

**CALIFORNIA ALTERNATIVE ENERGY AND
ADVANCED TRANSPORTATION FINANCING AUTHORITY**

Board Meeting Date: Tuesday, June 17, 2025

***Request to Approve an Extension of the 15% Purchase Requirement Timeframe
and the Initial Term of the Regulatory Agreement¹***

**Sugar Valley Energy, LLC
Application No. 22-SM014**

Prepared By: *Willy Chen, Program Analyst*

SUMMARY

Applicant: Sugar Valley Energy, LLC

Location: Brawley, Imperial County

Industry: Biomass Processing and Fuel Production

Project: New Biomass Processing and Fuel Production Facility
(Advanced Manufacturing)

Total Amount Qualified Property Approved: \$117,647,058.82

Estimated Sales and Use Tax Exclusion Amount at Approval:² \$10,000,000

Initial Board Approval Date: June 21, 2022

Amount of Time Requested:

- Requesting a one-year and six-month extension, until December 21, 2026, for the 15% purchase requirement timeframe (a total of four years and six months from the date of initial CAEATFA Board approval)
- Requesting a two-year extension, until December 21, 2028, for the initial term of the Regulatory Agreement (a total of six years and six months from the date of initial CAEATFA Board approval)

¹ All capitalized terms not defined in this document are defined in the Sales and Use Tax Exclusion Program's statutes and regulations.

² This amount is calculated based on the average statewide sales tax rate at the time of initial approval, which was 8.5%.

Staff Recommendation: Approval of a one-year extension, until June 21, 2026, for the 15% purchase requirement timeframe. In the event the 15% purchase requirement is not satisfied by June 21, 2026, the Regulatory Agreement will terminate without further action. Additionally, on the condition that the 15% purchase requirement is satisfied by June 21, 2026, approval of a two-year extension, until December 21, 2028, for the initial term will occur thereafter without further action.

BACKGROUND

On June 21, 2022, the CAEATFA Board approved a sales and use tax exclusion (“STE”) for Sugar Valley Energy, LLC (the “Applicant”) for the purchase of up to \$117,647,058.82 in Qualified Property to build a new biomass processing and fuel production facility located in Brawley (the “Project”). The Regulatory Agreement (“Agreement”) provided the Applicant with 18 months from the date of CAEATFA Board approval to purchase or execute purchase orders for at least 15% of the total Qualified Property amount approved.³ Also, the Agreement initial term provided the Applicant with three years from the date of CAEATFA Board approval to utilize its STE award.⁴

On December 12, 2023, the CAEATFA Board approved the Applicant for a one-year and six-month extension of the 15% purchase requirement from its original deadline of December 21, 2023, to June 21, 2025. The CAEATFA Board also approved a one-year and six-month extension of the initial term of the Agreement from its original termination date of June 21, 2025, to December 21, 2026, to accommodate delays related to obtaining financing.

As of May 2025, the Applicant has used the STE to purchase \$180,000.00 of Qualified Property (0.15% of the total Qualified Property approved). The Applicant is requesting to extend the 15% purchase requirement timeframe to accommodate the need for additional time to finalize project financings. The Applicant is also requesting to extend the Agreement’s initial term for the same accommodation.

THE APPLICANT

Sugar Valley Energy, LLC is a Delaware limited liability company that formed in 2011. The Applicant plans to build a biomass processing and fuel production facility in Brawley, using sugarcane as a feedstock. The Applicant has its headquarters in Manhattan Beach.

The major shareholders (10.0% or greater) of the Applicant are:

- California Ethanol & Power, LLC (100%)

³ California Code of Regulations Title 4, Division 13, Section 10035(b)(1)

⁴ California Code of Regulations Title 4, Division 13, Section 10035(b)(1)(A)

The company officers of the Applicant are:

- David R. Rubenstein, President & Chief Executive Officer
- Camille E. Soriano, Secretary

Application History

On December 17, 2013, the CAEATFA Board granted the Applicant, then known as California Ethanol and Power, Imperial Valley 1, LLC (“CE&P”), its first STE award for the purchase of up to \$444,811,275 in Qualified Property for an estimated STE value of \$37,230,704 to construct a facility that converts sugarcane and sweet sorghum into low-carbon, fuel-grade ethanol, biomethane and electricity.

