In that position, she reviewed tax exempt private activity bond applications for multifamily housing and worked on several special projects. Prior to CDLAC, she worked at California Housing Opportunities Corporation and was also an intern with California Coalition for Rural Housing. She brings a well-rounded knowledge of affordable housing to the role.

Earlier this month, Ms. Wiant spoke on a panel at the Novogradac Affordable Housing Conference with CalHFA Executive Director Tiena Johnson Hall. She also attended the Non-Profit Housing Association of Northern California (NPH) Annual Affordable Housing Leadership Awards. Tomorrow, she will be speaking at California Housing Consortium's Annual Policy Forum in Los Angeles.

4. **Agenda Item: Recommendation for Award of Allocation to Qualified Private Activity Bonds for Exempt Facility (EXF) Projects (Round 1) – (Action Item)**

Presented by: Christina Vue

Ms. Vue reported that CDLAC received one EXF application in Round 1. The request is for \$44.5 million of tax-exempt bond allocation for MarBorg Industries to acquire compressed natural gas-powered collection vehicles, upgrade and improve an existing solid waste recycling and processing facility in Santa Maria, and construct a new operations depot to service customers throughout Santa Barbara County. Staff recommends approval of the allocation.

Chairperson Ma invited a representative to speak on behalf of the project.

Mark Holmstedt from Piper Sandler spoke on behalf of MarBorg Industries. He expressed appreciation for the Committee's consideration of this allocation. The project will contribute to the waste diversion goals of the state.

Chairperson Ma called for public comments:
None.

MOTION: Mr. Johnson motioned to approve staff's recommendation, and Ms. Perrault seconded the motion.

The motion passed unanimously via roll call vote.

5. **Agenda Item: Recommendation for Award of Allocation to the California Department of Veterans Affairs for Single Family Housing (SFH) – (Action Item)**

Presented by: Christina Vue

Ms. Vue reported that at the January 17, 2024, meeting, the Committee reserved \$80 million of the state ceiling for the California Department of Veterans Affairs (CalVet). CalVet has submitted its formal application for bond allocation totaling \$80 million, which it estimates will serve 237 first-time homebuyers who are active-duty military personnel or veterans. Staff recommends approval of the allocation.

Chairperson Ma called for public comments:
None.

MOTION: Mr. Johnson motioned to approve staff's recommendation, and Ms. Perrault seconded the motion.

The motion passed unanimously via roll call vote.

6. **Agenda Item: Request to Waive the Maximum Bond Allocation Amount (\$75,000,000) for Qualified Residential Rental Project (Cal. Code Regs., tit. 4 §5232) – (Action Item)**

Presented by: D.C. Navarrette

Mr. Navarrette reported that there are six requests for allocation above the \$75 million limit.

California Debt Limit Allocation Committee

Chairperson Ma said the Committee seems to be receiving more requests to waive the maximum bond allocation amount and extend issuance deadlines.

Ms. Wiant said those items could be addressed individually under their respective agenda items. Staff has had discussions about the purpose of setting the \$75 million maximum bond allocation amount. The competitive system encourages applicants to keep their allocation requests as low as possible, but there are certain circumstances in which projects require a higher amount. The reasons for these requests in particular are due to higher regional construction costs or more complicated construction sites. Staff has discussed whether it still makes sense to have a maximum bond allocation amount and has concluded that it probably still makes sense so that the Committee has an opportunity to see what is happening. In non-competitive years, staff would still want to see projects limiting their allocation requests as much as possible, even though they would not be required to compete in the tiebreaker.

Mr. Johnson thanked Ms. Wiant for sharing that perspective. He has thought a lot about this over the past couple of days and has come to some of the same conclusions. There is already downward pressure because of the scoring rubric, so these waivers serve as an opportunity for the Committee to have insight into trends and processes. It is good for the Committee to have the opportunity to approve these waivers. He understands the reason for the requests and appreciates the awareness of the increasing number of waiver requests. He expects that the Committee will have a similar conversation regarding the extension requests.

Chairperson Ma expressed that there have been difficulties both during the pandemic and moving forward.

Chairperson Ma called for public comments:
None.

MOTION: Ms. Perrault motioned to approve the waiver of the maximum bond allocation amount for all projects, and Mr. Johnson seconded the motion.

The motion passed unanimously via roll call vote.

7. Agenda Item: Supplemental Bond Allocation Request Above the Executive Director's Authority (Cal. Code Regs., tit. 4, §5240) – (Action Item)
Presented by: D.C. Navarrette

Mr. Navarrette reported that two projects requested supplemental allocations, but one of the requests was withdrawn. The remaining request is from Southside Senior Housing (CA-24-569), which was originally allocated \$15,120,422 in Round 3 of 2021. The project is now requesting a supplemental allocation of \$2,291,000, which is within the 52% aggregate basis limit but is 15.15% of the Committee-approved allocation. This is a 50-unit special needs project located in Los Angeles. The applicant is the City of Los Angeles and the developer is John Stanley.

Chairperson Ma asked if this allocation would impact any other applications.

Mr. Navarrette said it would not impact any other applications since there is a lot of allocation left in the supplemental pool.

Chairperson Ma asked if staff supports the supplemental allocation request.

California Debt Limit Allocation Committee

Mr. Navarrette responded affirmatively.

Chairperson Ma called for public comments:

None.

MOTION: Mr. Johnson motioned to approve the supplemental allocation request for Southside Senior Housing, and Ms. Perrault seconded the motion.

The motion passed unanimously via roll call vote.

8. **Agenda Item: Request to Transfer Allocation to Another Applicant (Cal. Code Regs., tit. 4 §5120) – (Action Item)**

Presented by: Christina Vue

Ms. Vue reported that two projects are requesting a transfer of allocation to another applicant. The first project is U.S. VETS-WLAVA Building 210, which is a 38-unit, special needs, new construction project located in the City of Los Angeles. The applicant and original bond issuer, California Municipal Finance Authority (CMFA), received the award of allocation on December 6, 2023. CMFA and CalHFA are jointly requesting a transfer of allocation to CalHFA, thereby resulting in a transfer of the original bond allocation of \$14,219,583 and a supplemental bond allocation of \$4,936,246. CalHFA is here to explain the need to transfer the allocation.

Ms. Vue said the second project requesting a transfer of allocation is Avenue 34 Apartments, which is a 66-unit, large family, new construction project located in the City of Los Angeles. The applicant and original bond issuer, The California Statewide Communities Development Authority (CSCDA), received a supplemental bond allocation for the project on February 6, 2024. CSCDA and CalHFA are jointly requesting a transfer of the supplemental bond allocation of \$1.4 million. CalHFA and the developer are available to explain further and answer questions.

Chairperson Ma said that she previously voted against these transfers, so she would like to understand what has happened with these projects.

Ms. Ferguson said that in the case of U.S. VETS-WLAVA Building 210, CMFA has gone through the project with the assumption that the land was owned by the City of Los Angeles, but the land is actually owned by the federal government. Because it is federal land, CMFA, as a joint powers authority (JPA), cannot be the issuer and asked CalHFA to step in.

Chairperson Ma said that sounds like a jurisdiction issue and not a workload issue.

Mr. Ferguson confirmed that is correct; it is unrelated to Chairperson Ma's concerns at the previous meeting.

Ms. Perrault asked for clarification that this project also withdrew its second supplemental request under the last agenda item.

Ms. Vue confirmed that is correct.

Ms. Perrault asked if the transfer request, therefore, only applies to the original supplemental allocation.

Ms. Vue responded affirmatively.

California Debt Limit Allocation Committee

Ms. Ferguson explained that the second project requesting a transfer of allocation, Avenue 34 Apartments, originally received bond cap via carryforward in 2020. The project is getting close to completion and received additional bond cap recently. After CSCDA did the initial bond issuance, CalHFA issued recycled bonds and taxable bonds. CalHFA is currently taking those bonds out, and right now there are two different regulatory agreements from both CSCDA and CalHFA. The CalHFA regulatory agreement is not recorded with CDLAC because only recycled bonds were used, not new bonds. CalHFA is trying to achieve consistency by requesting a transfer of the CSCDA allocation to CalHFA. When the project is placed in service, which should be soon, CalHFA will ask CDLAC to combine the regulatory agreements so that only CalHFA is responsible for the regulatory and reporting requirements going forward, rather than having two separate issuers doing the same reporting. The circumstances for the two projects requesting a transfer of allocation are not similar.

Mr. Johnson asked if staff has any concerns about potential challenges or workload issues regarding these transfers.

Ms. Vue said the transfers would require a minimal amount of work for staff.

Chairperson Ma called for public comments:

None.

MOTION: Ms. Perrault motioned to approve the transfer of allocation for both projects, and Mr. Johnson seconded the motion.

The motion passed unanimously via roll call vote.

9. **Agenda Item: Request to Extend the Bond Allocation Issuance Deadline for Qualified Residential Rental Project and Request to Waive Forfeiture of the Performance Deposit (Cal. Code Regs., tit. 4 §§5052, 5100, 5132) – (Action Item)**
Presented by: D.C. Navarrette

Mr. Navarrette reported that there are 28 extension requests.

Chairperson Ma asked Ms. Wiant to comment on the number of extension requests.

Ms. Wiant said staff has had several conversations with the issuers on these projects in an attempt to discern whether any particular issue was impacting all the projects. While all the projects have slightly different circumstances, the schedule itself seems to have been a challenge. There have been a lot of closings happening at the same time, and there will probably be a similar outcome from this year's schedule. Also, a lot of the extension requests were submitted by projects that might have been able to make the deadline but were worried about a potential need for an extension. There is not an easy process to obtain an extension other than coming to the Committee, and since the Committee will not be meeting again until August, there were a lot of requests submitted. Staff has been talking internally and seeking input from stakeholders as well as the Committee about whether there should be more discretion given to the Executive Director to grant some of these extensions in the next regulations package so that the Committee does not have to consider extensions for projects that may only be requesting a week or two.

Ms. Perrault asked for confirmation that the Executive Director currently only has delegated authority to grant extensions up to five days.

California Debt Limit Allocation Committee

Ms. Wiant responded affirmatively.

Ms. Perrault asked how many of these extensions are being requested because projects are having to seek additional funding sources due to cost increases.

Ms. Wiant said that is a trend. Additionally, a lot of projects applied during the final round last year when they saw that the round was not going to be very competitive, but they actually needed more time.

Chairperson Ma called for public comments:
None.

MOTION: Ms. Perrault motioned to extend the bond allocation issuance deadline and waive forfeiture of the performance deposit for all projects, and Mr. Johnson seconded the motion.

The motion passed unanimously via roll call vote.

10. **Agenda Item: Request to Waive Forfeiture of the Performance Deposit and Negative Points for the Return of Allocation for Qualified Residential Rental Project (Cal. Code Regs., tit. 4, §§5052, 5230) – (Action Item)**
Presented by: D.C. Navarrette

Mr. Navarrette explained that The OTC by Vintage Project was originally allocated \$45,599,495 in Round 3 of 2023 and is now requesting to return the allocation and waive forfeiture of the performance deposit and negative points. The project is a 228-unit large family development in Chula Vista. The applicant is CMFA and the developer is Hearthstone Housing.

Chairperson Ma invited a representative to speak on behalf of the project.

Stephen Strain from Sabelhaus & Strain LLP said he represents the developers on this project. He explained that this project is being developed on a piece of land adjacent to the Olympic training center in Chula Vista. It is owned by the City of Chula Vista. One catalyst for this project was that many of the athletes that train at the training center have had to move away from Chula Vista in recent years due to the lack of affordable housing in the area. The idea behind this project was to give preference to the athletes and coaches so they could live close to where they train while also satisfying the fair housing and general public use rules by being open to the general public, subject to that preference. The site control documents discussed the preference, and the project applied and was awarded. Six weeks later, the city reached out to the project and stated that they had looked at the documents they had with the training center and its governing body, and they were found to be more restrictive than the city had originally thought. The city stated that the preference was not enough, and the development actually needed a restriction to only be occupied by athletes and coaches. That would present challenges with complying with the fair housing and general public use rules. Since then, the project has been working with bond counsel, investor counsel, and the city to find a path forward by either implementing a restriction that would comply with all the requirements or to locate an alternative site that would not be subject to the same restrictions.

