## **DESCRIPTION OF PROPOSED PROGRAM:**

- *Population to be served by the proposed Program (family size, income levels, etc.):* The application states that the Authority expects to serve low- and moderate-income families of all sizes and ethnic backgrounds.
- Housing stock to be purchased (types, unit sizes, etc.):

The application states that 75% will be single-family homes and 25% will be condominiums and townhomes. The average number of bedrooms is 3 for both counties and the average purchase price is \$375,000.

• Specific reservations of bond proceeds for purposes such as low-income targeting, new construction, etc.:

The application states that 40% of the allocation will be set aside for households at or below 80% of median income to achieve CDLAC's targeting goals. According to the application, 20% of the proceeds will be reserved for IRS designated target areas for a minimum of one year. No specific allocation has been set-aside for new construction.

• *Expected duration bond proceeds will be available and anticipated monthly rate of loan originations:* According to the application, the Authority will blend a portion of funds from their Draw Down facility with a portion of new money from this new allocation. They expect the allocation to be committed to mortgagors in about 4 to 6 weeks. According to the application, loans are anticipated to be originated at a rate of 30 per month.

# • Program interest rates, downpayment requirements, and other fees:

The application states that the Authority traditionally offers a lower interest rate to homebuyers who are 80% or below the area median income or purchasing a home in IRS targeted areas. All homebuyers whose income is greater than 80% of the area median income receive an interest rate of .25% higher. Structuring issues of the proposed program will determine if a lower interest rate can still be offered.

According to the application, the Authority follows the down payment requirement as FHA, VA, Fannie Mae and Freddie Mac. The lender may charge a loan processing fee not to exceed \$350 and a loan documentation fee not to exceed \$200. All others fees charged may not exceed the amount customarily charged if it were not a bond loan. All borrowers pay up to a 1% loan origination fee and a 1% discount fee.

• Other homebuyers assistance programs offered by participating jurisdiction(s):

The SCHFA Program provides 4 points of down payment assistance in the form of a gift to all borrowers. Additionally, the County of Orange offers a Mortgage Assistance Program (MAP) of up to \$40,000 in the form of a silent second loan to homebuyers in unincorporated communities within the County.

#### • Any other features unique to the proposed Program:

The SCHFA Program anticipates offering a fixed interest rate with a forty (40)-year term and 4 points of down payment assistance. The SCHFA is also exploring private funding sources to provide additional soft second loans. The SCHFA waives the 1% discount fee for borrowers purchasing homes in IRS designated targeted area census tracts.

## **PURCHASE PRICE INFORMATION:**