On November 15, 2016, the CAEATFA Board approved the Applicant for a three-year extension of the initial term of the Regulatory Agreement, until December 17, 2019, to accommodate a new effort to finance and develop the Project after the Applicant’s original Brazilian-based financing and engineering teams experienced setbacks due to a decline in the Brazilian economy.

On November 19, 2019, the CAEATFA Board approved the Applicant an additional four-year extension of the initial term of the Regulatory Agreement, until December 17, 2023, to accommodate delays in obtaining project financing required to construct the production facility. The approved resolution required the Applicant to provide annual reports to the Board on the status of the Project during the initial term of the Regulatory Agreement, and provided that at the two-year report, the Board may determine whether to terminate the award.

On June 15, 2021, the CAEATFA Board approved a name change for the Applicant, which resulted in the Participating Party changing from CE&P to Sugar Valley Energy, LLC.

On November 16, 2021, the Applicant came before the CAEATFA Board to provide its two-year report. The Applicant reported it had not made any purchases of Qualified Property, and in response, the CAEATFA Board approved a resolution to terminate the Applicant’s award while encouraging the Applicant to reapply for the STE Program when its project is ready to move forward.

The Applicant reapplied for the same project and was competitively awarded a new STE allocation in June 2022. As mentioned, in December 2023, the Board approved the Applicant’s first request for an extension of the 15% purchase requirement and the initial term.

On January 24, 2025, the Applicant submitted its second request for an extension of the 15% purchase requirement and the initial term, which is the request being considered at this Board meeting.

THE PROJECT

The Applicant received an STE award to build a new biomass processing and fuel production facility located in Brawley. The Applicant plans to construct a facility that converts sugarcane into low-carbon, fuel-grade ethanol, biomethane, and electricity. The Applicant will pay Imperial Valley farmers a yearly land rent in order to secure a steady supply of feedstock for the Project. The Applicant anticipates that 52,000 acres of sugarcane will be needed to supply the Facility at peak production. The Applicant has executed a long-term contract for the sale of the ethanol to CHS, Inc., and is currently negotiating a biomethane and electricity off-take agreement with various parties. The Project is anticipated to produce 72.4 million gallons of ethanol fuel, 777 million cubic feet of biomethane, and 42.9 MW of electricity annually. The Project will utilize industrial biotechnology through the yeast-based fermentation of sugarcane juice to form ethanol and carbon dioxide.

The Applicant represents that its Project will be more advanced than other ethanol production facilities due to its efficient use of resources. The Project will utilize the vinasse—the liquid residue left in the distillation of ethanol from sugarcane derivatives—in an advanced anaerobic digester to produce biomethane gas to be placed in the local pipeline. Vinasse digestion is not a common practice among ethanol producers as it is normally simply used as fertilizer. The Applicant will also use bagasse—the leftover biomass—to generate electricity for the Project, which will result in a more sustainable production process by reducing greenhouse gas emissions compared to most ethanol facilities around the country that utilize natural gas for power. Also, the Applicant represents that it will utilize computerized modeling of all the processes within the Facility on a continuous basis to control processes and predict the production outcomes over time, ensuring predictable outcomes in terms of product quantity, quality, and production cost.

15% PURCHASE REQUIREMENT TIMEFRAME EXTENSION REQUEST

The Applicant has requested that the 15% purchase requirement timeframe be extended from June 21, 2025, to December 21, 2026, in order to accommodate finalizing project financing.

AGREEMENT INITIAL TERM EXTENSION REQUEST

The Applicant has requested that the initial term of the Agreement be extended from December 21, 2026, to December 21, 2028, in order to accommodate finalizing project financing.

STAFF EVALUATION

The CAEATFA Board can extend the 15% purchase requirement timeframe upon a finding of extraordinary circumstances and that an extension is in the public interest and advances the purposes of the STE Program.⁵

⁵ California Code of Regulations Title 4, Division 13, Section 10035(b)(1)(A)

The CAEATFA Board can extend the initial term of the Agreement upon a finding that an extension is in the public interest and advances the purposes of the STE Program.⁶

The Applicant is requesting an extension to accommodate the finalization of its capital stack. Since the original extension, the Applicant states its previous Engineering, Procurement, and Construction (EPC) partner sought to restructure contractual agreements in response to increased interest rates and inflation, which led to the execution of an agreement with its new EPC partner, Hoffman Construction.