Mr. Strain believes the project has found a couple of paths forward, but both of them would take a great deal of time. Even with the possibility of a 90-day extension, it would not be enough time. One path

California Debt Limit Allocation Committee

would involve the city adopting an ordinance specific to this project, which would take time. The other path would involve entitling a new site, which would also take time. Therefore, the project has elected to return its allocation and is requesting a waiver of the negative points and forfeiture of the performance deposit since these issues arose a month and a half after the allocation was awarded.

Mr. Johnson said that Committee's practice in the past has been to waive negative points but keep the performance deposit.

Ms. Perrault said this situation does not appear to have been within the control of the applicant, and it might be appropriate to waive both the negative points and forfeiture of the performance deposit since the situation is in the hands of the city, and the project is trying to move forward.

Chairperson Ma said there have also been circumstances out of the developers' control in the past.

Ms. Perrault said that is fair.

Chairperson Ma said this would set a new precedent.

Ms. Perrault said she does not want to do that.

Mr. Johnson said he is inclined to stick with precedent. There are often good causes, but it is important to keep pressure on projects to get to a certain distance in the process before applying for an allocation. He is not implying that this was not done in this situation, but it is still important to keep the precedent unless there is a significant extenuating circumstance.

Chairperson Ma expressed agreement because there are other projects waiting for an allocation.

Chairperson Ma called for public comments:

None.

MOTION: Mr. Johnson motioned to waive negative points but not to waive forfeiture of the performance deposit, and Ms. Perrault seconded the motion.

The motion passed unanimously via roll call vote.

11. Public Comment

Robert Lutz [? last name unclear] from Nor Cal Carpenters Union (NCCU) said his organization has submitted comment letters to CDLAC about the tiebreaker, specifically regarding how the scoring guidelines reward projects required to pay prevailing wages. It is important to incorporate the positive social and economic benefits of prevailing wages, apprenticeship training opportunities, and healthcare coverage into the tiebreaker formula. NCCU believes the tiebreaker should be amended. Currently, the only impact prevailing wage has on the CDLAC scoring guidelines is a 15% basis adjustment in the tiebreaker formula. At the very least, NCCU is asking the Committee to raise the basis adjustment to 20% for projects paying state prevailing wages, which would be in line with the cost adjustment in the CTCAC application. NCCU also recommends that the 15% basis adjustment be kept or even lowered for projects paying federal Davis-Bacon prevailing wages, which can be equal to or less than unregulated construction wages. The 20% basis adjustment may not move the needle for every type of project, but it would create continuity between the CDLAC and CTCAC regulations, as well as adding some additional benefit to prevailing wage projects. While any improvement is good, this framing ultimately ignores the fact that higher wages allow construction workers to live and spend more readily in their own communities, which

California Debt Limit Allocation Committee

has a ripple effect far beyond any one individual household. This is why NCCU's second recommended change is to incorporate the positive social and economic outcomes created by prevailing wages into the numerator of the tiebreaker formula, which calculates public benefit. The three categories of measurable public benefit created by prevailing wage projects are: monetary contributions to apprenticeship training programs, increased earnings associated with apprenticeship completion, and public cost savings from increased health insurance coverage. These three measures are clear public benefits that are easily quantifiable and should be included in the tiebreaker calculation in the same way rent savings and location benefits are included. NCCU urges CDLAC to incorporate these suggestions in the next round of regulation updates and is ready to work with staff on this issue.

Project Staff Report
Qualified Private Activity Tax-Exempt Bond Project
August 6, 2024**

Parnow Friendship House, located at 164 North San Pedro Road in San Rafael on a 2.42 acre site, requested and is being recommended for a reservation of \$2,037,584 in annual federal tax credits and \$24,470,000 of tax-exempt bond cap to finance the acquisition & rehabilitation of 72 units of housing, consisting of 71 restricted rental units, and 1 unrestricted manager's unit. The project has 71 one-bedroom units, and 1 two-bedroom unit, serving tenants with rents affordable to households earning 30%-60% of area median income (AMI). The renovations will include building exterior and interior upgrades. Interior renovations will include accessibility improvements to the bathrooms and kitchens to ensure all residents can enjoy them. The proposed renovation will also focus on sustainable and green building elements, including Energy Star Appliances, energy-efficient mechanical systems, low-flow fixtures, and a new Cool Roof. Lastly, there are no planned off-site improvements, complex or costly structural or site/topographical requirements, or other unique or abnormal features. The construction is expected to begin in October 2024 and be completed in May 2025. The project will be developed by SP Tax Credit Developer I LLC and is located in Senate District 2 and Assembly District 12.

The project is currently at-risk, but is being recommended for a reservation of tax credits that will preserve affordability for an additional 55 years. The project will be receiving rental assistance in the form of HUD Section 8 Project-based Vouchers.

Resyndication and Resyndication Transfer Event

Prior to closing, the applicant or its assignee shall obtain CTCAC's consent to assign and assume the existing Regulatory Agreement (CA-05-853). To be eligible for a new award of tax credits, the owner must provide documentation with the Form 8609 request (the placed in service submission) that the acquisition date and the placed in service date both occurred after the existing federal 15 year compliance period was completed. For resyndications that were originally rehabilitation and acquisition, the resyndication acquisition date cannot occur before the last rehabilitation credit year of the original credit period.

As required by the IRS, the newly resyndicated project will continue to use the originally assigned Building Identification Numbers (BINs).

The newly resyndicated project shall continue to meet the rents and income targeting levels in the existing regulatory agreement(s) and any deeper targeting levels in the new regulatory agreement(s) for the duration of the new regulatory agreement(s).

Existing households determined to be income-qualified for purposes of IRC §42 credit during the 15-year compliance period are concurrently income-qualified households for purposes of the extended use agreement. As a result, any household determined to be income qualified at the time of move-in under the existing regulatory agreement (CA-05-853) is a qualified low-income household for the subsequent allocation (existing household eligibility is "grandfathered").

The project is a resyndication where the existing regulatory agreement requires service amenities. The project shall provide a similar or greater level of services for a period of at least 15 years under the new regulatory agreement. The project is deemed to have met this requirement based on CTCAC staff's review of the commitment in the application. The services documented in the placed in service package will be reviewed by CTCAC staff for compliance with this requirement at the time of the placed in service submission.

The project is a re-syndication occurring concurrently with a Transfer Event with distribution of Net Project Equity, which is otherwise required to set aside a Short Term Work Capitalized Replacement Reserve in the amount of \$775,000. In lieu of a Short Term Work Capitalized Reserve, the applicant is allowed to use the Short Term Work Reserve Amount to fund rehabilitation expenses. The Short Term Work Reserve Amount of \$777,442 is excluded from eligible basis.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee’s next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

CTCAC Significant Information / Additional Conditions

The applicant has requested and been granted a waiver under TCAC Regulation Section 10325(f)(7)(K) to reduce the 10% mobility feature requirement down to 5%, to provide fully compliant units with mobility features, to provide accessible parking, and to provide an accessible common use laundry room.

Resyndication and Resyndication Transfer Event

Prior to closing, the applicant or its assignee shall obtain CTCAC's consent to assign and assume the existing Regulatory Agreement (CA-04-860). To be eligible for a new award of tax credits, the owner must provide documentation with the Form 8609 request (the placed in service submission) that the acquisition date and the placed in service date both occurred after the existing federal 15 year compliance period was completed. For resyndications that were originally rehabilitation and acquisition, the resyndication acquisition date cannot occur before the last rehabilitation credit year of the original credit period.

As required by the IRS, the newly resyndicated project will continue to use the originally assigned Building Identification Numbers (BINs).

The newly resyndicated project shall continue to meet the rents and income targeting levels in the existing regulatory agreement and any deeper targeting levels in the new regulatory agreement for the duration of the new regulatory agreement.

- Existing households determined to be income-qualified for purposes of IRC §42 credit during the 15-year compliance period are concurrently income-qualified households for purposes of the extended use agreement. As a result, any household determined to be income qualified at the time of move-in under the existing regulatory agreement (CA-04-860) is a qualified low-income household for the subsequent allocation (existing household eligibility is “grandfathered”).

The project is a re-syndication occurring concurrently with a Transfer Event with distribution of Net Project Equity, which is otherwise required to set aside a Short Term Work Capitalized Replacement Reserve in the amount of \$1,233,125. In lieu of a Short Term Work Capitalized Reserve, the seller of the project will give a credit in the amount of \$800,000, allowing the applicant to use Short Term Work Reserve Amount to fund rehabilitation expenses and to receive eligible basis. The Short Term Work Reserve Amount of \$433,125 is excluded from eligible basis.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC’s Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

Resyndication and Resyndication Transfer Event

Prior to closing, the applicant or its assignee shall obtain CTCAC's consent to assign and assume the existing Regulatory Agreement (CA-04-112). To be eligible for a new award of tax credits, the owner must provide documentation with the Form 8609 request (the placed in service submission) that the acquisition date and the placed in service date both occurred after the existing federal 15 year compliance period was completed. For resyndications that were originally rehabilitation and acquisition, the resyndication acquisition date cannot occur before the last rehabilitation credit year of the original credit period.

As required by the IRS, the newly resyndicated project will continue to use the originally assigned Building Identification Numbers (BINs).

The newly resyndicated project shall continue to meet the rents and income targeting levels in the existing regulatory agreement(s) and any deeper targeting levels in the new regulatory agreement(s) for the duration of the new regulatory agreement(s).

Existing households determined to be income-qualified for purposes of IRC §42 credit during the 15-year compliance period are concurrently income-qualified households for purposes of the extended use agreement. As a result, any household determined to be income qualified at the time of move-in under the existing regulatory agreement (CA-04-112) is a qualified low-income household for the subsequent allocation (existing household eligibility is “grandfathered”).

The project is a resyndication where the existing regulatory agreement requires service amenities. The project shall provide a similar or greater level of services for a period of at least 15 years under the new regulatory agreement. The project is deemed to have met this requirement based on CTCAC staff's review of the commitment in the application. The services documented in the placed in service package will be reviewed by CTCAC staff for compliance with this requirement at the time of the placed in service submission.

The project is a re-syndication occurring concurrently with a Transfer Event without distribution of Net Project Equity, and thus is waived from setting aside a Short Term Work Capitalized Replacement Reserve that is otherwise required.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CTCAC Significant Information / Additional Conditions

There is commercial space that is included as part of the structures cost and taken into eligible basis. Pursuant to the Eligible Basis Certification provided by a third-party tax attorney, this space is a community service facility that meets the requirements of IRC § 42(d)(4)(C) and the cost is includible in eligible basis. The community space will be a child care center.

This project is Phase 2 of Midway Village Phase 1 (CA-20-668). The parking for Phases 1 and 2 is provided in a design-build, four-level, gated parking garage constructed in Phase 1. The structure contains 371 parking spaces, 185 of which are allocated to Phase 2. The cost of the garage is split between the two phases – Phase 1 does not include in its depreciable basis the Phase 2 share of costs – and there is an easement and insurance agreement between the two phases that includes these details. Other shared components will be a two-classroom after-school program space constructed in Phase 1, and an attached outdoor accessible play area for children aged 2 to 17, also constructed in Phase 1. Resident courtyards and community rooms in both Phase 1 and Phase 2 will also be shared. There will be a joint use agreement in place before the placed-in-service application.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee’s next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee’s next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).

CTCAC Significant Information / Additional Conditions

This Project's annual per unit operating expense total is below the CTCAC published per unit operating minimums of \$6,090. As allowed by CTCAC Regulation Section 10327(g)(1), CTCAC approves an annual per unit operating expense total of \$5,594 on agreement of the permanent lender and equity investor.

The applicant anticipates that the water service will be sub-metered and that the tenants will be billed separately for their water usage by a 3rd party company. Accordingly, the units' utility allowances include a component for water. The applicant is aware that sub-metering the water service and direct billing of the tenants by a 3rd party company must follow certain IRS rules in order to be in compliance. In conjunction with the IRS rules, prior to the issuance of the IRS 8609 forms, CTCAC will need to confirm that the water service and tenant billing have been implemented correctly. In addition, the CTCAC Compliance Section will require specific information regarding the master water bill and each tenant's water usage and water bill when they inspect the project.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee’s next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

CTCAC Significant Information / Additional Conditions

This project involves the substantial rehabilitation of 22 buildings across five scattered-sites. This acquisition/rehabilitation project has a pre-existing Section 8 Project-based Contract in effect for all sites.

