GENERAL ELECTION**

CALIFORNIA DEBT AND INVESTMENT ADVISORY COMMISSION

The California Debt and Investment Advisory Commission (CDIAC) was created by the Legislature to assist state and local agencies with the issuance, monitoring, and management of public debt, and with the investment of public funds through its research and technical assistance programs. CDIAC also acts as the State's clearinghouse for California's public debt issuance information.

CDIAC members include:

Bill Lockyer
State Treasurer and Chair

Arnold Schwarzenegger
Governor

or

Michael C. Genest
Director
Department of Finance

John Chiang
State Controller

Dave Cox
State Senator

Michael Machado
State Senator

José Cisneros
Treasurer and Tax Collector
City and County of San Francisco

Donna Linton
Assistant County Administrator
Alameda County

John Decker
Executive Director

Additional information concerning this report or CDIAC programs may be obtained by contacting the Commission directly via phone (916) 653-3269, fax (916) 654-7440, e-mail (cdiac@treasurer.ca.gov) or by visiting CDIAC's website: www.treasurer.ca.gov/cdiac.

STATE AND LOCAL BOND AND TAX BALLOT MEASURES

Results of the November 7, 2006 General Election

I. INTRODUCTION

This report presents the results of state and local bond and tax measures that appeared on the November 7, 2006 General Election ballot in California (the 2006 General Election). The data used to develop the report was received from the California Secretary of State's office and the 58 county clerks' elections departments. Tables A-1 and A-2 provide a summary of the individual state and local bond and tax measures on the 2006 General Election ballot.

The California Debt and Investment Advisory Commission (CDIAC) has reported on statewide elections since 1986 and publishes complete statistics on bond and tax measures after each election. This is the 19th report CDIAC has published summarizing bond and tax elections.

II. GENERAL ELECTION RESULTS

CDIAC tracked a total of 211 state and local bond and tax measures in the 2006 General Election, a decrease of 13.9 percent from the November 2, 2004 General Election ballot (the 2004 General Election), which had 245 state and local bond and tax measures. In the 2006 General Election, 64.9 percent of the measures were approved compared to a 61.7 percent approval rate for the 2004 General Election. Bond measures received 71.9 percent voter approval, a decrease from the 84.8 percent approval rate in the 2004 General Election. Unlike the bond measures, voters approved more tax measures in the 2006 General Election than in the 2004 General Elections (60.3 percent compared to 40.4 percent, respectively). Figure 1 provides a comparison of the 2006 and 2004 General Election results.

III. SUMMARY OF STATE AND LOCAL MEASURES BY PURPOSE

Figure 2 shows the results of the 211 bond and tax measures appearing on the 2006 General Election ballot classified by the type of projects to be financed: capital improvements¹, education, general government, public health and safety, and miscellaneous projects².

**FIGURE 2
RESULTS OF BOND AND TAX MEASURES, BY PURPOSE
2006 GENERAL ELECTION**

	Capital Improvements	Education	General Government	Public Health and Safety	Miscellaneous	Total
State						
Passed	2	1	0	0	2	5
Failed	0	1	0	1	1	3
Subtotal	2	2	0	1	3	8
Local

Passed	14	59	28	28	8	137
Failed	15	18	16	16	9	74
Total	29	77	44	44	17	211

¹ Capital improvement projects consisted of construction, renovation, expansion or any improvements to a public building or infrastructure (such as road repairs, water/wastewater facility improvements, flood control/storm drainage, etc.).

² For local measures, miscellaneous projects were comprised of beach/coastal maintenance, city parks, libraries, a mosquito abatement program, open space, public employees' retirement, public swimming pools, water district operations, and tourism. State measures, which are further addressed starting on page 7, classified as miscellaneous consisted of alternative energy (Proposition 87) and water quality/flood control/natural resource protection/park improvements (Proposition 84). Proposition 84 is classified as miscellaneous because it includes a combination of a variety of projects.

Figure 3 shows a breakdown of the 203 local measures by purpose. The majority of the measures (36.9 percent) were for educational purposes.

