficient version of an EEEM (e.g. non-ENERGY STAR Refrigerator)

Note: Neither solar electric generation or battery storage costs can be included in the 70% or 30%

Sample Loan: EEEMs, Legally & Practically Necessary Alterations, Additional Related Improvements

Context: This property receives gas from SoCalGas, and IOU, and electricity from LADWP, a public utility provider.

Item		Cost
Mini Split Heat Pump + Wall Repair	<i>Wall Repair is a practically necessary alteration</i>	\$3,000
Attic Insulation		\$1,500
Duct Sealing + Combustion Safety Test	<i>Combustion safety testing is necessary due to duct sealing and presence of a combustion appliance in the home</i>	\$2,500
Landscaping	<i>Additional related improvement; not an EEEM</i>	\$3,000
Total Project Cost		\$10,000

70% (\$7,000)

30% (\$3,000)