At placed-in-service, any units not occupied by income-qualified tenants will be not considered tax credit units and the applicable fraction will be adjusted accordingly. However, these units will be rent-restricted at 60% of area median income (AMI) in the recorded CTCAC regulatory agreement in order to meet the scattered-site requirement of Section 42(g)(7) of the Internal Revenue Code. The recorded CTCAC regulatory agreement will also require that upon turnover the unit(s) must be occupied by income-qualified tenants.

Per CTCAC Regulation Section 10325(f)(7)(J), in lieu of 5 managers' units, the project has committed to employ an equivalent number of on-site full-time property management staff and provide an equivalent number of desk or security staff capable of responding to emergencies for the hours when property management staff is not working. All staff or contractors performing desk or security work shall be knowledgeable of how the property's fire system operates and be trained in, and have participated in, fire evacuation drills for tenants. CTCAC reserves the right to require that one or more on-site managers' units be provided and occupied by property management staff if, in its sole discretion, it determines as part of any on-site inspection that the project has not been adequately operated and/or maintained.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

CTCAC Significant Information / Additional Conditions

Staff noted per unit development cost of \$860,899. The applicant stated that the per unit cost is attributed to high land cost, extensive site work due to steep sloping, prevailing wages, premium design elements, and funding delays resulting in higher costs. In addition, the applicant noted the project was deemed eligible for the National Register of Historic Places as a Historic District, which requires additional staffing during excavation and a 2 year impact study, resulting in additional costs.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).

Resyndication and Resyndication Transfer Event

Prior to closing, the applicant or its assignee shall obtain CTCAC's consent to assign and assume the existing Regulatory Agreement (CA-98-811). To be eligible for a new award of tax credits, the owner must provide documentation with the Form 8609 request (the placed in service submission) that the acquisition date and the placed in service date both occurred after the existing federal 15 year compliance period was completed. For resyndications that were originally rehabilitation and acquisition, the resyndication acquisition date cannot occur before the last rehabilitation credit year of the original credit period.

As required by the IRS, the newly resyndicated project will continue to use the originally assigned Building Identification Numbers (BINs).

The newly resyndicated project shall continue to meet the rents and income targeting levels in the existing regulatory agreement(s) and any deeper targeting levels in the new regulatory agreement(s) for the duration of the new regulatory agreement(s). Existing households determined to be income-qualified for purposes of IRC §42 credit during the 15-year compliance period are concurrently income-qualified households for purposes of the extended use agreement. As a result, any household determined to be income qualified at the time of move-in under the existing regulatory agreement (CA-98-811) is a qualified low-income household for the subsequent allocation (existing household eligibility is “grandfathered”).

The project is a resyndication where the existing regulatory agreement requires service amenities. The project shall provide a similar or greater level of services for a period of at least 15 years under the new regulatory agreement. The project is deemed to have met this requirement based on CTCAC staff's review of the commitment in the application. The services documented in the placed in service package will be reviewed by CTCAC staff for compliance with this requirement at the time of the placed in service submission.

The project is a re-syndication occurring concurrently with a Transfer Event with distribution of Net Project Equity, which is otherwise required to set aside a Short Term Work Capitalized Reserve in the amount of \$365,390. In lieu of a Short Term Work Capitalized Reserve, there is a credit from the seller of the project in the amount of \$365,390, allowing the applicant to use Short Term Work Reserve Amount to fund rehabilitation expenses and to receive eligible basis for that amount.

Standard Conditions

If applicant is receiving tax-exempt bond financing from other than CalHFA, the applicant shall apply for a bond allocation from the California Debt Limit Allocation Committee's next scheduled meeting, if not previously granted an allocation; shall have received an allocation from CDLAC; and, shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 50% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC Resolution. At the time of the CTCAC placed in service review, CTCAC staff will verify that the project is in compliance with all applicable items of CDLAC Resolution Exhibit A.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

Staff noted a per unit development cost of \$788,396. The applicant noted that the per unit cost is attributed to the lack of economies of scale, the requirement for the payment of federal prevailing wages, and the size and location of the project, which limited the subcontractor pool.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

Description of Proposed Project:

The Recology Inc. Project includes making site improvements and acquiring processing equipment at the Recology Sonoma Marin Materials Recovery Facility (MRF). The project will also acquire vehicles, containers, and maintenance equipment used to provide solid waste collection, transfers and related services to support the operations of Recology Vacaville Solano, Recology Vallejo, Recology Sonoma Marin, and Recology San Mateo County.

Environmental Impact:1) Air Quality:

The acquisition of vehicles allows older vehicles to be replaced with newer vehicles with better emission controls or using alternative fuels. Site improvements and acquisition of processing equipment at the Recology Sonoma Marin Materials Recovery Facility (MRF) expands the capacity of the facility, reducing air impacts by reducing the need to transport excess recyclables to distant facilities.

2) Water Quality:

The acquisition of containers facilitates the proper containerization of waste and its delivery to appropriate facilities, avoiding spillage that could impact local water systems. Acquisition of maintenance equipment helps avoid hydraulic or other spills that could impact local water systems.

3) Recycling of Commodities:

Site improvements and acquisition of processing equipment at the Recology Sonoma Marin Materials Recovery Facility (MRF) result in more commodities being recycled.

4) Safety and Compliance:

The acquisition of solid waste collection, transfer and other vehicles supports the collection of solid waste and its delivery to appropriate disposal, recycling and composting facilities, safely and in compliance with applicable laws, and in support of state mandates. Acquisition of containers helps local jurisdictions comply with state mandates under SB 1383 regarding container colors and labels. Acquisition of maintenance equipment helps support safe operation of vehicles used for solid waste collection and transfer.

Local Government Support:

The Applicant provided a letter of support from the government entity where their company is currently located.

Legal Questionnaire:

No information was disclosed that raised any question regarding the financial viability or legal integrity of the Project Sponsor.

Recommendation:

Staff recommends approval of \$61,000,000 in tax exempt bond allocation.

RE: Final Proposed Regulation Changes and Response to Comments

On June 28, 2024, the California Debt Limit Allocation Committee (“CDLAC”) released proposed regulation changes for a regular rulemaking for the California Debt Limit Allocation Committee Program and opened the 21-day public comment period.

CDLAC staff subsequently held an in-person and virtual public hearing in Sacramento on July 18, 2024.

CDLAC accepted written comments on the initial proposed regulation changes through Friday, July 19, 2024. Numerous individuals, organizations, and groups formally commented on the proposed regulation changes in both oral and written form. CDLAC staff reviewed all comments received and finalized the recommendations for consideration and adoption to be presented to the Committee on Tuesday, August 6, 2024.

This memo includes the final proposed regulation changes, the initial statement of reasons, a brief summary of the comments received, staff’s responses to comments, including explanations to any proposed revisions to the initially proposed changes, and the final proposed changes. CDLAC staff also received comments on regulation changes outside the scope of this regular rulemaking and will consider those comments for a future possible regulation change package. Those additional comments outside the scope of this regular rulemaking are not included in the document.

Comments received: Staff received no comments on this section. The changes remain as proposed.

2. Section 5020. Determination of State Ceiling Pools.

The proposed changes fix technical errors by removing references to being applicable to 2021 projects only, replacing “or” with “and”, as was originally intended, and removing the reference to a section which was previously removed from CDLAC regulations.

The changes also fix an incorrect section numbering, fixes a typo from CTAC to CTCAC, and changed Set-Aside to Set Aside for consistency within the regulations.

Initial proposed changes:

As soon as practicable after the beginning of each calendar year, and before any Applications are considered, the Committee shall:

(a) [...]

(1) [...]

~~(4)~~(A) Subsequent to the determination made pursuant to paragraph (1) of this subdivision, determine and announce whether a portion of the New Construction Pool, expressed as a dollar amount and as a percentage of the Qualified Residential Rental Project Pool shall be reserved in a Homeless ~~Set-Aside~~ Set Aside to be available for allocation to New Construction Projects in which at least 25% of the tax credit units are designated for homeless households as defined in Section 10315(b)(1)-(4) of the CTCAC regulations at affordable rents consistent with Section 10325(g)(3) of the CTCAC regulations, and determine what amount, if any, shall be available in each Allocation Round.

(B) Subsequent to the determination made pursuant to paragraph (1) of this subdivision, determine and announce whether a portion of the New Construction Pool, expressed as a dollar amount and as a percentage of the Qualified Residential Rental Project Pool shall be reserved in an Extremely Low/Very Low Income Set Aside to be available for allocation to New Construction Projects that ~~have for Allocation Rounds in 2021,~~ an average AMI of 50% or below ~~or~~ and have received either of the following, and determine what amount, if any, shall be available in each Allocation Round:

(i) [...]

(ii) [...]

(aa) If the project receives points as a Large Family project pursuant to Section 5230(g) and is located in a High Segregation and Poverty Area as specified on CTCAC/HCD Opportunity Area Map, the project shall have income restrictions with a range of at least 30% AMI between the highest and lowest 10% of income-restricted units ~~that meet the requirements of Section 5230(j)(1)(C).~~

[...]

Comments received: Staff received one comment stating the option for “average AMI of 50% or below or have received either of the following...” should stay the same. There may be projects that have an average AMI of 50% or below and don’t need specific HCD funding sources.

Staff also received one comment requested to update the use of Set-Aside/Set Aside to be consistent throughout the regulations.

Response to comments: Staff clarified the intent of the regulation with the commenter noting there are other leveraged soft resource options besides HCD and the commenter agreed this was acceptable. Staff updated the language to Set Aside.

Final proposed changes:

As soon as practicable after the beginning of each calendar year, and before any Applications are considered, the Committee shall:

(a) [...]

(1) [...]

~~(4)~~(A) Subsequent to the determination made pursuant to paragraph (1) of this subdivision, determine and announce whether a portion of the New Construction Pool, expressed as a dollar amount and as a percentage of the Qualified Residential Rental Project Pool shall be reserved in a Homeless ~~Set-Aside~~ Set Aside to be available for allocation to New Construction Projects in which at least 25% of the tax credit units are designated for homeless households as defined in Section 10315(b)(1)-(4) of the CTCAC regulations at affordable rents consistent with Section 10325(g)(3) of the CTCAC regulations, and determine what amount, if any, shall be available in each Allocation Round.

(B) Subsequent to the determination made pursuant to paragraph (1) of this subdivision, determine and announce whether a portion of the New Construction Pool, expressed as a dollar amount and as a percentage of the Qualified Residential Rental Project Pool shall be reserved in an Extremely Low/Very Low Income Set Aside to be available for allocation to New Construction Projects that ~~have for Allocation Rounds in 2021,~~ an average AMI of 50% or below ~~or~~ and

have received either of the following, and determine what amount, if any, shall be available in each Allocation Round:

(i) [...]

(ii) [...]

(aa) If the project receives points as a Large Family project pursuant to Section 5230(g) and is located in a High Segregation and Poverty Area as specified on CTCAC/HCD Opportunity Area Map, the project shall have income restrictions with a range of at least 30% AMI between the highest and lowest 10% of income-restricted units ~~that meet the requirements of Section 5230(j)(1)(C).~~

[...]

(C) Subsequent to the determination made pursuant to paragraph (1) of this subdivision, determine and announce whether a portion of the New Construction Pool, expressed as a dollar amount and as a percentage of the Qualified Residential Rental Project Pool shall be reserved in a Mixed Income ~~Set Aside~~ Set Aside to be available for allocation to New Construction Projects that are Mixed Income Projects, and determine what amount, if any, shall be available in each Allocation Round.

3. Section 5035. Preliminary Recommendations

The proposed change fixes a grammatical error staff noticed in the update process.

Initial proposed changes:

(a) At least twenty-five (25) calendar days prior to any meeting at which the Committee ~~will~~ is to award Allocations, the Executive Director shall publish a preliminary list of Applicants for which the Executive Director expects to recommend an Allocation (and the amount of those Allocations). During competitive rounds, the following procedures shall be followed for the Qualified Residential Rental Program:

[...]

Comments received: Staff received one comment to update the use of Set-Aside/Set Aside and tiebreaker/tie-breaker/tie breaker to be consistent throughout the regulations.

Response to comments: Staff updated the language to Set Aside and tiebreaker.