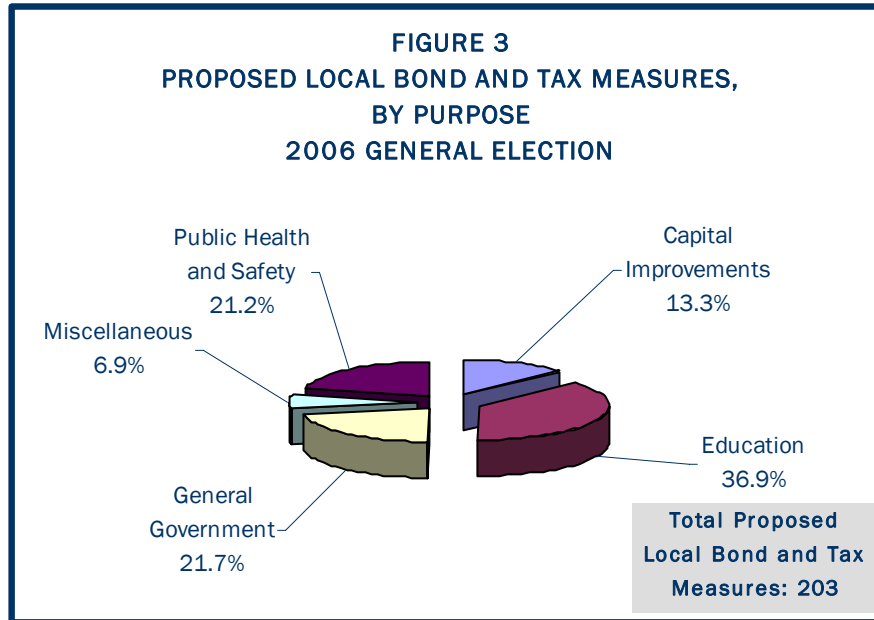

Figure 4 further illustrates the breakdown, by purpose, of those local measures that were approved.

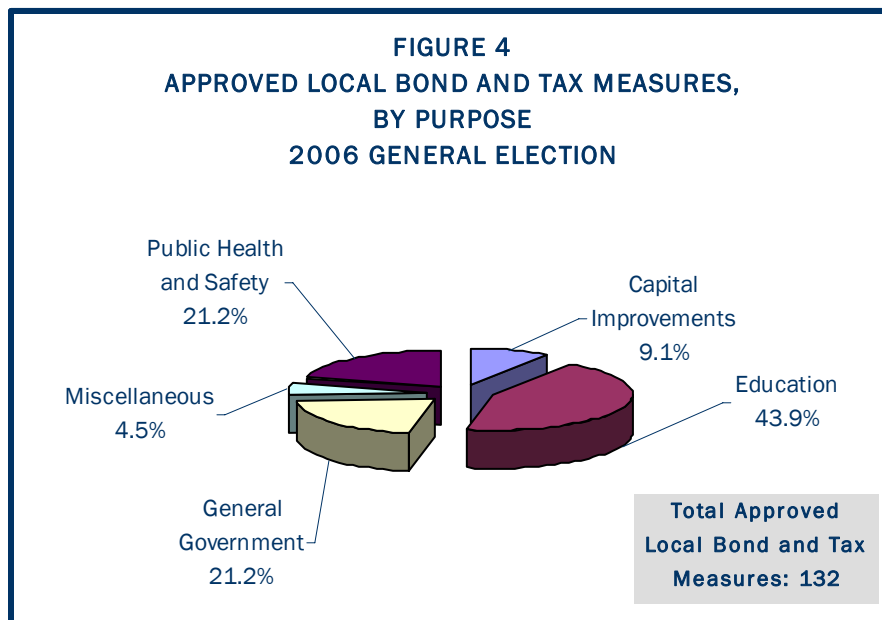

Figure 5 shows the total dollar amounts of all State and local general obligation (GO) bond measures by purpose. There were no GO bond measures for general government.

FIGURE 5

GENERAL OBLIGATION BOND MEASURES, BY PURPOSE
2006 GENERAL ELECTION
(Dollars in Thousands)

	Capital Improvements	Education	General Government	Miscellaneous	Public Health and Safety	Total
Passed	\$24,015,000	\$17,077,215	\$0	\$8,250,500	\$25,000	\$49,367,715
Failed	220,200	1,941,550	\$0	\$1,030,000	655,900	3,847,650
Total	\$24,235,200	\$19,018,765	\$0	\$9,280,500	\$680,900	\$53,215,365

A. Capital Improvements

Capital improvements projects consist of constructing, repairing or improving infrastructure such as street construction, water and wastewater plants, flood control/storm drainage, sewer system, public libraries, public transit, etc. There were 29 capital improvement measures on the 2006 General Election ballot. Two of those were State GO bond measures for disaster preparedness/flood protection and transportation; both measures required a majority vote and were approved by the voters. The other 27 capital improvements measures were local GO bond and special tax measures; 26 measures required two-thirds voter approval and one measure required a majority vote.

