Sacramento, CA 95814
June 16, 2021
Meeting Minutes

OPEN SESSION

1. Call to Order and Roll Call

State Treasurer Fiona Ma, CPA, called the California Debt Limit Allocation Committee (CDLAC) meeting to order at 11:03 a.m.

Members Present: State Treasurer Fiona Ma, CPA
Gayle Miller for Gavin Newsom, Governor
Anthony Sertich for Betty T. Yee, State Controller

Advisory Members Present: Kate Ferguson for the California Housing Finance Agency (CalHFA)
Jennifer Seeger for the Department of Housing and Community Development (HCD)

2. Approval of the Minutes of the April 28, 2021 Meeting (Action Item)

Anthony Sertich moved approval of the minutes for the April 28, 2021 meeting. Upon a second by Gayle Miller, the minutes passed 3-0 with the following votes: Anthony Sertich: Aye; Gayle Miller: Aye; Fiona Ma, CPA: Aye.

3. Executive Director's Report (Informational Item)

Nancee Robles welcomed the Committee Members and the in-person audience acknowledging that it had been a while since there were attendees in the meeting room.

Robles stated, since CDLAC's last meeting, staff have been working diligently on the next round of applications for allocation for the qualified residential rental projects (QRRP) pool. She reminded the applicants, that accurate and complete applications are essential to CDLAC staffs' ability to process those applications in a timely manner. Once the list was published, staff took numerous calls and emails from applicants stating that they had made errors in their applications. This blocks staffs ability to rank the applications until the errors are corrected. Staff prides itself in doing the best work possible to allocate California's bond cap. She thanked everyone in advance for providing staff with the proper tools to do so.

Robles continued; the second round of applications have arrived. Staff received 129 applications which is six (6) more than the prior round. CDLAC is 3.5 times oversubscribed for this round with requests totaling approximately \$3.7 billion. Staff is in the process of analyzing the applications and recommendations will be presented at the August 11, 2021 Committee meeting. Preliminary recommendations will be posted on July 16, 2021.

Staff understands that putting the applications together is hard work and time consuming; therefore, staff is taking steps to optimize the performance of the CDLAC online application system. In addition, with the gracious assistance of William Leach, staff is participating in implementing a universal data model which will help unify data amongst the State Treasurer's Office (STO), HCD and CalHFA among others. Ms. Robles thanked Mr. Leach for introducing us to and taking the lead on this project that will surely create some efficiencies within the State agencies.

Treasurer Ma, reiterated that applicants were checking the wrong boxes in terms of categories and set aside pools. When staff posts the preliminary scoring, and then staff receives several calls from applicants stating that they checked the wrong boxes, it is not helpful to the process. Treasurer Ma stressed the importance of having the correct information uploaded in order to make the system as sufficient and transparent as possible. The Treasurer asked that the applicants please double check the boxes in the application before submitting the online application as it would be very helpful to the process.

4. Recommendation for an Allocation of the State Ceiling on Qualified Private Activity Bonds for Exempt Facility (EXF) Projects and Awards of Allocation (Action Item)

- a. 21-006 Specialty Solid Waste & Recycling**
- b. 21-007 Northern Recycling, LLC Project**

Anthony Wey reported there were changes to the two (2) EXF project applications in the uses of bonds section of the staff reports. The changes to the staff reports were administrative only and had no effect on the projects. The applications were submitted by the California Pollution Control Financing Authority (CPCFA).

The first project, Specialty Solid Waste & Recycling, requested \$18,300,000 of 2021 bond allocation. The second project, Northern Recycling, LLC, requested \$23,677,224 of 2020 carryforward allocation and \$4,422,776 of 2021 bond allocation for a total request of \$28,100,000. The total 2021 bond allocation for the two (2) projects is \$22,722,776 with an aggregate total of \$46,400,000 of bond allocation for the two (2) projects.

Staff recommended approval of the two (2) EXF projects in the amount of \$22,722,776 of 2021 bond allocation, and \$23,677,224 of 2020 carryforward allocation for an aggregate amount of \$46,400,000 of bond allocation.

Anthony Sertich asked if staff knew how much allocation remained in the EXF pool; an estimated amount would suffice. Nancee Robles stated that she believed it was \$544 million. (Ms. Robles later noted she misspoke and the amount was approximately \$400 million) Mr. Sertich asked if that included the set aside for the high speed rail project. Ms. Robles replied in the affirmative.

Treasurer Ma, CPA, asked if there were any questions or comments from the public. Seeing none, please call the roll.

Anthony Sertich moved approval of staff's recommendation. Upon a second by Gayle Miller, the minutes passed 3-0 with the following votes: Anthony Sertich: Aye; Gayle Miller: Aye; Fiona Ma, CPA: Aye.

5. Public Comment

There was no public comment.

6. Adjournment

The Chairperson adjourned the meeting at approximately 11:15 a.m.

Re: 803 E. 5th St. (Application No. 21-497 & Resolution No. 21-117)
Request for First Extension of Allocation Expiration Date

Dear Ms. Robles,

On behalf of the sponsor for 803 E. 5th St., (the "Project"), the City of Los Angeles ("Applicant") requests an extension from October 25, 2021 to January 24, 2022. This request is submitted in accordance with section 5101 of the California Debt Limit Allocation Committee "CDLAC" Regulations. The City's request is based upon the sponsor's written request (see attached letter from sponsor) which is due to unforeseen circumstances related to the impact on the capital markets and associated government processing delays during the coronavirus (COVID-19) social distancing requirements.