Final proposed changes:

(a) At least twenty-five (25) calendar days prior to any meeting at which the Committee ~~will~~ is to award Allocations, the Executive Director shall publish a preliminary list of Applicants for which the Executive Director expects to recommend an Allocation (and the amount of those Allocations). During competitive rounds, the following procedures shall be followed for the Qualified Residential Rental Program:

(1) Within ten (10) calendar days after the application due date, a list of applicants, project names, project locations, selected pools and ~~set-asides~~ set asides, geographic regions, and requested Allocations and all reported self-scoring totals and ~~tie-breaker~~ tiebreaker scores shall be published on the Committee's website as provided in section 5140.

[...]

4. Section 5054. Filing Fees.

The proposed change clarifies the fee due when applying for allocation is separate from the DDA application fee.

Initial proposed changes:

Each Applicant shall submit a filing fee in an amount equal to the product of the amount of Allocation actually used to issue Bonds, or Mortgage Credit Certificates multiplied by .00035. The payment of the fee shall be in two installments as follows:

[...]

(c) Initial filing fee for Difficult Development Area/Qualified Census Tract (DDA/QCT) designation retention in the amount of \$1,200 shall accompany the filing of an Application to cover the Committee's reasonable costs associated with reviewing Applications. This portion of the filing fee shall not be refundable under any circumstances and is separate from the initial filing fee required when requesting an allocation.

Comments received: Staff received no comments on this section. The changes remain as proposed.

5. Section 5062. Private Placement Sales.

The proposed changes add information to clarify the requirements of Private Placement Sale documentation.

Initial proposed changes:

(a) Subject to subsection (b) below, applications for Bonds to be issued and sold through a private placement will be deemed to have provided satisfactory evidence of a Bond sale plan required in section 5060 if documentation from the Bond purchaser(s) includes the following:

(1) Project Sponsor (borrower).

(2) Project name and location.

(3) Bond purchase amount.

(4) Salient terms and conditions, including but not limited to the fee structure, term, rate, security, collateral, guarantee, expiration date of the commitment, and recourse of the commitment including the interest rate of the agreement.

(5) Evidence that the lender is committed to move forward with the transaction if the terms and conditions in the commitment letter are met.

(6) The commitment is fully executed by the bond purchaser and project sponsor.

Comments received: Staff received one comment stating updates are not needed. The commenter stated the letters function as placeholders for applications. Lenders and investors don't fully commit to a project until after a CDLAC award is made due to the delay between an application submission and CDLAC award and the delay between application submission and bond issuance/construction loan closing.

Response to comments: The intent of this change is to ensure the commitment is as firm as possible. CDLAC already requires the letters be fully executed and can be contingent on a bond allocation. The changes remain as proposed.

6. Section 5100. Program Expiration Dates.

The proposed changes remove the reference to Section 5103 as this section is being proposed to be repealed with these updates and makes a third expiration date standard for all allocation rounds.

Additionally, the proposed changes set three weeks between deadlines and align deadlines for hybrid projects to simplify the process. This change was made to clarify that if a 9% phase of a hybrid has a Readiness Closing deadline from TCAC that is later than the 4% phase's bond allocation expiration date imposed by CDLAC, the later 9% deadline will apply to both phases of the hybrid project.

Initial proposed changes:

(b) Notwithstanding extensions as provided in sections 5101 ~~or 5103~~; the limitations prescribed by section 5104; or Allocations awarded on a carry-forward basis as provided in section 5131; the expiration dates for issuing Bonds or converting Bonds to Mortgage Credit Certificate authority shall be:

[...]

(3) For Qualified Residential Rental Project Bonds, the following expiration dates shall be assigned by the Executive Director within five (5) business days following each Allocation Round:

(i) Projects receiving an allocation shall be assigned an expiration date of one-hundred eighty (180) days, or ~~one-hundred ninety-four~~ two-hundred one (201~~194~~) days, or two-hundred twenty-two (222) days. If the Committee allocates more than 50% of the year's QRRP Allocation in any one round, there shall be a third expiration date of two-hundred eight (208) days, and the Executive Director shall assign approximately one-third of the projects in that round to each expiration date whenever possible. In the case of hybrid projects, the expiration date shall be the later of the deadline assigned by CDLAC or CTCAC.

Comments received:

Staff received one comment requesting clarification in the statement of reasons to state this change was made to clarify that if a 9% phase of a hybrid has a Readiness Closing deadline from CTCAC that is later than the 4% phase's bond allocation expiration date imposed by CDLAC, the later 9% deadline will apply to both phases of the hybrid project.

Staff also received one comment requesting the regulations include hybrid and simultaneous applications.

There was also one comment stating there should be no change to the expiration dates as the current expiration dates of 180 and 194 should be sufficient to allow borrowers and lenders to close projects timely.

Response to comments:

Staff determined including simultaneous applications will be considered for a future change after discussion with CTCAC staff. Additionally, staff clarified the expiration dates are chosen at random not creating any advantages for specific developments with

longer expiration dates and the commenter agreed this was acceptable. The changes remain as proposed.

7. Section 5101. Extensions to Expiration Dates.

The proposed changes update the existing extension request process during open applications to all application rounds to address an increase in requested extensions beyond the existing five-day hardship. Staff believes this will allow for quicker response to extension requests on a flow basis rather than waiting for Committee meetings for approval.

~~For allocations during an Open Application Process, The Executive Director may grant an extensions of up to ninety (90) days for all allocations. Any additional extensions must be granted by the Committee. Extension requests must demonstrate that the circumstances were entirely outside the control of the owner.~~

Comments received: Staff received one comment in support of the change. The changes remain as proposed.

8. Section 5103. Five Day Hardship Extensions. [Repealed]

The proposed change to Section 5101 makes Section 5013 unnecessary and is thus being proposed to be repealed.

Initial proposed changes:

~~The Committee may grant an extension to the expiration dates provided in sections 5100 and 5101 up to five (5) additional business days for extreme hardship cases. The Committee may delegate this authority to the Executive Director.~~

Comments received: Staff received no comments on this section. The changes remain as proposed.

9. Section 5144. Annual Applicant Public Benefits and On-Going Compliance Self-Certification.

The proposed change updates TCAC references to CTCAC.

Initial proposed changes:

(d) For all QRRP projects receiving allocation after December 31, 2016, compliance with the income and rental requirements of the Federally Bond-

Restricted Units identified in the Committee Resolution and the Bond Regulatory Agreement must be demonstrated by the Applicants initial review of 20% of all management files associated with the Federally Bond-Restricted units and subsequent review every three years of 20% of all management files associated with the Federally Bond-Restricted units. Federally Bond-Restricted units will include a distribution of unit locations, sizes and income levels (if applicable) and must be identified in the PSR. For this 20% of files, Applicants must review each initial or subsequent occupant/s and their associated TIC in conjunction with the supporting income verification documentation of each occupant's initial occupancy and make a determination if the project is complying with the income and affordability standards. Additionally, Applicants must ensure a lease is in place and executed. This review may be performed on-site or may be performed through an electronic file audit. Completion of this task in addition to a valid Certification of Compliance II or equivalent form will provide Issuers with the ability to report annually to CDLAC regarding compliance with the Federally Bond-Restricted unit restrictions. Information pertaining to the income verification process will be kept on file for 10 years. Applicants must retain documentation memorializing review and determination of income eligibility for 10 years. Source income documentation must be retained for 1 year. These guidelines rely on the compliance monitoring process and procedures in place for CTCAC. To the extent CTCAC is to alter their compliance policies and procedures, these guidelines shall be reviewed by CDLAC for consistency and changes made where appropriate.

(e) For all QRRP projects receiving allocation after December 31, 2016, Sponsors requesting an allocation of bonds absent the receipt of a CTCAC reservation will be identified at the time of application and will have the following compliance options which will be represented in the Committee Resolution:

(1) [...]

(2) [...]

(3) A Sponsor can enter into contract with CDLAC or a designee to monitor the Federally Bond-Restricted units for consistency with the bond regulatory agreement and the Committee Resolution. The charge for this service will be equivalent to the compliance fee charged by CTCAC at the time the project submits their application to CDLAC.

Comments received: Staff received no comments on this section. The changes remain as proposed.

10. Section 5170. Definitions.

The proposed changes clarify the definition of BIPOC Entity and Project and require all BIPOC projects to allocate at least 51% of developer fee, cash flow, and sale proceeds to the BIPOC Entity and gives the BIPOC Entity an option to purchase the property, to allow more emerging BIPOC Entities to have access to the pool. Additionally, the proposed changes update references to CTCAC regulations and strike the definition of “Supplemental Allocation Request Letter” as this was superseded by the Supplemental Allocation process in Section 5240.

Initial proposed changes:

In addition to the definitions set forth in Government Code section 8869.82 and unless otherwise required by the context, the following terms as used in this chapter are defined as follows:

[...]

“BIPOC Entity” means an entity that is at least 51% owned, managed, and controlled by one or more Black, Indigenous, or Other People of Color or by a non-profit organization with a Black, Indigenous, or Other Person of Color executive director/Chief Executive Officer (CEO) and board membership that is comprised of at least 51% Black, Indigenous, and Other People of Color. For purposes of this paragraph, Black, Indigenous, or Other People of Color means “a person who checked the Black or African American, American Indian and Alaska Native, Asian, or Native Hawaiian and Other Pacific Islanders race category or who answered yes to the Hispanic Origin question on the 2020 United States Census.

“BIPOC Project” means a Qualified Residential Rental Project for which the sponsor is a BIPOC Entity. A BIPOC Project may be a New Construction Project, Rural Project, Preservation Project, or Other Rehabilitation Project. The partnership agreement of a BIPOC Project must allocate at least 51% of the developer fee, cash flow, and net sale proceeds to the BIPOC Entity and provide the BIPOC Entity an option to purchase the development. A BIPOC Project does not include a project for which any principal, partner, affiliate, or member of the sponsor entity is eligible to receive maximum General Partner Experience points pursuant to Section 10325(c)(1)(A) of the CTCAC regulations unless those points are awarded to a principal of the BIPOC Entity who no longer is employed by the developer of, or has an ownership interest in, the project(s) which form the basis of the experience points.

[...]

“CTCAC/HCD Opportunity Area Map” shall have the same meaning as in Section 10302(~~zzccc~~) of the CTCAC regulations. An applicant may choose to utilize the census tract or census block group resource designation, as applicable, from the

CTCAC/HCD Opportunity Maps in effect when the initial site control was obtained up to seven calendar years prior to the application. Projects located in map areas designated as “Missing/Insufficient Data” or similar designation shall be considered to be in the resource area that most frequently surrounds the perimeter of the Project’s map area.

[...]

“Other Rehabilitation Project” means a QRRP Project applying for an allocation of tax-exempt private activity bonds from the General Pool that is not eligible for treatment as a New Construction Project or a Preservation Project. In a Competitive Application Process, an Other Rehabilitation Project shall meet all of the following criteria:

1. Shall complete at least \$60,000 in hard construction costs per tax credit unit, as defined in CTCAC Regulation Section 4032010302(x); and
2. At least 60% of hard construction costs shall be expended only on immediate health and safety improvements, seismic and accessibility improvements, and/or the replacement of major systems with a remaining useful life of less than ten years, as evidenced by a CTCAC Capital Needs Assessment.

[...]

~~“Supplemental Allocation Request Letter” means the written request from the Applicant for Supplemental Allocation for Projects having been awarded Allocation within the last thirty six (36) months that may be submitted in lieu of a complete Application. The letter must be signed by the Applicant and include information about the Project including the date and amount of prior Allocation, the current status of the Project, revised sources and uses of funds, justification for the request for additional Allocation, and any additional information the Committee or Executive Director deems necessary.~~

Comments received: Staff received one comment stating the General Partner Experience points must come from a Black, Indigenous, and Other Person of Color or a non-profit organization with a Black, Indigenous, or Other Person of Color executive director/Chief Executive Officer (CEO) and board membership that is comprised of at least 51% Black, Indigenous, and Other People of Color.

There was one comment stating the BIPOC entity option to purchase may come after project purchase options or option to purchase the LP for another member of the development team.

Staff also received one comment requesting the regulations define the sponsor of a BIPOC project.

There was also one comment requesting to add parent company to the BIPOC Project definition.

