The project occupies a total of 3.07 acres across 3 parcels along Barrett Avenue and 7th Street. It consists of 14 two-story buildings, containing between three and six units each. Parking is provided in uncovered surface lots that are fenced and equipped with power-operated gates. The site also has three tot lots and three BBQs. All buildings are wood-framed structures covered in stucco and built on reinforced concrete slabs. All units are two-story with stairway access to second floor and have their own front and back entrance. The physical needs assessment concluded that multiple items need to be replaced such as furnaces, exhaust fans, water heaters, stucco patio walls and retrofitted windows. Full gut rehabilitation of the interior of 49 units including new flooring, bathroom fixtures, bathroom and kitchen cabinets, etc. New landscaping for grounds is also needed. Construction will be phased with residents relocated either to vacant units on-site or to off-site housing while their building is being rehabbed. The rehabilitation is expected to start in July 2016 and complete in April 2017.