The Applicant very much appreciates your consideration of this request. The project development team and the applicant are working to comply with the CDLAC bond issuance deadline. If you have any questions, please do not hesitate to contact Cecilia Rosales of my staff at (213) 808-8981 or cecilia.rosales@lacity.org. Please indicate your approval (and/or additional conditions) under separate cover.

Sincerely,

A handwritten signature in blue ink, appearing to read "ACPerry", written over a light blue circular background.

RE: 803 E. 5th Street, Los Angeles, CA—CDLAC & TCAC Extension Request

Dear Ms. Rosales:

Coalition for Responsible Community Development (CRCD) respectfully requests your assistance in securing a 90-day closing extension from the California Debt Limit Allocation Committee (CDLAC) for our project located at 803 E. 5th Street, Los Angeles, CA. On June 30, 2021, the Los Angeles County Development Authority (LACDA) contacted CRCD and requested that we submit a request to CDLAC with this request.

LACDA is working diligently to close on all bond and tax credit projects, but it is my understanding that LACDA is experiencing Covid related delays with their resources and as such, they have requested that we contact CDLAC/TCAC to request a 90-day closing extension for our project. LACDA is working tirelessly to manage their resources while balancing the need to close on all affordable housing projects within the time periods allowed by CDLAC and TCAC for bond projects.

CRCD respectfully requests your assistance in obtaining a 90-day extension to our closing date from CDLAC and TCAC for our project.

Thank you again for your time and assistance and please feel free to contact me at your convenience if you require any further information.

Sincerely,

Alejandro Martinez
President, CRCD Partners
Authorized Representative

Re: Requesting a 90-day extension for the Vermont Manchester Senior Apartments Project
(CDLAC Application No. 21-510)

Dear Ms. Robles:

I am writing on behalf of the California Municipal Finance Authority (the "Authority") to request a CDLAC 180-day extension to April 25, 2022, for the Vermont Manchester Senior Apartments Project (the "Project"). The Project (Resolution No. 21-121) received allocation on April 28, 2021, with a closing deadline of October 25, 2021.

The extension will enable the currently allocated bonds and credits for the Project to be retained and aligned with the Vermont Manchester Family funding that is still being pursued through both CDLAC and HCD. We plan to reapply to CDLAC Round 3 for Vermont Family as well as submitting an application to HCD under their upcoming NOFA for projects that have HCD funding but have not been able to secure bonds.

This is a shovel ready project, and it is confirmed to be on "the HCD list" of projects that are eligible for receiving funds from the \$1.75 Billion in the Governor's budget. The Project Sponsor has been in communication with HCD regarding their process and schedule for these funds and expect that the NOFA will be released in September.

This is a critically important project to the County and City of Los Angeles, and it is our hope that the CDLAC committee will concur that time to align funding is a reasonable request to approve.

Background:

BRIDGE Housing was selected by Los Angeles County (known as LACDA) to be the master developer for the Vermont Manchester Transit Priority Project site in August 2018. The site has remained undeveloped since the civil unrest of 1992. After being a source of blight for almost thirty years, these two city blocks in South Los Angeles are poised to be transformed into a mixed use development that provides affordable and permanent supportive housing; grocery anchored retail; a charter school, METRO job training center and a transit plaza open to the public. The housing project will consist of 180 affordable units—a 60-unit senior permanent supportive housing project and a 118-unit affordable family component that includes 30 permanent supportive housing units for families.

BRIDGE Housing submitted two CDLAC-TCAC applications in Round 1 2021---one for Vermont Manchester Family ("Family") and one for Vermont Manchester Senior ("Senior"). The applications were clear in stating that the two housing projects are part of one mixed-use building and therefore could not proceed to closing independently of one another. While successful in securing bond allocation/ tax credits for the senior component, the Family component was not successful in securing bonds/ tax credits in either round.

These projects have commitments for \$37.5 million in State of California public funds (specifically, AHSC, TOD, and IIG), more than \$20 million in local funds. The project is "shovel ready" and if not for the lack of bonds, 4% and state credits would start construction in October 2021.

If an extension for Vermont Manchester Senior Housing is not secured, the bonds and tax credit allocation will need to be returned to CDLAC/ TCAC and the project added to the list of HCD projects that need to use the \$1.75 Billion in alternative funds.

Please accept this letter as a request to the CDLAC Board to have negative points waived and a waiver of the forfeiture of the performance deposit.

Should you have any questions or need further information, please don't hesitate to contact me. I can be reached at (760) 930-1221

Thank you for your consideration.

Re: CA-21-509 & CA-21-608 (Vermont Manchester Family) and CA-21-510 (Vermont Manchester Senior) Bond and Tax Credit Applications -----**REQUEST FOR EXTENSION FOR CA-21-510**

Dear Ms. Robles:

We are submitting a request for a six (6) month extension to the issuance/ closing date for reservation CA-21-510 (Vermont Manchester Senior Housing). This extension from October 25, 2021 to April 25, 2022, will enable the currently allocated senior bonds and credits to be retained and aligned with the family funding that is still being pursued through both CDLAC and HCD. We plan to reapply to CDLAC Round 3 for Vermont Family as well as submitting an application to HCD under their upcoming NOFA for projects that have HCD funding but have not been able to secure bonds.