Voters approved 14 of the 29 measures (48.3 percent). The approved measures were for the following projects: street/road improvements, storm drain improvements, storm repairs/roadside fire protection/emergency road needs, sewer system upgrades, street lighting, building maintenance, disaster preparedness/flood protection, and transportation. Six of the approved measures were sales taxes, five were parcel taxes, two were State GO bond measures, and one was a sewer tax. The measure that received the highest voter approval (80.8 percent) was for a 1/2 cent sales tax increase for street improvements in the city of Nevada City.

Eleven of the 15 measures that did not receive voter approval were for highway/road/street improvements, street lighting, and the construction, operation, and maintenance of a passenger rail project and bicycle/pedestrian pathway

B. Education

Voters were presented with 75 local government education tax and bond measures and two statewide measures in the 2006 General Election, which accounted for 36.5 percent of all measures offered. The number of education measures on the 2006 General Election ballot decreased 7.2 percent from the 83 education measures that were on the 2004 General Election.

Of the 75 local education measures, 71 were for GO bonds (94.7 percent) and the remaining four were parcel tax measures. Fifty-six out of 71 GO bond measures received

voter approval (78.9 percent). Two of the four parcel tax measures received voter approval. There were three GO bond measures for kindergarten through twelfth grade (K-12) school facilities that required two-thirds voter approval; none of those measures received voter approval. The remaining GO bond measures required 55 percent voter approval.

Of the \$8.6 billion in education GO bond issuance proposed, voters approved \$6.6 billion. The approved GO bond measure amounts ranged from \$2.9 million for K-12 school facilities to as much as \$870.0 million for college facilities.

There were nine GO bond measures for community college facilities; voters approved six (66.7 percent). The largest GO bond measure (\$870.0 million) was for the San Diego Community College District in San Diego County. This measure required 55 percent approval and passed with 63.0 percent of the vote.

C. General Government

There were 44 general government measures on the 2006 General Election ballot (20.9 percent), a decrease of 35.3 percent from the 68 general government measures on the 2004 General Election ballot. Of the 44 general government measures, voters approved 28 (63.6 percent). The types of general government proposals on the 2006 General Election ballot were general tax measures, which included transient occupancy taxes, sales taxes, utility user taxes, and a business license tax measure. The following are the top five general government measures that received the highest voter support:

- Reduce utility user tax from 10 percent to 8.5 percent in the city of Compton (Los Angeles County).
- Reduce utility user tax from 5.5 percent to 4.5 percent in the Town of Portola Valley (San Mateo County).
- Impose a 9.25 percent transient occupancy tax on condominium hotel guests in the City of Indian Wells (Riverside County).
- Validate and continue the current 10 percent transient occupancy tax in the city of La Quinta (Riverside County).
- Continue the 5.0 percent utility user tax in the city of Daly City (San Mateo County).

D. Public Health and Safety

Public health and safety measures consist of the following:

- Emergency room services
- Fire protection services
- Hospital/health care facilities
- Paramedic/emergency medical services
- Police services

Forty-four measures for public health and safety appeared on the 2006 General Election ballot. There were 35 special tax measures, a 7.9 percent decrease from the 38 special

tax measures on the 2004 General Election ballot. Each of the special tax measures required two-thirds voter approval. Of the 35 measures, 26 passed (74.3 percent). Voters also were presented with a State cigarette tax measure, which did not receive voter approval. The cigarette tax measure required a majority vote to pass and was the only State public health and safety measure.

Proposed GO bond measures accounted for 15.9 percent (seven out of 44) of the public health and safety measures, an increase of 16.7 percent over the six measures that appeared on the 2004 General Election ballot. Only two of the seven measures (28.6 percent) received voter approval.

One of the measures was a combination special tax/limited tax obligation bond, which would have levied a maximum special tax of \$6.25 per unit of risk each year for 15 years to repay bonds issued (not more than \$2.1 million) for a community facilities district to finance, purchase and rehabilitate fire equipment and facilities. This measure required a two-thirds vote to pass, but it received 64.0 percent.

