Analyst Comments:

This project is considered a high cost per unit project. According to the application, the factors contributing to the high cost per unit are as follows: escalating construction cost in San Francisco; City and County of San Francisco's subcontractor selection requirements; California HCD Veterans Housing and Homeless Prevention program requirements; prevailing wage and local hiring requirements; development of irregular site (reconfiguration of Treasure Island street grid); massing and street frontage requirements (due to the building's west facade pedestrian walkway requiring the building to step down from six to three stories at this facade to maintain a pedestrian walkway); greywater system; San Francisco Mayor Office on Disability requirements; relocation of replacement housing for formerly homeless veterans currently living in interim housing on Treasure Island and unit furnishing.