Additionally, there were five comments suggesting CDLAC create a pre-certification process for applicants in the BIPOC Pool.

Response to comments: Staff added parent company to the BIPOC Project definition. The suggestion for defining the project sponsor would be a larger change defining a sponsor for all project types and considered for a future change. The option to purchase was suggested by several stakeholders in the initial change process and will remain with this update. The comments for General Partners experience points and pre-certifying BIPOC Pool applicants will require further discussion with stakeholders and considered for a future change.

Final proposed changes:

In addition to the definitions set forth in Government Code section 8869.82 and unless otherwise required by the context, the following terms as used in this chapter are defined as follows:

[...]

“BIPOC Entity” means an entity that is at least 51% owned, managed, and controlled by one or more Black, Indigenous, or Other People of Color or by a non-profit organization with a Black, Indigenous, or Other Person of Color executive director/Chief Executive Officer (CEO) and board membership that is comprised of at least 51% Black, Indigenous, and Other People of Color. For purposes of this paragraph, Black, Indigenous, or Other People of Color means “a person who checked the Black or African American, American Indian and Alaska Native, Asian, or Native Hawaiian and Other Pacific Islanders race category or who answered yes to the Hispanic Origin question on the 2020 United States Census.

“BIPOC Project” means a Qualified Residential Rental Project for which the sponsor is a BIPOC Entity. A BIPOC Project may be a New Construction Project, Rural Project, Preservation Project, or Other Rehabilitation Project. The partnership agreement of a BIPOC Project must allocate at least 51% of the developer fee, cash flow, and net sale proceeds to the BIPOC Entity and provide the BIPOC Entity an option to purchase the development. A BIPOC Project does not include a project for which any principal, partner, affiliate, parent organization, or member of the sponsor entity is eligible to receive maximum General Partner

Experience points pursuant to Section 10325(c)(1)(A) of the CTCAC regulations unless those points are awarded to a principal of the BIPOC Entity who no longer is employed by the developer of, or has an ownership interest in, the project(s) which form the basis of the experience points.

[...]

“CTCAC/HCD Opportunity Area Map” shall have the same meaning as in Section 10302(zzccc) of the CTCAC regulations. An applicant may choose to utilize the census tract or census block group resource designation, as applicable, from the CTCAC/HCD Opportunity Maps in effect when the initial site control was obtained up to seven calendar years prior to the application. Projects located in map areas designated as “Missing/Insufficient Data” or similar designation shall be considered to be in the resource area that most frequently surrounds the perimeter of the Project’s map area.

[...]

“Other Rehabilitation Project” means a QRRP Project applying for an allocation of tax-exempt private activity bonds from the General Pool that is not eligible for treatment as a New Construction Project or a Preservation Project. In a Competitive Application Process, an Other Rehabilitation Project shall meet all of the following criteria:

1. Shall complete at least \$60,000 in hard construction costs per tax credit unit, as defined in CTCAC Regulation Section 4032010302(x); and
2. At least 60% of hard construction costs shall be expended only on immediate health and safety improvements, seismic and accessibility improvements, and/or the replacement of major systems with a remaining useful life of less than ten years, as evidenced by a CTCAC Capital Needs Assessment.

[...]

~~“Supplemental Allocation Request Letter” means the written request from the Applicant for Supplemental Allocation for Projects having been awarded Allocation within the last thirty six (36) months that may be submitted in lieu of a complete Application. The letter must be signed by the Applicant and include information about the Project including the date and amount of prior Allocation, the current status of the Project, revised sources and uses of funds, justification for the request for additional Allocation, and any additional information the Committee or Executive Director deems necessary.~~

11. Section 5190. Readiness.

The proposed change requires site control through the application deadline rather than allocation, to be consistent with CTCAC requirements.

Initial proposed changes:

In its Application, the Project Sponsor shall demonstrate its readiness to use the Allocation as set forth in this section.

(a) [...]

(1) [...]

(D) A valid, current, and enforceable contingent purchase and sale agreement or option agreement between the Project Sponsor and the owner of the subject property, ~~including evidence that all extensions necessary to keep the agreement current through the date of the award of Allocation have been executed.~~
Evidence must be provided at the time of the application that all extensions and other conditions necessary to keep the agreement current through the application filing deadline have been executed.

[...]

Comments received: Staff received no comments on this section. The changes remain as proposed.

12. Section 5193. Debt Service Coverage Ratio.

The proposed change aligns debt coverage ratio requirements with CTCAC requirements.

Initial proposed changes:

(a) For Qualified Residential Rental Projects, ~~a the~~ minimum debt service coverage ratio (the ratio of the net operating income from the Project divided by the required debt service on the debt associated with the Project) ~~shall be no less than 1.15 in at least one of the project's first three years~~ meet the requirements outlined in Section 10327(g)(6) of CTCAC Regulations, except for FHA/HUD projects, RHS projects or projects financed by the California Housing Finance Agency.

Comments received: Staff received no comments on this section. The changes remain as proposed.

13. Section 5205. Minimum Requirements.

The proposed change updates a previous drafting error that omitted one construction standard from CTCAC regulations.

Initial proposed changes:

(a) Applicants shall provide a certification that the minimum specifications pursuant to Section 10325(f)(7)(A) thru ~~(J)~~ (K) of the CTCAC Regulations will be incorporated into the project design for all new construction and rehabilitation projects.

Comments received: Staff received fifteen comments stating this was not an error and was intentionally excluded from the requirements.

Response to comments: Staff revised the update to reference CTCAC regulations section 10326(g)(6) as this is a current requirement for CDLAC projects applying for 4% tax credits.

Final proposed changes:

(a) Applicants shall provide a certification that the minimum specifications pursuant to Section ~~10325(f)(7)(A) thru (K)~~ 10326(g)(6) of the CTCAC Regulations will be incorporated into the project design for all new construction and rehabilitation projects.

14. Section 5230. Evaluation Criteria.

The proposed changes modify the eligibility criteria for receiving 7 experience points by (1), for joint venture projects that include a BIPOC Entity, increasing the allocation of developer fee, cash flow, and sale proceeds from 50 to 51% and requiring the BIPOC Entity be given an option to purchase the property and (2), for BIPOC Entities that are the sole sponsor, changing the eligibility for BIPOC Entity experience from one project within five years to one project in California in the past 10 years. These changes will allow more emerging California BIPOC Entities to have greater access to the pool.

Initial proposed changes:

(f) General Partner and Management Company Experience (10 Points Maximum)

(1) A project shall receive general partner experience points in one of the following manners:

(A) [...]

(B) 7 points if the project is a joint venture between an entity that receives maximum general experience points pursuant to Section 10325(c)(1)(A) of the

CTCAC regulations and a BIPOC Entity, provided that the partnership agreement ~~(i)-allocates a share of the~~ at least 51% of the developer fee, cash flow, and net sale proceeds to the BIPOC Entity that is equal to or greater than the share to the entity with maximum general experience points and ~~(ii) provides the BIPOC Entity an option to purchase the development.~~

(C) 7 points if the sole sponsor is a BIPOC Entity that

(i) is a general partner in at least one California Low-Income Housing Tax Credit development that has received a certificate of occupancy, or if a rehabilitation project, completed rehabilitation, within ~~five~~ ten years of the date of application,

[...]

Comments received: Staff received one comment stating the BIPOC entity option to purchase may come after project purchase options or option to purchase the LP for another member of the development team.

There was one comment to update the use of Set-Aside/Set Aside to be consistent throughout the regulations.

Response to comments: The option to purchase was suggested by several stakeholders in the initial change process and will remain with this update. Staff updated the language to Set Aside.

Final proposed changes:

(f) General Partner and Management Company Experience (10 Points Maximum)

(1) A project shall receive general partner experience points in one of the following manners:

(A) [...]

(B) 7 points if the project is a joint venture between an entity that receives maximum general experience points pursuant to Section 10325(c)(1)(A) of the CTCAC regulations and a BIPOC Entity, provided that the partnership agreement ~~(i)-allocates a share of the~~ at least 51% of the developer fee, cash flow, and net sale proceeds to the BIPOC Entity that is equal to or greater than the share to the entity with maximum general experience points and ~~(ii) provides the BIPOC Entity an option to purchase the development.~~

(C) 7 points if the sole sponsor is a BIPOC Entity that

(i) is a general partner in at least one California Low-Income Housing Tax Credit development that has received a certificate of occupancy, or if a rehabilitation project, completed rehabilitation, within ~~five~~ ten years of the date of application,

[...]

(j) Affirmatively Furthering Fair Housing (10 points maximum).

(1) A New Construction project shall receive points in only one of the following manners:

[...]

(ii) Using the sort order described in Section 5231, after projects receiving 10 points pursuant to this subdivision have been recommended for allocations that meet or exceed the following 50% threshold, all remaining projects in each pool or ~~set-aside~~ set aside shall receive 9 points for meeting the requirements of this subdivision. For the purpose of awarding points per round, (excluding an established waiting list), pursuant to this subdivision, 10 points shall be awarded until approximately 50% of the amount available to a pool or ~~set-aside~~ set aside has been allocated. Subsequently, all remaining projects in each pool or ~~set-aside~~ set aside shall receive 9 points for meeting the requirements of this subdivision.

15. Section 5231. Ranking.

The proposed changes limit the number of awards in the BIPOC Pool to one per round and two per year unless the pool is undersubscribed, to allow more Emerging BIPOC Entities to have access to the Pool.

The proposed changes also update the Homeless Set Aside to transfer funds to the Extremely/Very Low Income Set Aside when the Homeless Set Aside is undersubscribed, since many Homeless Projects also qualify for Extremely/Very Low Income, updates the use of surplus bond allocation to be available to all projects rather than new construction only, eliminating the need for (4), and makes the tie breaker boost for prevailing wages applicable only to projects where prevailing wages are paid on the entire project.

Initial proposed changes:

After all Applications for Qualified Residential Rental Projects are evaluated pursuant to Section 5230, the Applications shall be ranked and may be awarded an Allocation as follows, except that a project shall not receive a bond allocation if it had requested and is not scheduled to receive an award of State Tax Credits:

[...]

(d) Applications for BIPOC Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for BIPOC Projects awarded the greatest number of points after factoring in the tie breaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the BIPOC Pool. Applications for BIPOC Projects not receiving an Allocation pursuant to this subdivision shall be eligible for consideration for an Allocation under subdivisions (a), (b), (c), and (e) of this section. The number of awards received by individuals, entities, affiliates, and related entities is limited to no more than one (1) per competitive round and two (2) per year unless the pool is undersubscribed. This limitation is applicable to a project applicant, developer, sponsor, owner, general partner, and to parent companies, principals of entities, and family members.

(e) Applications for Qualified Residential Rental Projects that are New Construction Projects, exclusive of Rural Projects, will then be ranked together. Applications receiving the greatest number of points after factoring in the tie breaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the New Construction Pool in the following manner.

(1)(A) Set Aside application selection. Beginning with the top ranked application from the Homeless Set Aside, subject to the conditions in Section 5231(e)(1)(B), followed by the Extremely Low/Very Low Income Set Aside, and the Mixed Income Set Aside, the highest scoring applications in each Set Aside shall be awarded an Allocation pursuant to the procedures in Section 5231(f). A project that meets the criteria of both the Homeless Set Aside and the Extremely Low/Very Low Income Set Aside shall be eligible for an allocation from either Set Aside. If the Homeless Set Aside is undersubscribed in a competitive round the remaining funds will transfer to the Extremely/Very Low Income Set Aside. All New Construction Projects, exclusive of Rural Projects, that do not receive an allocation from a Set Aside shall be eligible for an allocation from their respective geographic region pursuant to subdivision (e)(2).

(B) [...]

(2) [...]

(3) In the final allocation round of the year, any bonds remaining in any QRRP pool, Set Aside, or geographic region shall be allocated to the highest-ranking ~~New Construction~~ Project or Projects. Those amounts shall not be added to the respective QRRP pool, Set Aside, or geographic region in the following year, and any allocations pursuant to this paragraph shall not be subtracted from the geographic allocations in the following year.

~~(4) At the last allocation meeting of the year, the Committee shall establish a waiting list of new Construction Projects that have not received an allocation in the final allocation round, ordered from highest to lowest ranking.~~

[...]

(g) [...]