According to the Applicant, the total capital needed for the Project is close to \$1.3 billion. The financing structure includes:

- \$600 million senior debt private loan
- \$225 million in tax-exempt bonds
- \$158 million in preferred equity
- \$131 million in new common equity
- \$141 million in investment tax credits (with \$20 million safe-harbored in December 2024)
- \$27 million in original development capital

The Applicant confirms that the timeline to reach financial close is December 31, 2025. Following financial close, the Applicant expects to make major equipment purchases. The Applicant states the major project milestones in 2024 included permit renewals, initial site work, and offtake agreements. More recently, SoCalGas completed its evaluation of the Project, which will allow for renewable natural gas to be injected into its pipeline.

Based on this information, Staff believes these are extraordinary circumstances, and that extending the 15% purchase requirement timeframe and the initial term of the Agreement will allow for the Project to be completed, and is, therefore, in the public interest and advances the purposes of the STE Program.

LEGAL STATUS QUESTIONNAIRE

Staff reviewed the Applicant's responses to the Legal Status Questionnaire. No information was disclosed concerning the financial viability or legal integrity of the Applicant.

CAEATFA FEES

In accordance with STE Program regulations,⁷ the Applicant's request to extend the 15% purchase requirement timeframe and the initial term qualifies as a modification to the Applicant's Agreement, incurring additional fees. The Applicant has paid the additional fee of \$2,250.

⁶ California Code of Regulations Title 4, Division 13, Section 10035(b)(1)(B)

⁷ California Code of Regulations Title 4, Division 13, Section 10036(c)(1)(C)

RECOMMENDATION

Staff recommends that the Board approve the Applicant's request to extend the 15% purchase requirement timeframe by one year until June 21, 2026, as the Applicant has demonstrated extraordinary circumstances, and it is in the public interest and advances the purposes of the STE Program. In the event the 15% purchase requirement is not satisfied by June 21, 2026, the Regulatory Agreement will automatically terminate without further action.

Additionally, Staff recommends that the Board approve the Applicant's request, conditioned upon satisfying the 15% purchase requirement, to extend the initial term of the Agreement by two years, until December 21, 2028, as it is in the public interest and advances the purposes of the STE Program, and the remaining term shall be for a period of twelve years, until June 21, 2034, for providing annual compliance reports.⁸

Attachment B: Sugar Valley Energy, LLC's 's staff summary at the time of approval

⁸ California Code of Regulations Title 4, Division 13, Section 10035(a)(2)

**RESOLUTION APPROVING AN EXTENSION OF
SUGAR VALLEY ENERGY, LLC'S 15% PURCHASE REQUIREMENT TIMEFRAME
AND THE INITIAL TERM UNDER THE REGULATORY AGREEMENT**

June 17, 2025

WHEREAS, on June 21, 2022, the California Alternative Energy and Advanced Transportation Financing Authority (the "Authority"), a public instrumentality of the State of California, approved a Sales Tax Exclusion ("STE") in the amount of \$117,647,058.82 of Qualified Property for **Sugar Valley Energy, LLC** (the "Applicant"); and

WHEREAS, within 18 months of approval by the Authority, the Applicant must purchase or execute purchase orders for at least 15% of the total amount of Qualified Property listed in the approval resolution (STE Program regulations Section 10035(b)(1)); and

WHEREAS, upon a finding of extraordinary circumstances and that it is in the public interest and advances the purposes of the Program, the Authority may waive the requirement that the Applicant must purchase or execute purchase orders for at least 15% of the total amount of Qualified Property within 18 months of Application approval (STE Program regulations Section 10035(b)(1)(A)); and

WHEREAS, the Applicant previously had requested a waiver of the requirement to purchase or execute purchase orders for at least 15% of the Qualified Property amount within 18 months due to unexpected delays in the Project timeline, extending the term by one (1) year and six (6) months until June 21, 2025; and

WHEREAS, the Applicant has requested a waiver of the requirement to purchase or execute purchase orders for at least 15% of the Qualified Property amount by June 21, 2025, due to unexpected delays in the Project timeline, extending the term by one (1) year to June 21, 2026; and