E. Miscellaneous Projects

Voters were presented with three State and 14 local miscellaneous project measures, a decrease of 39.3 percent from the 28 measures in the 2004 General Election. The State miscellaneous measures included alternative energy, housing, and water/flood control/natural resources/park and conservation projects. Local measures included beach/coastal maintenance, parks/recreation/swimming pools, housing, library services, a mosquito abatement program, open space/clean water/farmland protection, public employees' retirement, tourism, and water. Eight of the 17 miscellaneous measures (47.1 percent) were approved by voters, a decrease of 27.3 percent from 11 approved measures on the 2004 General Election ballot. Thirteen of the 17 measures required a two-thirds vote; four measures required a majority vote.

IV. SUMMARY OF STATE AND LOCAL BOND AND TAX MEASURES BY TYPE

As shown in Figure 6, state and local bond and tax measures are divided into five categories: GO bonds, general tax, special tax measures, miscellaneous taxes, and a combination tax/bond measure. Figure 6 summarizes the results of the measures by type.

**FIGURE 6
RESULTS OF BOND AND TAX MEASURES, BY TYPE
2006 GENERAL ELECTION**

	General Obligation Bonds	General Tax	Special Tax	Miscellaneous Taxes*	Combination Measure**	Total
Passed	64	28	45	0	0	137
Failed	25	15	30	3	1	74
Total	89	43	75	3	1	211
% Passing	71.9%	65.1%	60.0%	0.0%	0.0%	64.9%

* This classification includes the California Oil Producers Tax and Cigarette Tax, which were Statewide measures, and a State parcel tax.

** This measure was a combination tax and bond measure.

A. Bonds

1. State General Obligation Bonds

Voters were presented with five state GO bond measures, each receiving voter approval. The funds from the measures, which total \$42.7 billion, will be used for the following projects: 1) Highway safety, traffic reduction, air quality, and port security; 2) Housing and emergency shelter; 3) Kindergarten through university school facilities; 4) Disaster preparedness and flood prevention; and 5) Water quality, safety, and supply; flood control; natural resource protection; and park improvements. Following is a summary for each of the bond measures, all which needed a simple majority approval for passage.

Proposition 1B: Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006. This \$19.925 billion bond, the largest GO bond measure on the ballot, was approved by voters by a 61.4 percent to 38.6 percent margin. Funds from the issuance of this bond will be used to expand public transportation, help complete the state's car pool lanes system, make safety improvements and repairs to state highways, improve freeways to reduce congestion, reduce air pollution, repair local streets and roads, improve highways along major transportation corridors, improve seismic safety of local bridges, and improve anti-terrorism security at shipping ports. Funds to repay bond will come from the State's General Fund and will cost the State approximately \$38.9 billion over 30 years.

Proposition 1C: Housing and Emergency Shelter Trust Fund Act of 2006. This measure provides \$2.850 billion for the purpose of providing shelters for battered women and their children, clean and safe housing for low-income senior

citizens; homeownership assistance for the disabled, military veterans, and working families; and repairs and accessibility improvements to apartments for families and disabled citizens. Voters approved the measure by a 57.8 percent to 42.2 percent margin.

A requirement of the Housing and Emergency Shelter Trust Fund Act of 2006 is to report and publish annual independent audited reports that will show the use of the funds. The cost to repay the bonds issued over a 30 year period will be approximately \$6.1 billion.

Proposition 1D: Kindergarten-University Public Education Facilities Bond Act of 2006. This measure provides \$10.416 billion dollars to provide funds to relieve public school overcrowding, repair older schools, improve earthquake safety, and fund vocational educational facilities. In addition, funds will be used to repair and improve existing public college and university buildings and to build new classrooms for California community colleges, the University of California, and the California State University system. Voters approved the measure by a 56.9 percent to 43.1 percent margin. This measure will cost approximately \$20.3 billion over a 30-year period.

Proposition 1E: Disaster Preparedness and Flood Prevention Bond Act of 2006. In addition to rebuilding and repairing California's most vulnerable flood control structures, the \$4.09 billion dollar Disaster Preparedness and Flood Prevention Act of 2006 will provide protection to California's drinking water supply system by rebuilding delta levees that are vulnerable to earthquakes and storms. Voters approved this measure by a 64.2 percent to 35.8 percent margin. It will cost approximately \$8 billion over 30 years.