(2) The cost-adjusted Bond and State Credit Allocation shall be calculated by reducing the unadjusted Bond and State Credit Allocation request by the following, as applicable:

(A) 15% for projects that are paid for in whole or in part out of public funds and are subject to a legal requirement for the payment of state or federal prevailing wages on the entire project.

Comments received: Staff received one comment to note the award limit is in the BIPOC Pool. There was also one comment to clarify who the limit applies to. There was one comment objecting to the limit on awards in the BIPOC Pool.

There were sixteen comments recommending adding a priority to New Construction Projects when allocating funds in the final funding round of the year.

Staff also received one comment to update the use of Set-Aside/Set Aside and tiebreaker/tie-breaker/tie breaker to be consistent throughout the regulations.

Response to comments: Staff added clarification to the limit being in the BIPOC Pool, who the limit applies to, and updated the language to tiebreaker. The limit on awards was recommended by several stakeholders and will remain in the current set of changes. Further changes will be considered in the future.

Final proposed changes:

After all Applications for Qualified Residential Rental Projects are evaluated pursuant to Section 5230, the Applications shall be ranked and may be awarded an Allocation as follows, except that a project shall not receive a bond allocation if it had requested and is not scheduled to receive an award of State Tax Credits:

(a) Applications for Rural Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for Rural Projects awarded the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the Rural Pool. Applications for Rural Projects not receiving an Allocation will not be eligible for consideration for an Allocation under subdivisions (b), (c) or (e) of this section.

[...]

(c) Applications for Other Rehabilitation Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for Other Rehabilitation Projects awarded the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the Other Rehabilitation Pool. Applications for Other Rehabilitation Projects not receiving an Allocation pursuant to this subdivision will not be eligible for consideration for an Allocation under subdivisions (a), (b) or (e) of this section.

(d) Applications for BIPOC Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for BIPOC Projects awarded the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the BIPOC Pool. Applications for BIPOC Projects not receiving an Allocation pursuant to this subdivision shall be eligible for consideration for an Allocation under subdivisions (a), (b), (c), and (e) of this section. The number of awards received by individuals, entities, affiliates, and related entities in the BIPOC Pool is limited to no more than one (1) per competitive round and two (2) per year unless the pool is undersubscribed. This limitation is applicable to project applicants, developers, sponsors, owners, general partners, and to parent companies, principals of entities, and family members.

(e) Applications for Qualified Residential Rental Projects that are New Construction Projects, exclusive of Rural Projects, will then be ranked together. Applications receiving the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the New Construction Pool in the following manner.

(1)(A) Set Aside application selection. Beginning with the top ranked application from the Homeless Set Aside, subject to the conditions in Section 5231(e)(1)(B), followed by the Extremely Low/Very Low Income Set Aside, and the Mixed Income Set Aside, the highest scoring applications in each Set Aside shall be awarded an Allocation pursuant to the procedures in Section 5231(f). A project that meets the criteria of both the Homeless Set Aside and the Extremely Low/Very Low Income Set Aside shall be eligible for an allocation from either Set Aside. If the Homeless Set Aside is undersubscribed in a competitive round the remaining funds will transfer to the Extremely/Very Low Income Set Aside. All New Construction Projects, exclusive of Rural Projects, that do not receive an allocation from a Set Aside shall be eligible for an allocation from their respective geographic region pursuant to subdivision (e)(2).

(B) [...]

(2) [...]

(3) In the final allocation round of the year, any bonds remaining in any QRRP pool, Set Aside, or geographic region shall be allocated to the highest-ranking ~~New Construction~~ Project or Projects. Those amounts shall not be added to the respective QRRP pool, Set Aside, or geographic region in the following year, and any allocations pursuant to this paragraph shall not be subtracted from the geographic allocations in the following year.

~~(4) At the last allocation meeting of the year, the Committee shall establish a waiting list of new Construction Projects that have not received an allocation in the final allocation round, ordered from highest to lowest ranking.~~

[...]

(g) [...]

(2) The cost-adjusted Bond and State Credit Allocation shall be calculated by reducing the unadjusted Bond and State Credit Allocation request by the following, as applicable:

(A) 15% for projects that are paid for in whole or in part out of public funds and are subject to a legal requirement for the payment of state or federal prevailing wages on the entire project.

16. Section 5233. Allocation Limits.

The proposed change clarifies that the allocation limit applies to all units in the development and removes the reference of being adjusted for the number of bedrooms, since the table showing the limits does this.

Initial proposed changes:

(a) Limit CDLAC bond allocation on all units on a per-unit basis ~~(adjusted by the number of bedrooms)~~ in the QRRP Pools as follows:

Studio and SRO:	\$522,000
One-bedroom:	\$544,000
Two-bedroom:	\$580,000
Three-bedroom:	\$638,000
Four- or more bedroom:	\$671,000

Comments received: Staff received no comments on this section. The changes remain as proposed.

17. Section 5241. Realignment of Expiration Dates.

The proposed change would reset the bond issuance deadline on all unissued allocations to the most recent allocation, in order to provide more clarity for projects receiving multiple Supplemental Allocations.

Initial proposed changes:

Projects awarded a Supplemental Allocation for which no Bonds were issued from the original award, or any prior Supplemental Allocation, shall have the expiration date of the most recent original allocation.

Comments received: Staff received no comments on this section. The changes remain as proposed.

18. Section 5314. Program Provisions.

This was not included in the preliminary changes.

Initial proposed changes:

The Extra Credit Teacher Home Purchase Program proposed by the Applicant must, at a minimum, include all of the following:

[...]

(f) A priority system such that:

(1) In the event an Applicant's program is oversubscribed, the Applicant must provide assistance to Eligible Teachers and Eligible Administrators before providing such assistance to other eligible Program Participants.

(2) Eligible Teachers with National Board Certification shall have priority over Eligible Teachers without such certification.

(3) Applicants may determine how each priority will be implemented (e.g., a program ~~set aside~~ set aside) and shall indicate such in the Application.

Comments received: Staff received one comment to update the use of Set-Aside/Set Aside.

Response to comments: Staff updated the language to Set Aside. The changes remain as proposed.

The Issuer of the Qualified Private Activity Bonds or Mortgage Credit Certificates must be the Applicant.

(b) Where the Applicant is administering a Single-Family Housing Program on behalf of one or more jurisdictions, the Applicant must submit the Application to the Committee. The Applicant must also obtain, and provide to the Committee with its Application, a publicly adopted resolution or cooperative agreement from each jurisdiction participating in the Applicant's program that explicitly grant authority to the Applicant to conduct the program in the participant's jurisdiction.

CDLAC will document their formal approval. This requirement will apply immediately to all Applicants who have not received allocation from CDLAC since January of 2013 and for new Applicants. Applicants having received an allocation of bonds from CDLAC after January 2013 will have until December 31st of 2017 to complete and submit policies to CDLAC. If an Applicant has not utilized CDLAC's programs but has a 2017 project pending, a one year waiver to this regulation may be requested. To fulfill this requirement, approval of the policies must be documented in a resolution dated no earlier than 2006. All policies must be reviewed and re-approved at least every 10 years thereafter.

§ 5144. Annual Applicant Public Benefits and On-Going Compliance Self Certification.

California Debt Limit Allocation Committee Regulations

(a) All Projects that receive an Allocation and are within an existing regulatory period and/or compliance period shall be monitored for compliance with the applicable terms and conditions of the Committee Resolution by the Applicant (Issuer) and CDLAC. The new Issuer takes responsibility of reporting on projects that have resyndicated after Year 15. Upon request, CDLAC will review and approve a termination of the original bond regulatory agreement with the requirement that the new agreement include affordability requirements that are at least as restrictive as those in the original agreement.

(b) The self-certification must be submitted by the Applicant to CDLAC no later than March 1 of each year (or at such other time as requested by the Committee). The requirement shall be enforceable by the Committee through an action for specific performance or other available remedy affecting the Applicant including but not limited to disqualification from the program.

(1) For Projects receiving an Allocation prior to December 31, 2016, the Applicant shall complete and submit the Annual Applicant Public Benefits and On-going Compliance Self Certification, via the online compliance certification system annually for the longer of the period the bonds remain outstanding or the period of restriction for QRRP projects outlined in Section 5192.

(2) For Projects receiving allocation after December 31, 2016, the Applicant shall complete and submit the Annual Applicant Public Benefits and On-going Compliance Self Certification via the online compliance certification system every year until the completion of the project and then if the project is subject to a Regulatory Period and/or Compliance Period every three years thereafter or sooner upon a termination of the Regulatory Period and/or Compliance Period.

(c) For all QRRP projects receiving allocations after December 31, 2016, Sponsors shall be required to utilize CTCAC's Compliance Online Reference Manual, specifically Section IV: Qualify Tenants for Low Income Housing Tax Credit Units, to verify tenant income in conjunction with initial occupancy. Additionally, Project Sponsors shall be required to prepare and forward a CTCAC Project Status Report (PSR) or equivalent documentation to the Applicant annually in conjunction with the Annual Applicant Public Benefits and On-going Compliance Self Certification. Sponsors shall retain information pertaining to the income verification process for 10 years.

(d) For all QRRP projects receiving allocation after December 31, 2016, compliance with the income and rental requirements of the Federally Bond-Restricted Units identified in the Committee Resolution and the Bond Regulatory Agreement must be demonstrated by the Applicants initial review of 20% of all management files associated with the Federally Bond-Restricted units and subsequent review every three years of 20% of all management files associated with the Federally Bond-Restricted units. Federally Bond-Restricted units will include a distribution of unit locations, sizes and income levels (if applicable) and must be identified in the PSR. For this 20% of files, Applicants must review each initial or subsequent occupant/s and their associated TIC in conjunction with the supporting income verification documentation of each occupant's initial occupancy and make a determination if the project is complying with the income and affordability standards. Additionally, Applicants must ensure a lease is in place and executed. This review may be performed on-site or may be performed through an electronic file audit. Completion of this task in addition to a valid Certification of Compliance II or equivalent form will provide Issuers with the ability to report annually to CDLAC regarding compliance with the Federally Bond-Restricted unit restrictions. Information pertaining to the income verification process will be kept on file for 10 years. Applicants must retain documentation memorializing review and determination of income eligibility for 10 years. Source income documentation must be retained for 1 year. These guidelines rely on the compliance monitoring process and procedures in place for CTCAC. To the extent CTCAC is to alter their compliance policies and procedures, these guidelines shall be reviewed by CDLAC for consistency and changes made where appropriate.

(e) For all QRRP projects receiving allocation after December 31, 2016, Sponsors requesting an allocation of bonds absent the receipt of a CTCAC reservation will be identified at the time of application and will have the following compliance options which will be represented in the Committee Resolution:

(1) Applicants that can demonstrate to the Executive Director's satisfaction experience and current capacity to conduct on-site physical and file inspections through their Compliance Policies will be required to conduct

California Debt Limit Allocation Committee Regulations

the 20% review of the Federally Bond-Restricted units files on-site and perform a site inspection consistent with their Bond Compliance Policy every 3 years after the Qualified Project Period has commenced.

(2) Applicants that cannot demonstrate to the Executive Director's satisfaction capacity to conduct on-site physical and file inspections through their Compliance Policies will be required to enter into an agreement with a private third party compliance firm, approved by CDLAC, who must conduct the 20% review of Federally Bond-Restricted units files on-site and perform a site inspection consistent with their current policies and procedures every 3 years after the Qualified Project Period has commenced.

(3) A Sponsor can enter into contract with CDLAC or a designee to monitor the Federally Bond-Restricted units for consistency with the bond regulatory agreement and the Committee Resolution. The charge for this service will be equivalent to the compliance fee charged by CTCAC at the time the project submits their application to CDLAC.

(4) The election of the option will be included in the Committee Resolution.

§ 5145. Certification of Compliance.

(a) All QRRP Projects receiving an Allocation prior to December 31, 2016 shall be monitored for compliance with the applicable terms and conditions of the Committee Resolution by the Applicant and CDLAC for the longer of the period the bonds remain outstanding or the period of restriction outlined in Section 5192. MCC awards will be monitored until the allocation has been utilized. The Applicant shall annually collect from the Project Sponsor and retain for QRRP projects a Certification of Compliance I as attached to the Committee Resolution.