WHEREAS, the Applicant has demonstrated extraordinary circumstances as to why it cannot meet the 18-month 15% purchase requirement timeframe; and

WHEREAS, within three (3) years of approval by the Authority, the Applicant must make all Qualified Property purchases (STE Program regulations Section 10035(b)(1)); and

WHEREAS, upon a finding that it is in the public interest and advances the purposes of the Program, the Authority may waive the requirement that all purchases of Qualified Property be made within three (3) years of Application approval (STE Program regulations Section 10035(b)(1)(B)); and

WHEREAS, the Applicant previously had requested a waiver of the requirement to purchase all of the Qualified Property within three (3) years due to unexpected delays

in the Project timeline, extending the term by one (1) year and six (6) months to December 21, 2026; and

WHEREAS, the Applicant has requested a waiver of the requirement to purchase all of the Qualified Property by December 21, 2026, due to unexpected delays in the Project timeline, extending the term by two (2) years to December 21, 2028, upon meeting the 15% purchase requirement by June 21, 2026; and

WHEREAS, granting the waivers will allow the Project to proceed and the State to receive the anticipated environmental and economic benefits that justified the initial approval of the Project in accordance with the law, thereby advancing both the public interest and the purposes of the Program.

NOW, THEREFORE, BE IT RESOLVED by the California Alternative Energy and Advanced Transportation Financing Authority, as follows:

Section 1. The Authority finds these are extraordinary circumstances and that it is in the public interest and advances the purposes of the Program to extend the Applicant's deadline to meet the 15% purchase requirement to June 21, 2026. If the Applicant does not purchase or execute purchase orders for at least 15% of the total amount of Qualified Property by June 21, 2026, the Regulatory Agreement will automatically terminate without further action.

Section 2. The Authority finds that it is in the public interest and advances the purposes of the Program to extend the Applicant's initial term of the Regulatory Agreement to December 21, 2028, subject to the Applicant meeting the 15% purchase requirement extended deadline by June 21, 2026.

Section 3. This resolution shall take effect immediately upon its passage.

**Re: Sales and Use Tax Exclusion Program – Term Extension Request for Purchase
Requirements Compliance for Sugar Valley Energy, LLC (22-SM014)**

Dear Ms. Yu,

On behalf of California Ethanol + Power, LLC (CE+P) and our first project, Sugar Valley Energy, LLC (SVE), we are writing to request an 18-month extension of the Purchase Requirement deadline as well as an extension of the Initial Term expiration to June 21, 2028. Pursuant to the program regulations, we have also submitted a payment of \$2,250 to your office via Federal Express.

We are seeking this second extension to ensure adequate contingency project investors have requested. The time extension is necessary as our previous EPC partner sought to restructure and reset our contractual agreements in response to increased interest rates and inflation, a trend that has impacted projects worldwide. Our team immediately responded with a search and subsequent selection of a new EPC partner.

The major obstacle of replacing the project's EPC (Engineering, Procurement & Contracting) partner has been overcome. We are excited to have Hoffman Construction onboard, who are among the top 50 general contractors in the U.S. with annual revenues of nearly \$4 Billion. Hoffman Construction has fielded a strong team to construct Sugar Valley Energy, with highly respected and qualified firms Harder Mechanical and Stantec named as key subcontractors.

In terms of other challenges, it is possible for unforeseen issues to arise as we complete the financing stage, which would not be unusual for any project valued at \$1 Billion or more. However, this process is well underway, and we anticipate financial close / groundbreaking before the end of this year. We are encouraged that the majority of our capital stack is in place and all the significant pre-development milestones are complete (EPC, feedstock supply, off-take agreements, entitlements, local utility interconnection approvals, control of the project's property, air permits, and community support).

Agenda Item – 4.B.1
Resolution No. 22-SM014-03

Notwithstanding these challenges, the year 2024 saw significant progress for the project, including:

- Selected contracting team and negotiated a new Engineering Procurement Construction EPC agreement with Hoffman Construction Company,
- Conducted outreach for local employment and negotiation of a Project Labor Agreement,
- Secured energy product offtake commitments,
- Commenced engineering, initial grading, and concrete work on the project site
- Received Imperial Valley Authority to Construct permit renewal for Sugar Valley Energy

These major project milestones have positioned the project to complete its financing process in 2025. The project's scope remains unchanged. Our revised Qualified Purchases timeline is submitted herewith as Attachment A.