Proposition 84: Water Quality, Safety and Supply. Flood Control. Natural Resource Protection. Park Improvements. Bonds. Initiative Statute.

Approval of this \$5.388 billion GO bonds will provide funds for projects relating to safe drinking water, emergency drinking water, water quality and supply, flood control, waterway and natural resource protection, water pollution and contamination control, state and local park improvements, public access to natural resources, and water conservation efforts. Voters supported this measure by a 53.8 percent to 46.2 percent margin. It will cost approximately \$10.5 billion over 30 years.

2. Local General Obligation Bonds

Fifty-nine of the 84 local GO bonds (70.2 percent) were approved. This is a 9.2 percent decrease from the 65 GO bonds approved in the 2004 General Election. Sixty-two of the 84 local GO bond measures (73.8 percent) were for K-12 educational facilities and programs, nine measures were for community college facilities (10.7 percent), and the remaining 13 measures (15.5 percent) were for city parks, housing, public health and safety, services for public libraries, and street improvements.

Of the 62 local GO bond measures for K-12 school facilities, voters approved 50 (80.6 percent). Six of the nine community college GO bond measures were

passed (66.7 percent). The remaining measures had the lowest passage rates, with three out of 13 measures (23.1 percent) receiving approval.

B. Tax Measures

1. State Tax Measures

There were three State tax measures on the 2006 General Election ballot; none of these measures received voter approval. The measures, each requiring a majority vote for passage, were for alternative energy, public health and safety, and education. The following is a summary of the tax measures:

Proposition 86: Tax on Cigarettes. Initiative Constitutional Amendment and Statute. This tax would have imposed an additional \$2.60 tax on each pack of cigarettes sold. The funds would have been used to provide money to hospitals for emergency services, nursing education, and health insurance to eligible children. In addition, the funds would have been used for the prevention and treatment of various illnesses.

Proposition 87: Alternative Energy. Research, Production, Incentives. Tax on California Oil Producers. Initiative Constitutional Amendment and Statute. This measure would have imposed a tax of 1.5 percent to 6 percent on producers of oil extracted from California. Passage of this measure would have provided revenue ranging from approximately \$225 million to \$485 million each year that would have been used to promote the use of alternative energy, alternative energy vehicles, and energy efficient technologies to reduce petroleum consumption. Oil producers would have been prohibited from passing the tax to consumers.

Proposition 88: Education Funding. Real Property Parcel Tax. Initiative Constitutional Amendment and Statute. This measure would have imposed a \$50 tax on each real property parcel to provide additional public school funding for K-12. Funds would have been used for class size reduction, textbooks, school safety, Academic Success facility grants, and a data system to evaluate the effectiveness of educational programs.

2. Local Tax Measures

A total of 118 local tax measures appeared on the 2006 General Election ballot compared to 164 local tax measures on the 2004 General Election ballot, a decrease of 28.0 percent. Seventy-three of the 118 local tax measures (61.9 percent) passed, an increase from the 41.3 percent approval rate for local tax measures in the 2004 General Election.

Seventy-five of the 118 local tax measures (63.6 percent) were for special taxes; 73 of the measures required two-thirds voter approval and two of the measures needed a majority approval. Forty-five of the special tax measures received voter approval. The approved measures were for the following projects: public health and safety, city parks, fire protection, K-12 school facilities and programs, a mosquito abatement program, street improvements, sewer services,

transportation, storm repairs, beach/coastal maintenance, public employees' retirement, clean water, and building maintenance.

Forty-three of the 118 local tax measures (36.4 percent) were for general taxes; 28 of the 43 measures (65.1 percent) received voter approval. Each of the general tax measures required a simple majority for approval and all of the measures were for general government purposes.

3. Local Combination Tax/Bond Measure

There was one measure on the 2006 General Election ballot that was a special tax/limited tax obligation bond for the Rancho Adobe Fire Protection District in Sonoma County. This measure received 64.0 percent, but needed two-thirds voter approval to pass.

V. COUNTIES REPORTING NO LOCAL BOND OR TAX MEASURES

Eight out of 58 counties did not report any local bond or tax measures. Those counties were Alpine, Mariposa, Mono, Plumas, Shasta, Sierra, Tehama, and Tuolumne.