(b) For all Projects that receive allocation after December 31, 2016 and subject to a Regulatory Period and/or Compliance Period, the Applicant shall collect from the Project Sponsor and retain the applicable QRRP or Non-QRRP Certification of Compliance II as attached in the Committee Resolution or other comparable form outlined in an Applicant's approved Bond Compliance Policies. The QRRP or Non-QRRP Certification of Compliance II will be submitted annually to the Applicant until the Project is completed and then if the project is subject to a Regulatory Period and/or Compliance Period, every three years thereafter or sooner upon a termination of the Regulatory Period and/or Compliance Period. Additionally, Applicants shall collect from the Project Sponsor and retain the applicable QRRP or Non-QRRP Certificate of Completion as provided in the Committee Resolution or other comparable form outlined in an Applicant's approved Bond Compliance Policies. In both instances, the certification must be submitted by the Project Sponsor. The Applicant will then provide confirmation of receipt to the California Debt Limit Allocation Committee no later than March 1 of each applicable year (or at such other time as requested by the Committee) via the online compliance certification system. These requirements shall be enforceable by the Committee through an action for specific performance or other available remedy against the Project Sponsor.

(c) All QRRP Projects that receive Allocation and an award of low income housing tax credits shall be monitored by the Committee or an entity acting on its behalf for compliance with the terms and conditions of the Committee Resolution, and shall be subject to the provisions of section 10337 of Title 4 of the California Code of Regulations.

(d) All Non-QRRP Applicants must designate CDLAC, for the life of the bonds, to receive notice of changes in use and circumstances of Bond Default and Qualifying Bond Default.

§ 5191. Income and Rent Restrictions.

All Qualified Residential Rental Projects must meet the following minimum income and rent restrictions, which will be included in the Committee Resolution.

California Debt Limit Allocation Committee Regulations

(a) **Minimum Income Restrictions.** A minimum of ten percent (10%) of the units in a Qualified Residential Rental Project must have Gross Rents that are restricted to households with incomes no greater than fifty percent (50%) of the AMI. The rent restricted units that meet this requirement, with the exception of Mixed Income Projects, acquisition rehabilitation projects already subject to a Residential Rental Regulatory Agreement or a federal, state, or local operating or rental assistance agreement, and units located on the upper level floors of high-rise developments, shall be generally distributed in terms of location and number of bedrooms throughout the Project. All projects shall offer a range of sizes and number of bedrooms comparable to those units that are available to other tenants.

(b) **Minimum Rent Restrictions.** Except for projects subject to an existing Residential Rental Regulatory Agreement that propose tenant paid rents and income targeting not exceeding one hundred-five percent (105%) of the current rents and targeting and operate with a vacancy rate of no more than five percent (5%), for single room occupancy and special needs housing a vacancy rate of no more than ten percent (10%) as demonstrated by a market study completed pursuant to 26 U.S.C. Section 42(m)(1)(A)(iii); the proposed tenant paid rents for each Restricted Rental Unit type (defined by bedroom count) in the proposed development shall be at least ten percent (10%) below the weighted average rent for comparable market rate units and each Restricted Rental Unit's value ratio (dollars per square foot) shall be at or below the weighted average unit value ratio for comparable market rate units as demonstrated in a Rent Comparability Matrix meeting the requirements of article 4 of this chapter.

(c) **Utility Allowance Evidence.** All Projects shall be subject to the use of Gross Rent as defined by Section 5170 and shall provide evidence in one of the following forms:

Projects that are subject to a Department of Housing and Urban Development (HUD) Section 8 Housing Assistance Payments Program do not require a housing authority certification and may rely solely on the utility allowance included in a HUD rent schedule provided the schedule specifically identifies the name of the Project.

(2) If a Project is to be substantially retrofitted for energy conservation or will be newly constructed with substantial energy conservation, the Applicant may submit revised utility allowances based on the projected reduction in utility costs after construction or retrofit. The revised utility allowances shall be validated by either of the following:

(A) A letter from the public utility or housing authority having jurisdiction over the Project that validates the revised utility allowances based on the proposed use of energy conservation materials, or

(B) A current utility allowance estimate consistent with 26 CFR section 1.42-10 (4-1-17), which is hereby incorporated by reference. The Applicant must indicate which components of the utility allowance schedule apply to the Project. For buildings that are using an energy consumption model utility allowance estimate, the estimate shall be calculated using the most recent version of the California Utility Allowance Calculator (CUAC) developed by the California Energy Commission; and in accordance with the California Tax Credit Allocation Committee's minimum requirements for utility allowance estimates, Title 4, Division 17, Chapter 1, Section 10322(h)(21).

Projects located on Native American Lands shall have a term of restriction of 50 years from the property lease effective date.

(b) If a Project is intended for eventual tenant homeowners the applicant shall provide evidence of a financially feasible program in the Application. The program shall include, but is not limited to, an exit strategy, home ownership counseling, funds to be set aside to assist tenants in the purchase of units, no involuntary relocation of tenants, and a plan for conversion of the facility to home ownership no sooner than the end of the initial 15-year Qualified Project Period as required by 26 U.S.C. section 142(d)(2)(A). § 5220. Regulatory Compliance.

(a) All QRRP allocation recipients are required to execute a Bond Regulatory Agreement (the "Regulatory Agreement"), as a condition to the Committee's making an allocation, which will be recorded against the property for which the allocation is used, and will reflect all commitments outlined in exhibit A of the Committee's resolution. For projects submitted to CDLAC after December 31, 2016, the Regulatory Agreement shall terminate prior to the end of the CDLAC Resolution affordability term only in the event of (i) involuntary noncompliance with the provisions of the Regulatory Agreement caused by fire or other casualty, seizure, requisition, change in a federal law or an action of a federal agency after the bond issuance which prevents the Issuer, Fiscal Agent and/or the Trustee (as applicable) from enforcing such provisions, or (ii) foreclosure, exercise of power of sale, and/or transfer of title by deed in lieu of foreclosure in connection with a deed of trust directly or indirectly securing the repayment of Standard Permanent Bonds, or repayment of a non-Bond related obligation that provides permanent project financing and meets the requirements of section 5193 or condemnation or a similar event, but only if, in the case of the events described in either clause (i) or (ii) above, the bonds are redeemed within a reasonable period or the proceeds for the event are used to provide a project that meets the requirement of the Regulatory Agreement.

(b) If Cash Flow Permanent Bonds finance project costs in projects submitted to CDLAC after December 31, 2016, all units identified in the CDLAC resolution, including both the Federally Bond-Restricted Units and the Other Restricted Units, will be incorporated into the Bond Regulatory Agreement. Assumptions to be included in the Bond Regulatory Agreement regarding the Other Restricted Units will include the AMI as outlined in the CDLAC

California Debt Limit Allocation Committee Regulations

resolution, a limitation that tenants pay no more than 30% of their income, and 1.5 person per bedroom occupancy standard to determine the applicable rent.

(c) For projects receiving allocation after December 31, 2016, The Bond Regulatory Agreement will:

- (1) Incorporate the CDLAC resolution by reference and as an attachment;
- (2) Have a term consistent with the income and rental restrictions established in the Resolution. The Bond Regulatory Agreement shall terminate in 55 years (50 years for Projects located on Native American Lands) from the date 50% occupancy is achieved or the commencement of the CDLAC Qualified project period, whichever date is earlier;
- (3) Include all applicable income and affordability requirements outlined in 26 U.S.C. § 142, Cal. H&S Code § 34312.3 (c)(1) & (2), Cal. H&S Code § 51335(a), and Cal. H&S Code § 52080 (a)(1);
- (4) Clarify that compliance with items not contained within the body of the Bond Regulatory Agreement but referred to in the CDLAC resolution are the responsibility of the Sponsor to report to the Issuer;
- (5) Designate CDLAC to receive notice of changes in ownership, Issuer, project name and management company; and
- (6) Designate CDLAC to receive all notices regarding defaults associated with the rents and income requirements, Bond Default, Qualified Bond Default, and regulatory termination.

(d) Where a Project is receiving renewable project-based rental assistance or operating subsidy:

- (1) the Sponsor shall in good faith apply for and accept all available renewals; and
- (2) if the project-based rental assistance or operating subsidy is terminated through no fault of the owner, the property owner shall immediately notify CDLAC in writing and shall make every effort to find alternative subsidies or financing structures that would maintain the deeper income targeting contained in the CDLAC resolution. Upon documenting to CDLAC's satisfaction unsuccessful efforts to identify and obtain alternative resources, the owner may increase rents and income targeting for rent restricted units above the levels allowed by the CDLAC resolution up to the federally and state-permitted maximums. Rents shall be raised only to the extent required for financial feasibility, as determined by CDLAC. Where possible, remedies shall include skewing rents higher on portions of the project in order to preserve affordability for units regulated by CDLAC at extremely low income targeting. Any necessary rent increases shall be phased in as gradually as possible, consistent with maintaining the project's financial feasibility. If housing special needs populations, the property owner shall attempt to minimize disruption to existing households, and transition to non-special needs households only as necessary and upon vacancy whenever possible.

(a) The following criteria will be used to evaluate and rank all Qualified Residential Rental Project applications. Each of the items in this section shall be memorialized in the Committee Resolution.

(b) Preservation and Other Rehabilitation Project Priorities (20 points maximum).

(1) Preservation Projects meeting the following criteria shall receive points in the highest scoring category only:

(A) A project that meets at least one of the following shall receive 20 points:

(i) An At-Risk Project.

(ii) A project in which lower-income rent and income restrictions on at least 50 percent of the total units pursuant to a regulatory agreement with a public entity shall terminate or be eligible for termination within five years of application with no other rent and income restrictions remaining.

(iii) A replacement or rehabilitation project approved by HUD pursuant to a Section 18 or 22 Demolition/Disposition authorization.

(iv) A component one project being rehabilitated under the HUD Rental Assistance Demonstration (RAD) Program.

(B) A project that meets at least one of the following shall receive 14 points:

(i) A component two project being rehabilitated under the HUD Rental Assistance Demonstration (RAD) Program; or

(C) A project with a pre-1999 HCD loan that is being restructured pursuant to Health and Safety Code section 50560 (AB 1699) that has previously received an allocation of Low-Income Housing Tax Credits shall receive 6 points.

(2) Other Rehabilitation Projects meeting all of the following criteria shall receive 20 points:

(A) The project does not result in a distribution of net project equity, as that term is defined in Section 10302(gg) of the CTCAC Regulations, to a general partner or a related party to the general partner. For purposes of this subparagraph, there may be a buyout of a limited partner or equity distributed to a third party seller;

(B) There is no partial or full repayment of existing soft financing; and

(C) The application's developer fee limit pursuant to Section 10327(c)(2) of the CTCAC Regulations is further limited to a cash-out developer fee no greater than 80% of the CTCAC cash-out developer fee limit.

California Debt Limit Allocation Committee Regulations

(c) New Construction Density and Local Incentives (10 points maximum); Preservation Projects and Other Rehabilitation Projects are not eligible for these points). A New Construction Project that meets any of the following shall receive 10 points:

(1) The local jurisdiction has approved the project pursuant to Section 65913.4 of the Government Code; or at a density greater than that allowed by the site's zoning through the use of a density bonus allowed by Government Code Section 65915; or pursuant to a local ordinance; or with concessions and/or waivers granted pursuant to Government Code Section 65915;

(2) The project is being developed at a per net acre density that meets one of the following criteria:

(A) 100 bedrooms per net acre in a metropolitan county;

(B) 60 bedrooms per net acre in a suburban jurisdiction;

(C) 40 bedrooms per net acre in all other areas.

[For the purposes of subdivision (c)(2), "net acre" is defined as the acreage within the parcel boundaries after subtracting any area affected by the dedication of public right-of-way, the presence of restrictive easements, and non-buildable areas. "Metropolitan county" and "suburban jurisdiction" shall have the same meanings as in Section 65583.2 of the Government Code. Projects with land-use approvals obtained prior to January 1, 2022, shall earn full points in this category.]

(3) The project is located in a city or unincorporated portion of a county for which HCD has designated the city or county, respectively, as pro-housing pursuant to Section 65589.9(c) of the Government Code.

(d) Exceeding Minimum Income Restrictions (20 points maximum). A project shall receive points in either of the following manners:

(1) 2 points for each full percent that the average affordability of tax credit units is less than 60% of area median income subject to the Gross Rent definition; or

(2) 20 points if the average affordability of tax credit units is less than or equal to 60% of area median income, provided that at least 10% of tax credit units are restricted at or below 30% of area median income and an additional 10% of tax credits units are restricted at or below 50% of area median income, subject to the Gross Rent definition.