This is a shovel ready project and we have confirmed it is on "the HCD list" of projects that are eligible for receiving funds from the \$1.75 Billion in the Governor's budget. 1200 West 7th Street, 8th Floor
Los Angeles, California 90017

**RE: CA-21-537 Washington Arts Collective
Request for Tax Credit Readiness and Tax-Exempt Bond Issuance Extension**

Dear Mr. Brady,

On April 28, 2021, WAC, L.P., a California limited partnership (the "Partnership"), received a Resolution from the California Debt Limit Allocation Committee ("CDLAC") for transferring a portion of the 2021 State Ceiling on Qualified Private Activity Bonds for the development of the affordable housing project known as Washington Arts Collective (the "Project"). Additionally, the Project received a Preliminary Reservation Letter from the California Tax Credit Allocation Committee ("CTCAC") for a reservation of federal and state tax credits.

The Project has a commitment from the Los Angeles County Development Authority ("LACDA") for funds up to \$4,660,000 through the No Place Like Home ("NPLH") Program. Please see attached commitment letter for reference. On July 16, 2021, LACDA contacted the Partnership and requested that we submit to CDLAC and TCAC a request for an extension to the tax-exempt bond issuance and tax credit readiness deadlines.

LACDA is working diligently to close on all bond and tax credit projects within the time periods allowed by CDLAC and TCAC. It is the Partnership's understanding that LACDA is experiencing COVID-related delays with their resources. As such, they have asked the Partnership to request a 90-day extension to the bond issuance and tax credit readiness deadlines to February 6, 2022.

We appreciate CDLAC and CTCAC's consideration of this request, and we are confident that the Project will successfully and expeditiously move forward should the extension be granted. If you have any questions or require greater clarification, please feel free to contact me directly via e-mail at referra@metahousing.com or phone at (818) 324-9807.

Sincerely,

Ross Ferrera
Vice President

Credit Enhancement Provider: N/A
Private Placement Purchaser: N/A
TEFRA Hearing Date: June 11, 2021

Project Sponsor's Principal Activity:

A Plant recycling solid waste rice straw to manufacture medium density fiberboard.

First Tier Business (Yes/No): Yes

Regulatory Mandate (Yes/No): Yes

Details of Project Financing
Sources of Funds:

Tax-Exempt Bond Proceeds	\$	18,000,000
Other Company Sources (2017 Refinancing)	\$	0
Total Sources	\$	18,000,000

Uses of Funds:

Acquisition and Installation of New Equipment	\$	12,992,688
Other Expenses	\$	4,287,312
Cost of Issuance (incl. discount)	\$	720,000
Total Uses	\$	18,000,000

Description of Proposed Project:

According to the Borrower, it is a small business that proposes to use a patented method (U.S. Patent 6,596,209) licensed to the Borrower to manufacture MDF from rice straw—a solid waste product from the farming and harvesting of rice. The Project is located on 275 acres outside of the City of Willows in Glenn County, within the Sacramento Valley region, where the overwhelming majority of California's rice is grown. The 300,000-square-foot Plant is expected to recycle rice straw into MDF from approximately 100,000 acres annually, nearly 20% of California's annual rice acreage. The Borrower purchased the Plant site in April 2008, and construction of the Plant began in November 2017. As of June 2021, the Plant is 100% mechanically complete, and the first production of MDF occurred in November 2020. This project will acquire and install new equipment, construct a new building and pay eligible costs related to bond issuance.

Environmental Impact:
1) Air Quality:

The Borrower states, "The Project will eliminate substantial annual emissions of methane gas. Preliminary studies indicate that decomposing straw from re-flooded fields releases an estimated 500 to 1,250 pounds of methane per acre. Since the straw used by the Project would not undergo the decomposition process, the Project will result in the abatement of approximately 57,000 tons of methane annually, assuming the higher range of the methane estimate. This amount of methane is the greenhouse gas reduction equivalent of 1.2 million tons of CO₂, or the equivalent of removing approximately 270,000 cars from California's roadways each year."

2) Water Quality:

The Borrower states, "The Project will save approximately 55,000 acre-feet (17.8 billion gallons) of water each year, the equivalent water consumption of approximately 500,000 San Francisco Bay area households each year. Most of this water use reduction would result from reducing seasonal fall water diversions from the Sacramento, Yuba and Feather Rivers. This will help protect the fall-run Chinook salmon (a species federally listed as threatened and endangered), steelhead, striped, bass, and other valuable California fisheries."

3) Energy Efficiency:

The Borrower engaged its technical advisor, Stephen Vajda Consulting ("SVC"), to analyze whether the project meets the ICMA's Green Bond Principles. SVC has delivered its final report (the "SVC Report") dated July 3, 2021, opining that the Project meets many of the categories for Green Bond Principles and the State of California's environmental goals and policies, such as: (i) reduction of air pollution; (ii) reduction of climate pollution; (iii) water conservation; (iv) increasing energy efficiency; and (v) stewarding natural resources.

4) Recycling of Commodities:

The 300,000-square-foot Plant is expected to recycle rice straw into MDF from approximately 100,000 acres annually, nearly 20% of California's annual rice acreage.

5) Safety and Compliance:

Application No. 21-012

The Project will be compliant with all State and local regulations.