Sugar Valley Energy is in full compliance with all local and regional entitlements and federal programs, receiving permit extensions at the local and regional levels. We remain particularly encouraged by continued trends driving demand for low-carbon biofuels and state policy direction on emissions targets. Please note that CE+P does not have any new investors since the previous extension, and the team remains enthusiastic and confident in the Project and its importance in meeting the State's objectives.

Our agricultural program has continued to progress, as we have planted and harvested approximately 70 acres of sugarcane. We have successfully vetted a sustainable drip irrigation process to ensure the project can thrive even in the event of future water conservation requirements.

As we begin 2025, we are concluding an independent engineering review of our EPC contract and proceeding with additional financing process steps. We strongly believe that Sugar Valley Energy is more relevant and necessary today than ever and respectfully request Staff consideration and CAEATFA Board approval for this extension request as we approach the finish line.

Sincerely,

David R. Rubenstein
President & CEO
California Ethanol + Power, LLC
Sugar Valley Energy, LLC

THE APPLICANT

Sugar Valley Energy, LLC (the “Applicant”), is a Delaware limited liability company that formed in 2011. The Applicant plans to build a biomass processing and fuel production facility in Brawley, using sugarcane as a feedstock. The Applicant has its headquarters in Manhattan Beach.

On December 17, 2013, the CAEATFA Board granted the Applicant, then known as California Ethanol and Power, Imperial Valley 1, LLC, an STE award for the purchase of up to \$444,811,275 in Qualified Property for an estimated STE value of \$37,230,704 to construct a facility that converts sugarcane and sweet sorghum into low-carbon, fuel-grade ethanol, bio-methane and electricity.

On November 15, 2016, the CAEATFA Board approved the Applicant for a three-year extension of the initial term of the Regulatory Agreement (until December 17, 2019) to accommodate a new effort to finance and develop the Project after the Applicant’s original Brazilian-based financing and engineering teams experienced setbacks due to a decline in the Brazilian economy. At the time, the Applicant states that, with the exception of removing sweet sorghum as a portion of the feedstock, the scope of the project remains the same as when it was approved in 2013.

On November 19, 2019, the CAEATFA Board approved the Applicant for an additional four-year extension of the initial term of the Regulatory Agreement (until December 17, 2023) to accommodate delays in obtaining project financing required to construct the production facility. The approved resolution required the Applicant to provide annual reports to the Board on the status of the project during the initial term of the Regulatory Agreement, and provided that at the two-year report, the Board may determine whether to terminate the award.

On June 15, 2021, the CAEATFA Board approved Resolution No. 13-SM012-03 to amend Resolution No. 13-SM012 to change the Participating Party from CE&P to Sugar Valley Energy, LLC.

At the November 16, 2021, board meeting, the Applicant reported that it had made no purchases of Qualified Property. The CAEATFA Board approved a resolution to terminate the sales and use tax exclusion award for Sugar Valley Energy, LLC, pursuant to the Applicant’s November 19, 2019, Resolution Approving a Time Extension of the Initial Term for the Master Regulatory Agreement.

The major shareholders (10.0% or greater) of the Applicant are:

California Ethanol & Power, LLC (100%)

Resolution No. 22-SM014-03

Agenda Item – 4.A.23
Resolution No. 22-SM014-01

THE PROJECT

Sugar Valley Energy, LLC, is requesting an STE award to build a new biomass processing and fuel production facility located in Brawley (the “Project”). The Applicant plans to construct a facility that converts sugarcane into low-carbon, fuel-grade ethanol, biomethane, and electricity. The Applicant will pay Imperial Valley farmers a yearly land rent in order to secure a steady supply of feedstock for the Project. The Applicant anticipates that 52,000 acres of sugarcane will be needed to supply the Facility at peak production. The Applicant has executed a long-term contract for the sale of the ethanol to CHS, Inc., and is currently negotiating a biomethane and electricity off-take agreement with various parties. The Project is anticipated to produce 72.4 million gallons of ethanol fuel, 777 million cubic feet of biomethane, and 42.9 MW of electricity annually. The Project will utilize industrial biotechnology through the yeast-based fermentation of sugarcane juice to form ethanol and carbon dioxide.

