Description of Proposed Project: State Ceiling Pool: General
Total Number of Units: 138, plus 2 manager units
Type: Acquisition and Rehabilitation
Type of Units: Family

The proposed project is an existing development that was initially developed in 1970 and consists of 18 two-story apartment buildings and two (2) one-story auxiliary buildings serving large families. One of the auxiliary buildings is a prefabricated mobile structure currently serving as the site's community room. The other auxiliary building currently contains the leasing office, maintenance shop, laundry facilities and one restroom. The buildings are constructed with wood frame perimeter bearing walls, upper floors and roof framing. The building exteriors consist of painted stucco Hardi-plank siding panels with wood trim components. The roofs are flat and have a built-up roofing system finished with mineral cap sheets. The foundation systems incorporate slabs on grade. It consists of 140 residential units (32 1bd, 52 2bd, and 56 3bd). The major rehabilitation of Napa Park Homes consists of renovations to all existing residential buildings, site work improvements and a new one-story common use building. The interior spaces new upgrades include: 14 new ADA units, Energy star appliances, bathroom fixtures, replacement of sewer lines, Energy efficient lighting, flooring, energy efficient HVAC systems and painting throughout. There are several proposed site improvements throughout which include: new exterior stairs and landings to 2nd floor apartments, new accessible walkways, 4 new accessible parking stalls, parking striping, site landscaping and site lighting. This rehab project will require building and site work demolition. All residential building demolition will consist of: removal of interior wood studs, sheetrock, carpet & sheet vinyl flooring, old HVAC wall mounted unit and plumbing sewer lines. All site work demolition will consist of removing asphalt, excavating, relocating PGE easement, removing curbs & sidewalks and existing planters. Construction is expected to start in Spring 2017 and is slated to last approximately 16 months with an expected completion date of Summer 2018.