6) Consumer Costs Savings and Efficiencies

The Borrower states, "The Project will save over 4,200 acres of mature forests (the equivalent of more than one million trees) from needing to be clear-cut each year by using an annually renewable raw material (rice straw), rather than wood byproducts, as an MDF raw material source."

Local Government Support:

The Applicant provided several letters of support from the government entities.

Legal Questionnaire:

No information was disclosed that raised any question regarding the financial viability or legal integrity of the Project Sponsor.

Recommendation:

Staff recommends the approval of \$18,000,000 in tax exempt bond allocation.

Project Sponsor's Principal Activity:

E-Waste recycling

First Tier Business (Yes/No): Yes

Regulatory Mandate (Yes/No): Yes

Details of Project Financing
Sources of Funds:

Tax-Exempt Bond Proceeds	\$	75,000,000
Equity (previous Investment)	\$	17,600,000
Magnetar Equity	\$	20,000,000
Total Sources	\$	112,600,000

Uses of Funds:

Acquisition of Existing Buildings	\$	5,813,834
Site Preparation	\$	7,489,404
Utilities Connection	\$	1,058,245
Acquisition and Installation of New Equipment	\$	11,970,786
Engineering/Architecture - EPC Agreement	\$	34,590,000
Legal, Permits, etc.	\$	121,843
Project Related Insurance - Credit Enhancement	\$	12,420,228
Interest During Construction	\$	3,787,393
Feedstock Inventories	\$	5,000,000
Other Expenses	\$	30,348,267
Total Uses	\$	112,600,000

Description of Proposed Project:

The company is building a Plant that will process printed circuit boards (E-scrap) and related materials (PCBs) derived from old computers, flat panel televisions, and smartphones ("E-waste"). Such material is generally acquired from recyclers of whole E-waste or from the original equipment manufacturers (OEM) that need to dispose E-Waste.

Environmental Impact:

- 1) Air Quality:
No direct affect
- 2) Water Quality:
No direct affect
- 3) Energy Efficiency:
No direct affect
- 4) Recycling of Commodities:
The material composition of e-waste is heterogeneous containing well over 40-50 substances, a mix of ferrous metals, glass, plastics, base metals (copper, aluminum), heavy metals (lead, chromium, arsenic) and precious metals (gold, silver and platinum). Camston Wrather, through its unique application to solve the global e-waste problem, integrates technology from multiple industries to break the standard end of life processes and creates an alternative to recover the elemental building blocks that make up e-scrap. This also reduces the negative impact associated with diverting the waste to be dumped and burned in the impoverished countries of the world. By recovering the commodities that make up e-scrap, the materials are able to be reused in future electronic products.
- 5) Safety and Compliance:
The Project will be compliant with all State and local regulations.
- 6) Consumer Costs Savings and Efficiencies:
Through a completely green fashion Camston is able to recover the building blocks of e-scrap and separate them into three separate buckets being: Ferrous Metals, Non-ferrous Metals and Polymers. The economic driver of the plant is the Non-ferrous metals bucket; however, each product has its own respective market that will buy Camston's concentrate. The plant will have the capacity to process at least 4,000 lbs. and hour of PCBs, equating to an annual amount of 14,784,000 lbs. of PCBs processed from the Carlsbad location alone.

Local Government Support:

The Applicant provided a letter of support from the government entity where their company is currently located.

Legal Questionnaire:

No information was disclosed that raised any question regarding the financial viability or legal integrity of the Project Sponsor.

Recommendation:

Staff recommends approval of \$75,000,000 in tax exempt bond allocation.

Other Expenses	\$	234,702,851
Cost of Issuance (incl. discount)	\$	6,000,000
Total Uses	\$	587,513,244

Description of Proposed Project:

Valley Green Fuels will purchase approximately 150 acres of vacant land and build its plant at the South Kern Industrial Center (SKIC), about 25 miles to the southwest of Bakersfield. SKIC's Specific Plan and Environmental Impact Report were approved by the Kern County Board of Supervisor for heavy industrial use. The facilities will consist of: (i) a dual train, pre-treatment facility for rendered tallow, used cooking oil, distillers' com oil, soybean oil and other inedible fats and greases with technology licensed from Alfa Laval (<https://www.alfalaval.us0>), (ii) a HydroFlex unit, which is a hydrotreating facility consisting of two reactors, a de-oxygenation unit and an isomerization unit, with technology licensed from Haldor Topsoe (<https://www.topsoe.com/>), and (iii) a hydrogen plant to provide hydrogen to the Hydroflex. The facility has a planned capacity of 15 thousand barrels per day (kbd) of feedstock, producing Renewable Diesel and Renewable Naphtha. The plant could produce Sustainable Aviation Fuel (SAF), as well.

Environmental Impact:
1) Air Quality:

Renewable Diesel (RD) replaces petroleum diesel and is produced by hydrotreating low value feedstocks like tallow, used cooking oil and vegetable oils. The process makes a very high quality fuel that reduces criteria pollutants and greenhouse gases (GHG) versus petroleum diesel, therefore reducing the potential for smog and global warming. California's Low Carbon Fuel Standard (LCFS) requires a 30% reduction of greenhouse gases generated by transportation fuels by 2030. One of the leading contributors to the program's success has been RD. Reductions in GHG range from 15 to 80%, depending on the feedstock, according to CARB, relative to petroleum diesel. This project will reduce GHG by about 2 million tons per year. Use of RD reduces the pollutants that create smog. RD has very low sulfur and aromatics content. The Air Resources board calculated that RD reduced PM emissions by about 30% and oxides of nitrogen (NOx) emissions by about 10% relative to petroleum diesel. NOx is one of the main contributors to smog. The use of RD from this project will reduce NOx by 840 tons per year.