The Applicant represents that its Project will be more advanced than other ethanol production facilities due to its efficient use of resources. The Project will utilize the vinasse—the liquid residue left in the distillation of ethanol from sugarcane derivatives—in an advanced anaerobic digester to produce biomethane gas to be placed in the local pipeline. Vinasse digestion is not a common practice among ethanol producers as it is normally simply used as fertilizer. The Applicant will also use bagasse—the leftover biomass—to generate electricity for the Project, which will result in a more sustainable production process by reducing greenhouse gas emissions compared to most ethanol facilities around the country that utilize natural gas for power. Also, the Applicant represents that it will utilize computerized modeling of all the processes within the Facility on a continuous basis to control processes and predict the production outcomes over time, ensuring predictable outcomes in terms of product quantity, quality, and production cost.

ANTICIPATED COSTS OF QUALIFIED PROPERTY

The anticipated Qualified Property purchases are listed below:

Facility Infrastructure	\$25,926,266
Bagasse Mitigation and Power Equipment	\$52,127,575
Ethanol Equipment	\$75,482,651
Biogas and Wastewater Treatment Equipment	\$23,225,498
Construction Equipment	\$58,532,128
Total	<u>\$235,294,118</u>

Note: The Qualified Property purchases reported in the Application and shown here in staff's report are estimated costs. At the termination of the Regulatory Agreement, a finalized Project equipment list will be prepared detailing the value of the Project equipment actually acquired, and the estimated tax benefit realized pursuant to Revenue and Tax Code Section 6010.8. Variance from the costs shown in the Application and in this report may occur prior to the closing due to increased costs of certain components of the Project over original estimates, and other reasons. In addition, those costs may vary after closing due to increased costs, as well as common design and equipment modifications during construction, differences in equipment due to future changes in statute or regulation, or for other reasons.

**Agenda Item – 4.B.1
Resolution No. 22-SM014-03**

**Agenda Item – 4.A.23
Resolution No. 22-SM014-01**

TIMELINE

According to the Applicant, construction of the Facility is expected to begin in October 2022. The Applicant states that it will begin major equipment procurement in 2022, with delivery of all major equipment expected by February 2024. The Applicant expects the Facility to begin commercial operation in late 2025 or early 2026.

STATUS OF PERMITS/OTHER REQUIRED APPROVALS

According to the Applicant, all primary permits for the construction and operation of the Facility have been approved, including Imperial County Conditional Use permit, along with corresponding CEQA documentation in the form of an Environmental Impact Report, and an Imperial County Grading permit, and the Applicant states that other permits will be required as the Project moves forward and are expected to be obtained without delays.

COMPETITIVE CRITERIA SCORE

The Applicant received 165 Competitive Criteria points as follows:

1. **Environmental Benefits (100 of 100 points)**. The Application has a Project that produces an Alternative Source product, component, or system, and, therefore, 100 points are awarded.
2. **Unemployment (50 of 50 points)**. The Applicant's Project's primary Facility is located in Imperial County, which has an average annual unemployment rate of 17.3%.⁴ When compared to the statewide average annual unemployment rate of 7.89%, the Project location earned the Applicant 50 points.
3. **Job Creation (0 of 75 points)**. The Applicant anticipates the Project will support a total of 117 production-related jobs at its Facility. CAEATFA estimates that approximately 10.94 of these jobs will be attributable to a marginal increase in jobs created due to the STE. Based on the amount of STE per estimated number of jobs created, the Applicant earned zero points.
4. **California Headquarters (15 of 15 points)**. The Applicant has a California Corporate Headquarters, and, therefore, 15 points are awarded.
5. **Natural Disaster Relief (0 of 50 points)**. The Project is not to rebuild or relocate the Applicant's Facility due to a fire, flood, storm, or earthquake identified in a state of emergency proclaimed by the Governor within two years of the time of application, and, therefore, zero points are awarded.

⁴ Unemployment rates are based on data available in December 2021.

Agenda Item – 4.B.1
Resolution No. 22-SM014-03

Agenda Item – 4.A.23
Resolution No. 22-SM014-01

6. **Eligibility for Manufacturing and Research and Development Equipment Exemption (0 of 50 points).** The Applicant is eligible to use one or more of the exemptions established pursuant to Section 6377.1 of the Revenue and Taxation Code, and, therefore, zero points are awarded.
7. **Emerging Strategic Industry (0 of 75 points).** The Project's industry is not in an Emerging Strategic Industry, and, therefore, zero points are awarded.

