Total Number of Units: 79, plus 1 manager unit
Type: Acquisition and Rehabilitation
Type of Units: Family

The proposed project is an existing Section 8 development that is rectangular in shape, approximately 4.75 acres in size and has perimeter fencing. It was originally constructed in 1973 and consists of 80 one, two and three-bedroom units. The units are spread across eight, one-story four-plex buildings; four, one-story eight-plex buildings, and one, two-story garden style building. All buildings are wood frame construction with stucco siding and pitched roofs and in average condition. The target population consists of income qualified households ranging in size from one to five persons with earning at or below 50 and 60 percent AMI levels. The proposed rehabilitation will include: new floor coverings appropriate for level of traffic; low VOC interior finishes for all interior finishes; conversion of gas ranges to electric to benefit from the use of solar energy and reduce carbon emissions gases produced; landscaping will consist of a variety of plant and tree species that require low water use; remove existing roof and replace with new roof; replacement of kitchen and bathroom fixtures; and rehabilitation of existing common areas used for communal activities. The expected start of the rehabilitation is November 2016 with an anticipated completion date of November 2017.