2) Water Quality:

Water produced in the process will be reused and total recycle of all water streams will minimize makeup water. There will be no net treated waste-water send to the POTW. VGF will have essentially zero liquid discharge. The tank farm will be surrounded by dikes to prevent any product from leaving the site.

3) Energy Efficiency:

The Renewable Diesel Project uses well thought-out engineering techniques to ensure the plant will not be a Major Source by minimizing emissions and creating efficiencies that reduce the need for fossil energy. These include: Eliminating all but one fired heater and using Best Available Control Technology (BACT) to reduce NOx and carbon monoxide (CO) emissions. BACT is not required by the SJV APCD. Designing the refining process to use the light gases generated by the HydroFlex to provide the feed for the Hydrogen Plant. This will reduce the need for purchased fossil natural gas, thereby reducing the carbon footprint of the refining step. Reusing the heat generated by the HydroFlex to provide electricity and steam for the plant, reducing the amount of electricity that has to be purchased.

4) Recycling of Commodities:

The plant will process at least 65% tallow, which is a solid at room temperature and classified as a waste product. This is the equivalent of 650 million pounds per year of solid waste. It will also process used cooking oil and other low valued vegetable oils.

5) Safety and Compliance:

The project will use the highest standards for safety, design, construction, maintenance, operations, reliability. The project will employ the latest technology for training of operators and maintenance personnel to maximize safe operations and will meet all the standards set by Kern County, the State of California, and the Federal government.

6) Consumer Costs Savings and Efficiencies:

This plant will employ about 100 people and the construction phase will employ about 400 people. The product will result in a capital deployment of about \$600 million to build a greenfield site. The Project is expected to result in an increase in the local tax base, increasing asset values and property tax revenues.

Local Government Support:

The Applicant provided a letter of support from a local government entity.

Legal Questionnaire:

No information was disclosed that raised any question regarding the financial viability or legal integrity of the Project Sponsor.

Recommendation:

Staff recommends the Committee consider a number of options that will be presented at the August 11, 2021 meeting. Options will depend on the amount of Exempt Facility allocation remaining in the pool, and may include reduced amount of requested tax-exempt bond allocation, shortened terms, and/or other conditions.

AGENDA ITEM 7

**Consideration of Appeals for

RE: Support for Bascom Apartments Appeal (CA-21-593)

Dear Treasurer Ma, Committee Members, and Director Robles,

I write this letter in support of Bascom Apartments, an important affordable housing development in the City of San José, which will provide 79 units of desperately needed affordable and permanent supportive housing. Bascom Apartments is located in one of the very few highest/high resource areas in the City, as defined by the State's Opportunity Map. For these 79 affordable homes, half of which will be utilized to permanently house residents currently experiencing homelessness, to continue moving forward toward a construction start later this year, I support Affirmed Housing's request for forward funding from the Round 3 Bay Area pool, and/or reallocation of unused funds from other Pools.

This affordable housing development is critical in helping our City reach its goal of adding 10,000 new affordable housing units by 2022. With the pandemic still a factor, we continue to grapple with the shortage of affordable housing and the homelessness crisis. This project would be the first permanent supportive housing project to be built in this Council district of San José.

The City is in full support of Bascom Apartments' affordable and supportive housing moving forward and has already expedited our local permit review process for this development through AB 2162. The project is on track to issue building permits in September. This development aligns State and local priorities for affordable and permanent supportive housing and is exactly the type of project San José needs now.

I deeply appreciate your consideration. If you have any questions, please contact my Senior Advisor for Housing and Homelessness, Nathan Ho, directly at nathan.ho@sanjoseca.gov.

Sincerely,

Sam Liccardo
Mayor, City of San José

Nancee Robles

August 2, 2021

RE: Bascom Apartments (21-593) – Forward Bond Request

Dear Ms. Robles and Committee Members:

Thank you for your consideration of Bascom Apartments' application for an allocation of tax-exempt bonds and tax credits. Despite Staff's confirmation that the project's application scores the maximum 120 points and complies with program requirements (i.e. no deficiencies), the project was not included on the CDLAC preliminary recommendations list. First, in the ELI/VLI pool, the project was next to be funded however the pool ran out of bonds with only \$6,381,199 available. Next, the project dropped down to the Bay Area region pool and our point score and tiebreaker placed Bascom Apartments as the third-ranked project after The Meridian. Our bond request was for \$35,672,716, but with only \$23,475,873 remaining in the pool, our project was skipped and another project scoring less total points of 119 would be awarded \$6,473,200 instead, leaving a remaining unused balance of \$17,002,673 in the Bay Area region pool. Because of these circumstances in addition to several reasons included in the body of this letter, **we are requesting that staff and/or the Committee forward fund the difference of \$18,670,043 from the Round 3 Bay Area pool and/or re-allocate unused funds from other Pools to fund Bascom Apartments in Round 2.**

We understand that Section 5231(f) of the regulations only allow a forward allocation if 80% of the project can be funded in the current round, but we request an exception for the following reasons.