PROJECT EVALUATION

PROJECT BENEFITS

The Project received a Total Score of 3,798 points, which exceeds the required 1,000-point threshold, and a total Environmental Benefits Score of 71 points, which exceeds the 20-point threshold.

- A. **Fiscal Benefits (3,547 points).** The net present value of the total fiscal benefits over the lifetime of the Qualified Property is derived from the Applicant's sales and use taxes, personal income taxes paid by the firm's employees, firm taxes on profits, property taxes, and other indirect fiscal benefits of the Applicant. The total fiscal benefits amount to \$70,939,159, resulting in a Fiscal Benefits score of 3,547.
- B. **Environmental Benefits (101 points).** The Project earned an Environmental Benefits Score of 101. The Applicant received points in the following categories:
 1. **Environmental Sustainability Plan (5 of 5 points).** The Applicant has an environmental sustainability plan that states goals to create a facility that produces fuel-grade ethanol, renewable energy, and biomethane, while protecting the environment from the effects of renewable energy production.
 2. **Energy Consumption (6 of 30 points).** The Applicant anticipates the Project will result in a 6% reduction in energy consumption compared to the industry standard manufacturing process. The Applicant states it will utilize a diffuser that will consume less energy than the industry standard.
 3. **Water Use (30 of 30 points).** The Applicant anticipates the Project will result in a 78% reduction in water use relative to industry standard manufacturing process. According to the Applicant, the Project's process to produce undenatured anhydrous ethanol uses 1.7 gallons of water per gallon ethanol compared to a cellulosic ethanol production facility which uses 6 to 10 gallons of water.
 4. **Air Pollutants (30 of 30 points).** The Applicant anticipates the Project will result in a 44% reduction in air pollutants produced relative to the industry standard manufacturing process. The Applicant states that it will install Best

Available Control Technology to limit emissions. The Applicant will also purchase offsets for sulfur oxide (SOx), nitric oxide (NOx), particulate matter (PM10), and volatile organic compound (VOC) emissions.

C. Additional Benefits (180 points). Applicants may earn additional points for their Total Score. The Applicant received 180 additional points.

1. **Production Jobs (0 of 75 points).** The Applicant anticipates the Project will support a total of 117 production-related jobs at its Facility. CAEATFA estimates that approximately 10.94 of these jobs will be attributable to a marginal increase in jobs created due to the STE. Based on the amount of STE per estimated number of jobs created, the Applicant earned zero points.
2. **Construction Jobs (30 of 75 points).** The Applicant anticipates the Project will support a total of 304 construction jobs at its Facility. CAEATFA estimates that approximately 28.41 of these jobs will be attributable to a marginal increase in jobs created due to the STE. Based on the amount of STE per estimated number of jobs created, the Applicant earned 30 points.
3. **Unemployment (50 of 50 points).** The Applicant's Project is located in Imperial County, which has an average annual unemployment rate of 17.3%. When compared to the statewide average annual unemployment rate of 7.89%, the Project location earned the Applicant 50 points.
4. **Research and Development Facilities (25 of 25 points).** The Applicant has verified that it has a facility located in California that performs research and development functions related to biomass processing and fuel production.
5. **Workforce Partnerships (25 of 25 points).** The Applicant has a partnership with Imperial Valley College and the Imperial Valley College Foundation for the purpose of assisting in the training of potential future workers.
6. **Industry Cluster (25 of 25 points).** The industry associated with this Application has been identified by the Imperial County Comprehensive Economic Development Strategy as an industry cluster of the region of the Project's location.
7. **Benefits and Fringe Benefits (25 of 25 points).** The Applicant states it provides medical, health, dental, vision, bonuses, retirement contributions, deduction reimbursement, and paid leave benefits to its employees, earning the Applicant 25 points.