1. **There is recent precedent allowing for forward funding in the Bay Area Region pool.** A project in Round 1 of this year was successful in securing a forward commitment from the Committee. The forward commitment was taken from the Bay Area Region Round 2 Pool **and is the sole reason that Bascom Apartments will not be funded in round 2-barring a favorable response.** It is only fair for staff and/or the Committee to stay the course in 2021 and allow for bonds to be exhausted in this pool each round and to allow for a forward commitment of bonds from future Bay Area Region pools if necessary. By approving the request in Round 1, the Committee effectively changed the future round results in the Bay Area Region pool for the 2021 competition. This would be the first project in 2021 located in a non-rural location in CA to score a perfect 120 points and not be funded by this Committee, if forward funding is not secured.
2. **The project is aligned with State priorities.** The project is located in one of the very few High/Highest Resource areas in the City of San Jose which is one important reason this project will further fair housing law in CA and will produce equitable outcomes for its future residents which will include families as well. The project would be the first supportive housing project developed

in this Council district of San Jose. In addition, this project fulfills State priorities by providing deep affordability through the reservation of 50% of units as permanent supportive housing for formerly homeless households with the other 50% of the units targeted towards families, some of which will be first responders.

3. **The project is shovel ready.** The project is fully entitled and on track to receive building permits in October 2021. The County of Santa Clara has committed \$15,600,000 in funds and 11 project-based vouchers to this project. The VA has also committed 5 Veterans Affairs Supportive Housing (VASH) vouchers. If the project receives an allocation this round, it can start construction by November 2021.
4. **Disproportionally higher Bay Area Region Round 3 Pool.** Despite the reduction from the forward funding mentioned above, the \$104,453,680 bond capacity allocation for Round 3 of the Bay Area Region is still \$10,633,545 more than the total for Round 2. This is due to the Regulations revisions of the geographic pool percentages passed by the Committee, which increased the Bay Area Region's proportion from 17% to 21%. Pulling forward the amount needed from Round 3 would more accurately reflect the Committee's intent. In addition, even with the Committee granting approval of our forward allocation request, the bonds available in Round 3 Bay Area Region Pool would only be 9% less than what was available in Round 2 having a very small impact on Round 3.
5. **Bond cap amounts among rounds changed last minute.** At the beginning of 2021, Staff recommended allocating the bond cap 40%/40%/20% across the three rounds for 2021. The Committee decided to divide them evenly instead, which ended up hurting shovel ready and time sensitive projects like Bascom Apartments that were counting on the higher proportion of bonds in the second round.
6. **Delaying this project would jeopardize funding commitments.** The project underwriting includes State credits, which look to be exhausted for non MIP projects in this round. Therefore, the project would need to wait until the additional \$500MM in new State credits flow through CTCAC in 2022, delaying the project start by at least 10-12 months and ***putting the current project funding commitments with the County in limbo***. With a new tie breaker for CDLAC on the horizon the decision to deny our request could delay the project indefinitely.

We appreciate your consideration of this request and are happy to discuss in more detail.

Sincerely,

Jimmy Silverwood
Executive Vice-President
Affirmed Housing Group

Sacramento, CA 95814

RE: CA-21-641
Project Name: Villa Oakland
CDLAC Application Appeal

Dear Committee Members:

This letter constitutes an appeal by OakBrook Housing, The John Stewart Company, Covenant House California, and California Municipal Finance Agency, collectively 2116 Brush Limited Partnership (the "Applicant") of the California Debt Limit Allocation Committee's ("CDLAC's") rejection of Applicant's request for a tax-exempt bond award for the Villa Oakland (CDLAC# CA-21-641) (the "Project"), pursuant to CDLAC's Bay Area Region designation.

The Project will provide critically needed housing for homeless youth in Oakland and is ready to begin construction now. There is substantial risk that this housing will never be built if Applicant's appeal is rejected.

The Applicant's request is simple: CDLAC should exercise its discretion to award less tax-exempt bonds to a Project that meets each and every requirement for a bond award in this application round. If CDLAC does not award the requested bonds to the Project, the requested bonds will not be used at all in this round, resulting in a failure of CDLAC to meet its mission of ensuring that California's bond allocation is fully and efficiently used to finance qualified affordable housing projects.

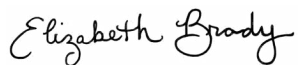

Please consider the following:

- CDLAC has the discretion to allow Applicant to reduce the amount of bonds requested, and CDLAC's public mission compels CDLAC to exercise its discretion in this manner.** CDLAC Regulation Section 5180 allows an applicant to cure any deficiencies found in its application. The sole deficiency in Applicant's application is that Applicant requested more bonds than are available for the Bay Area Region, after CDLAC's award of bond cap to the projects that scored higher than the Project in this round. If Applicant had known the amount of bonds that would be available for the Project, Applicant would have requested an amount necessary to conform with this limit. Allowing Applicant to adjust its application in this manner will serve the purpose of funding more housing units more quickly, without unduly penalizing later rounds. The Project is the next and only skipped project in this round that would be able to both reduce its bonds without changing its costs and still satisfy all applicable CDLAC and CTCAC application requirements. If CDLAC fails to take action, the requested bond cap would go unused in this round, thereby thwarting CDLAC's mandate to fully utilize all available public resources to cause as much affordable housing to be developed as soon as possible.
- There are no other deficiencies in Applicant's application.** The sole deficiency in Applicant's application is the one discussed in item 1 above. CDLAC's July 28 letter to Applicant claims that Applicant's application had a second deficiency: failing to evidence achievement of a minimum 1.15 debt service coverage

ratio ("DSCR"). CDLAC's claim is unwarranted. The application does show that the Project meets the required 1.15 DSCR. CDLAC's regulations do not establish a required time period for meeting the required 1.15 DSCR. The application shows that the Project meets the required 1.15 DSCR within the time period specified in the California Tax Credit Allocation Committee ("CTCAC") regulations. CDLAC cannot impose an unwritten, restrictive time period for DSCR calculation. The Project meets CDLAC's 1.15 DSCR requirement under its original application, and meets the 1.15 DSCR requirement even more comfortably with the requested reduced bond award.

The Applicant is ready, willing and able to proceed now with construction of affordable housing for Oakland's homeless youth. CDLAC should exercise its discretion to allow unused bond funds to be awarded to Villa Oakland in order to allow this shovel-ready project to proceed, so that homeless youth in Oakland can be housed as soon as possible.

With much gratitude for your consideration,

Elizabeth Brady

Tax Credit Units:	126
Manager's Units:	1 Unrestricted

Citrus Crossing Apartments is a new construction project located in Glendale on a 0.79-acre site. The project consists of 57 restricted rental units, 69 market rate units and 1 unrestricted manager's unit. The project will have 87 studio units, 39 one-bedroom units, and 1 two-bedroom unit. The building will be four levels of wood-framed Type V construction over one level of Type I-A above grade. Common amenities include a central courtyard, two community rooms, a laundry room, and an office space. Each unit will have storage space, a refrigerator, and an oven. Mobility accessible units will have grab bars, wheelchair turnaround spaces within the units, removable cabinets at bath vanity and kitchen sink, and hand-held shower heads. Units serving tenants who are visually and/or hearing impaired are built with all lighting and HVAC controls within allowable reach ranges, visual fire alarm and doorbell warnings systems, and strobe lights. The construction is expected to begin February 2022 and be completed in February 2024.

Restricted Units:**Percent of Restricted Rental Units in the Project:** 45%

Reserves	\$2,398,422
Other Costs	\$5,556,343
Developer Fee	\$2,500,000
Total Uses	\$114,438,908

Analyst Comments:

This project is considered a high cost per unit project. The high cost can be attributed to: 1) Funding requirements, including LEED Gold and energy efficiency standards substantially in excess of Title 24 standards as required by the Affordable Housing Sustainable Communities (AHSC) program, and Davis-Bacon/commercial prevailing wage and Project Labor Agreements with the City of Los Angeles and LA County Metro. 2) Holding costs for owning and maintaining sites adjacent to a major Metro station and transit hub and ENA/PSA fee payments to Metro. 3) Site conditions, including a ten-foot grade change, an irregularly shaped site that requires two separated building structures, and added complexity of designing and engineering above and adjacent to an underground Metro station portal.

Legal Questionnaire:

The Staff has reviewed the Applicant's responses to the questions contained in the Legal Status portion of the application. No information was disclosed to question the financial viability or legal integrity of the Applicant.

Rancho Bernardo Senior Housing is a new construction project located in San Diego on a 3.61-acre site. The project consists of 175 restricted rental units and 3 unrestricted manager's units. The project will have 175 studio units and 3 two-bedroom units. Common amenities will include a management office, laundry room, gym, warming kitchens for teaching and social events, computer room, and multi-purpose gathering and meeting rooms. Unit amenities will include new flooring and wall surfaces, redesigned bathrooms for accessibility and water efficiency, upgraded mechanical, electrical, and plumbing systems, and the addition of private kitchens to each studio apartment. Kitchens will include refrigerator, range/cooktop, oven, sink and a microwave. In-unit bathrooms will be renovated as needed to meet accessibility and adaptability requirements. The construction is expected to begin January 2022 and be completed in February 2023.

Shoreline is a new construction project located in San Diego on a 1.057-acre site. The project consists of 124 restricted rental units and 2 unrestricted manager's units. The project will have 38 Studio units, 23 one-bedroom units, 32 two-bedroom units, and 33 three-bedroom units. Common amenities will include bike storage, staff offices, and an assembly and entertainment area with outdoor patios, built-in seating and planters, play areas for children ages 2-12, and 13-17, and a community barbecue area. Residential units will feature energy-efficient ranges, refrigerators, dishwashers, and HVAC. Water-saving measures will be employed throughout the project, and the residential buildings will utilize all available rooftop space for solar PV to offset a large portion of tenant electrical load. The project will be Build It Green GreenPoint Rated, certified by Partner Energy, who will also provide T-24 compliance verification and the project's CUAC schedule. The construction is expected to begin December 2021 and be completed in August 2023.