**RESOLUTION APPROVING AND AUTHORIZING EXECUTION OF A
REGULATORY AGREEMENT WITH SUGAR VALLEY ENERGY, LLC**

June 21, 2022

WHEREAS, the California Alternative Energy and Advanced Transportation Financing Authority (the “Authority”) has received the Application of **Sugar Valley Energy, LLC** (the “Applicant”) for financial assistance under the Sales and Use Tax Exclusion Program, as established in Public Resources Code Section 26011.8; and

WHEREAS, the Applicant qualifies as a Participating Party under Public Resources Code Section 26011.8 and Revenue and Taxation Code Section 6010.8; and

WHEREAS, the Applicant’s qualifying tangible personal property meets the requirements of a Project under Public Resources Code Section 26011.8 and Revenue and Taxation Code Section 6010.8 (the “Project”); and

WHEREAS, after the Authority approves an Application, the Authority enters into a Regulatory Agreement, as described in Authority Regulations Section 10035(a), with the Applicant for the Project; and

WHEREAS, the Applicant has stated the Project has an estimated cost not to exceed \$117,647,058.82 over a period of three (3) years; and

WHEREAS, the Applicant asserts that this form of financial assistance will enable it to avail itself of the benefits of an exclusion from sales and use taxes relative to the Project pursuant to Revenue and Taxation Code Section 6010.8; and

WHEREAS, the approval of the terms of the Regulatory Agreement and authority for the Executive Director or Chair of the Authority to execute the necessary documents to effectuate the Regulatory Agreement is now sought;

NOW, THEREFORE, BE IT RESOLVED by the California Alternative Energy and Advanced Transportation Financing Authority, as follows:

Section 1. The Regulatory Agreement includes a Project within the meaning of Public Resources Code Section 26003(a)(8)(B).

Section 2. The Regulatory Agreement constitutes financial assistance within the meaning of Public Resources Code Section 26003(a)(6).

Section 3. The Applicant is a participating party within the meaning of Public Resources Code Section 26003(a)(7).

Section 4. The Executive Director or Chair of the Authority (the “Authorized Signatories”) are hereby authorized for and on behalf of the Authority to approve any changes to the Project as the Authorized Signatories deem appropriate, provided that the amount of the

Resolution No. 22-SM014-03

Agenda Item – 4.A.23
Resolution No. 22-SM014-01

qualifying tangible personal property to be purchased for the Project may not be increased above the amount approved by the Authority.

Section 5. The proposed form of the Regulatory Agreement between the Applicant and the Authority, as filed with the Authority prior to this public meeting, is hereby approved. For, on behalf and in the name of the Authority, the Authorized Signatories are hereby authorized and directed to execute, acknowledge, and deliver to the Applicant the Regulatory Agreement in substantially the form filed with or approved by the Authority.

The Regulatory Agreement may contain insertions, deletions or changes as the Authorized Signatories executing the Regulatory Agreement may require or approve, including particular information inserted in substantial conformance with the staff summary and in the Application to the Authority. The approval of the Regulatory Agreement will be conclusively evidenced by the execution and delivery of the final Regulatory Agreement.

The Authority understands and agrees that, pursuant to the terms of the Regulatory Agreement, the obligations of the Applicant, under some circumstances, may be carried out or assumed by a successor or assignee entity, or by an affiliate of the Applicant.

Section 6. Each of the Authorized Signatories, acting alone, is hereby authorized and directed to do any and all ministerial acts, including, without limitation, the execution and delivery of any and all documents and certificates they may deem necessary or advisable to consummate the Regulatory Agreement and otherwise effectuate the purposes of this Resolution.

Section 7. The Applicant shall ensure that all of the qualifying tangible personal property acquired as part of the Project that is listed in the semi-annual reports provided to the Authority pursuant to the Regulatory Agreement will be installed, maintained and operated in compliance with all applicable local, state and federal laws.

Section 8. The Regulatory Agreement shall only apply to qualifying tangible personal property acquired as part of the Project that the Applicant certifies will be installed, maintained and operated at facilities physically located within the State of California.

Section 9. Neither the adoption by the Authority of this Resolution for the Applicant nor the Regulatory Agreement may be referred to in any application before any governmental agency as evidence of the feasibility, practicality or suitability of the Project and may not be referred to in any application for any required permission or authority to acquire, construct or operate the Project.

Section 10. This Resolution is effective immediately and will remain in full force and effect unless the Regulatory Agreement is not executed within thirty (30) days of the date of this Resolution. The Executive Director may extend the thirty (30) days if necessary.