SFHA Scattered Sites is an existing 5 site scattered site project located in San Francisco on a 1.14-acre site. The project consists of 66 restricted rental units, and 3 unrestricted manager's units. The project has 19 studio units, 2 one-bedroom unit, 17 two-bedroom units, 27 three-bedroom units, and 4 four-bedroom units. The renovations for 363 Noe will include building exterior upgrades. Building exterior renovations will consist of repairs to the exterior envelope, including replacement of the roof and all windows. Interior renovations will include new finishes. Individual apartment units will be updated with new appliances. Lastly, common or site area renovations will consist of modernizing the mechanical, electrical, and plumbing systems to meet current building codes. The renovations for 1353-1367 Eddy will include building exterior upgrades. Building exterior renovations will consist of replacement of the exterior shiplap siding on 3 of the 4 sides, and restoration of the wooden Victorian ornamentation on the front façade as the building envelope is in poor condition, displaying evidence of dry rot and water intrusion, and the rear stairways to the units are deteriorating presenting a significant safety hazard for residents. Renovations will include restoring the historic nature of the property. Individual apartment units will be updated with new finishes and appliances. The renovations for 200 Randolph/409 Head will include building exterior upgrades. Building exterior renovations will consist of total replacement of the roof, exterior siding, and all new windows and doors. Interior renovations will include adding small office facilities. Individual apartment units will be updated with interior finishes and fixtures. Lastly, common or site area renovations will consist of ADA updates. The renovations for 2206-2268 Great Highway will include building exterior upgrades. Building exterior renovations will consist of total replacement of the building envelope, along with reinforcement of the frame with sheathing to provide seismic reinforcement. Interior renovations will include new unit load centers and new wiring throughout. Individual apartment units will be updated with new light fixtures and receptacles, and new appliances. Lastly, common or site area renovations will consist of installation of new shearwall on first and second story framing to improve the building's resiliency in a major earthquake. The renovations for 4101 Noriega will include building exterior upgrades. Building exterior renovations will consist total replacement of the exterior building envelope, including windows, roof, fire escapes, balconies exterior stairways, and siding. Interior renovations will include new unit load centers and new wiring throughout. Individual apartment units will be updated with new light fixtures and receptacles, and new appliances. Lastly, common or site area renovations will consist of installation of new shearwall and foundation deepening to improve the building's performance in a major earthquake. The rehabilitation is expected to begin in January 2022 and be completed in December 2022.

Ramona Metro Point is a new construction project located in El Monte on a 0.83-acre site. The project consists of 50 restricted rental units and 1 unrestricted manager's unit. The project will have 24 one-bedroom units, 12 two-bedroom units and 15 three-bedroom units. The building will be 4 stories and the building consists of Type V construction with 3 levels of wood framed residential units over one level of structured parking. Common amenities include a community room with Wi-Fi, a community kitchen, computer lab, homework stations, a tot-lot, and bicycle parking. Each unit will have a full kitchen including dishwasher, full bathroom, living and dining area, heating and cooling air systems, and energy-efficient appliances. Each Special Needs unit will also come furnished with a bed and dresser (consistent with the number of bedrooms in the unit), dining table with chairs, sofa, coffee table, and a lamp. The construction is expected to begin February 2022 and be completed in August 2023.

Clearlake Apartments is an existing project located in Clearlake on a 6.59-acre site. The project consists of 71 restricted rental units and 1 unrestricted manager's unit. The project has 32 one-bedroom units, 36 two-bedroom units, and 4 three-bedroom units. The renovations will include both interior and exterior upgrades. Building exterior upgrades will consist of roof upgrades, new siding, installation of energy-efficient windows, and stairway upgrades. Interior renovations will include installation of energy-efficient lighting in all common areas, laundry room and management office upgrades and modernization, and a new security camera and monitoring system. Individual apartment units will be updated with new appliances, new flooring and painting, and upgraded cabinetry and countertops, in addition to electrical updates. Lastly, site area renovations will consist of ADA-compliant paths of travel, new accessible carports, conversion to water-efficient landscaping, and playground and site fencing improvements. The rehabilitation is expected to begin in December 2021 and be completed in June 2022.

San Martin de Porres Rehab is an existing project located in Spring Valley on a 4.78-acre site. The project consists of 115 restricted rental units and 1 unrestricted manager's unit. The project has 56 two-bedroom units, 40 three-bedroom units, and 20 four-bedroom units. The renovations will include building exterior upgrades. Building exterior renovations will consist of repairing/maintenance of roofing, gutters, lighting, walkways, and stairwells. Interior renovations will include ADA upgrades. Individual apartment units will be updated with replacement of existing windows with vinyl-framed insulated window units, installation of humidistat-controlled exhaust fans, and replacement of flooring with vinyl plank. Lastly, common or site area renovations will consist of sealing and striping of the drive aisles and parking stalls, repair/replacement of landscape and hardscape to reduce water consumption and prevent erosion. The rehabilitation is expected to begin in February 2022 and be completed in August 2023.

Hotel Fresno Apartments is a new construction project located in Fresno on a 1.19-acre site. The project consists of 40 restricted rental units, 38 market rate units and 1 unrestricted manager's units. The project will have 39 one-bedroom units, 27 two-bedroom units and 12 three-bedroom units. The building will be comprised of one existing seven (7) story building and will be Type-1-B, with a concrete frame/structure, concrete floors, and concrete exterior walls. Common amenities include a community room with an adjacent computer room, two laundry rooms, elevator service, management/rental office, lobby area, sitting lounges, wireless high speed internet, and an outdoor tot-lot play area. Each unit will have dishwashers, garbage disposals, individually controlled central air conditioning/heating, and window coverings. The construction began in June 2019 and is expected to be completed in January 2022.