(e) Exceeding Minimum Rent Restrictions (10 points maximum). A project shall receive one point for each full percent that the average affordability of tax credit units is more than ten percent (10%) below the average adjusted rental rates of comparable units as demonstrated by each applicable Rent Comparability Matrix. This percentage shall be calculated separately for units of each bedroom count, with the results for each unit type weighted relative to the percentage of tax credit units of that type in the project, and the resulting percentage shall be used to determine the final point score. In cases where unit sizes of the same unit type vary, the smallest of these units shall be the basis for comparison. When family comparables are used in addition to senior comparables (outside the 1-mile radius), points will be calculated using the family comparables.

(f) General Partner and Management Company Experience (10 points maximum).

(1) A project shall receive general partner experience points in one of the following manners:

(A) The number of general partner experience points for which it is eligible pursuant to Section 10325(c)(1)(A) of the CTCAC regulations.

California Debt Limit Allocation Committee Regulations

(B) 7 points if the project is a joint venture between an entity that receives maximum general experience points pursuant to Section 10325(c)(1)(A) of the CTCAC regulations and a BIPOC Entity, provided that the partnership agreement ~~(i) allocates a share of the at least 51% of the developer fee, cash flow, and net sale proceeds to the BIPOC Entity that is equal to or greater than the share to the entity with maximum general experience points and~~ (ii) provides the BIPOC Entity an option to purchase the development.

(C) 7 points if the sole sponsor is a BIPOC Entity that

(i) is a general partner in at least one California Low-Income Housing Tax Credit development that has received a certificate of occupancy, or if a rehabilitation project, completed rehabilitation, within five-ten years of the date of application,

(ii) submits the certification from a third-party certified public accountant referred to in Section 10325(c)(1)(A)(i) of the CTCAC regulations for that development, and

(iii) completes training as prescribed by CTCAC prior to a project's placing in service.

(2) A project shall receive management company experience points in one of the following manners:

(A) The number of management company points for which it is eligible pursuant to Section 10325(c)(1)(B) of the CTCAC regulations.

(B) 3 points if the management company will be the BIPOC Entity for which the project receives general partner experience points pursuant to paragraph (1)(C).

(g) Housing Types (10 points maximum; Preservation Projects and Other Rehabilitation Projects not eligible for these points). A New Construction Project that meets any of the following criteria shall receive 10 points:

(1) The project meets the criteria for any of the housing types described in Section 10325(g) of the CTCAC regulations. Points will be awarded only in one housing type.

(2) The project meets the requirements of subdivision (c) of this section or is a New Construction Project that obtained all land use approvals prior to January 1, 2022.

(h) Leveraged Soft Resources (8 points maximum). A project shall receive 1 point for each full percent that leveraged soft resources defraying residential costs represent as a percentage of total residential project development costs, except that a New Construction Project that receives points as a Large Family project or Special Needs project pursuant to the conditions specified in Section 5230(j)(1)(A) and is located in a High or Highest Resource Area as specified on the CTCAC/HCD Opportunity Area Map shall receive 2 points for each full percent of leveraged soft resources. For purposes of this subdivision, leveraged soft resources shall have the same meaning as in Section 10325(c)(9) of the CTCAC regulations.

(i) Readiness to Proceed (10 points maximum). A project shall receive the number of points for which it is eligible pursuant to Section 10325(c)(7) of the CTCAC regulations, except that the applicant shall demonstrate that construction can commence within 180 days of the bond allocation. Projects that receive the maximum number of points pursuant to this subdivision shall have a readiness deadline that aligns with the allocation expiration assigned pursuant to Section 5100(b)(3)(i), and submit within that time period evidence of the issuance of building permits or the applicable tribal documents, and notice to proceed delivered to the contractor. Failure to meet the assigned due date shall result in rescission of the bond allocation. In addition, negative points may be assessed at the discretion of the Committee pursuant to subdivision (n).

(1) For purposes of submitting evidence of the issuance of a building permit:

California Debt Limit Allocation Committee Regulations

(A) A grading permit shall not suffice to meet the building permit requirement except that if the city or county as a rule does not issue building permits prior to the completion of grading, then a grading permit shall suffice.

(B) If the project is a design-build project in which the city or county does not issue building permits until designs are fully complete, then the city or county shall have approved construction to begin.

(j) Affirmatively Furthering Fair Housing (10 points maximum).

(1) A New Construction project shall receive points in only one of the following manners:

(A)(i) Except as provided in (ii) below, 10 points if the project receives points as a Large Family project or Special Needs project pursuant to subdivision (g) (except the Special Needs project shall have at least 50% of its units set aside as permanent supportive housing), is located in a High or Highest Resource Area as specified on the CTCAC/HCD Opportunity Area Map, and at least 10% of tax credit units shall be restricted at or below 30% of area median income and an additional 10% of tax credits units shall be restricted at or below 50% of area median income (except Special Needs projects shall be exempt from this 50% AMI requirement).

(ii) Using the sort order described in Section 5231, after projects receiving 10 points pursuant to this subdivision have been recommended for allocations that meet or exceed the following 50% threshold, all remaining projects in each pool or ~~set aside~~ set aside shall receive 9 points for meeting the requirements of this subdivision. For the purpose of awarding points per round, (excluding an established waiting list), pursuant to this subdivision, 10 points shall be awarded until approximately 50% of the amount available to a pool or ~~set aside~~ set aside has been allocated. Subsequently, all remaining projects in each pool or ~~set aside~~ set aside shall receive 9 points for meeting the requirements of this subdivision.

(B) 9 points if the project does not receive points pursuant to subdivisions (j)(1)(A). With respect to New Construction Projects, at least 10% of tax credit units shall be restricted at or below 30% of area median income and an additional 10% of tax credits units shall be restricted at or below 50% of area median income.

(2) For purposes of subdivisions (A), a project located in a resource area designated on the CTCAC/HCD Opportunity Area Map as "Missing/Insufficient Data" shall be considered to have the designation of the adjacent resource area that shares the longest common boundary with the resource area in which the project is located.

(k) Service Amenities (10 points maximum). A project shall receive the number of points for which it is eligible pursuant to Section 10325(c)(4)(B) of the CTCAC regulations, except that projects not meeting one of the housing types specified in Section 10325(g) of the CTCAC regulations shall be able to choose the services provided without regard to the housing type conditions within the service amenity categories.

(l) Cost Containment (12 points maximum). A project shall receive 1 point for each full percent that the project's eligible basis is less than the project's CDLAC adjusted threshold basis limit, except that a New Construction Project that receives points as a Large Family project or Special Needs project pursuant to the conditions specified in Section 5230(j)(1)(A)) and is located in a High or Highest Resource Area as specified on the CTCAC/HCD Opportunity Area Map shall receive 2 points for each full percent that the project's eligible basis is less than the project's CDLAC adjusted threshold basis limit. For purposes of this subdivision, a project's CDLAC adjusted threshold basis limit shall be the project's threshold basis limit as determined pursuant to Section 10327(c)(5) of the CTCAC regulations, except that the increase for deeper targeting pursuant to Section 10327(c)(5)(C) of the CTCAC regulations shall be limited to 80%.

California Debt Limit Allocation Committee Regulations

(m) Site amenities (10 points maximum). A project shall receive up to 10 site amenity points for which it is eligible pursuant to Section 10325(c)(4)(A) of the CTCAC regulations, except that a maximum of three points shall be available to any project that meets the Resource Area criteria of Section 10325(c)(4)(A)11.

(n) Negative Points (no maximum).

(1) The Committee may deduct points for an Application involving a Project Sponsor that has been or is a Related Party to a Project Sponsor (i.e. in the ownership structure) for which an Allocation has been awarded as follows:

(A) Ten (10) points may be deducted for each failure to fully utilize the leveraged soft resources for which points were awarded in connection with the prior Allocation, unless it can be demonstrated that the failure was unforeseen and entirely outside of the Project Sponsor's control or the amount not utilized is not material, or is the result of voluntarily returning leveraged soft resources due to the project being over-sourced, or if a change in federal or state law provides additional financial resources that result in a reduction in leveraged soft resources. This deduction may be assessed against the Project Sponsor for a period of up to two (2) calendar years (10 points each year) from the date on which the prior Allocation was awarded.

(B) Ten (10) points may be deducted for each failure to issue Bonds or utilize 90% or more of a Supplemental Allocation, unless it can be demonstrated that the failure was unforeseen and entirely outside of the Project Sponsor's control. This deduction may be assessed against the Project Sponsor for a period of up to two (2) succeeding years (10 points each year) following the year the Allocation was awarded.

(C) Ten (10) points may be deducted for each failure to spend the proceeds of Bonds issued pursuant to an Allocation in full, or in accordance with the terms and conditions of the Committee Resolution, unless it can be demonstrated that the failure was unforeseen and entirely outside of the Project Sponsor's control, the amount not spent is not material or is consistent with the requirements of Section 5052(b), or the deviation from the terms and conditions of the Committee Resolution is not material. This deduction may be assessed against the Project Sponsor for a period of up to three (3) calendar years (10 points each year) from the date of determination of failure to spend proceeds.

(D) Ten (10) points may be deducted for failure to comply with any provision of the Committee Resolution, unless it can be demonstrated that the failure was unforeseen and entirely outside of the Project Sponsor's control. This deduction may be assessed for a period of up to three (3) calendar years (10 points each year) from the date of determination of non-compliance with the Committee Resolution.

(2) Where CTCAC has determined an Application for tax credits involving a Project Sponsor that has been or is a Related Party to a Project Sponsor who is subject to negative points under its regulations, CDLAC will deduct an equal amount of points for an equal period of time from tax exempt bond applications involving the Project Sponsor or a Related Party to the Project Sponsor.

(3) Where CTCAC has determined an Applicant for tax credits involving a Project Sponsor that has been a Related Party to a Project sponsor who is subject to any type of determination of ineligibility, CDLAC will recognize the length of ineligibility and apply it to the tax exempt bond applications involving the Project Sponsor or Related Party to the Project Sponsor.

§ 5231. Ranking.

After all Applications for Qualified Residential Rental Projects are evaluated pursuant to Section 5230, the Applications shall be ranked and may be awarded an Allocation as follows, except that a project shall not receive a bond allocation if it had requested and is not scheduled to receive an award of State Tax Credits:

(a) Applications for Rural Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for Rural Projects awarded the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the Rural Pool. Applications for Rural Projects not receiving an Allocation will not be eligible for consideration for an Allocation under subdivisions (b), (c) or (e) of this section.

(b) Applications for Preservation Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for Preservation Projects awarded the greatest number of points after factoring in the tiebreaker pursuant to 5231(g) as applicable shall be awarded an Allocation from the Preservation Project Pool. Applications for Preservation Projects not receiving an Allocation pursuant to this subdivision will not be eligible for consideration for an Allocation under subdivision (a), (c) or (e) of this section.

(c) Applications for Other Rehabilitation Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for Other Rehabilitation Projects awarded the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the Other Rehabilitation Pool. Applications for Other Rehabilitation Projects not receiving an Allocation pursuant to this subdivision will not be eligible for consideration for an Allocation under subdivisions (a), (b) or (e) of this section.

(d) Applications for BIPOC Projects will be ranked amongst themselves, and separately from Applications for all other Qualified Residential Rental Projects. Applications for BIPOC Projects awarded the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the BIPOC Pool. Applications for BIPOC Projects not receiving an Allocation pursuant to this subdivision shall be eligible for consideration for an Allocation under subdivisions (a), (b), (c), and (e) of this section. The number of awards received by individuals, entities, affiliates, and related entities in the BIPOC Pool is limited to no more than one (1) per competitive round and two (2) per year unless the pool is undersubscribed. This limitation is applicable to project applicants, developers, sponsors, owners, general partners, and to parent companies, principals of entities, and family members.

(e) Applications for Qualified Residential Rental Projects that are New Construction Projects, exclusive of Rural Projects, will then be ranked together. Applications receiving the greatest number of points after factoring in the ~~tie-breaker~~ tiebreaker pursuant to Section 5231(g), as applicable, shall be awarded an Allocation from the New Construction Pool in the following manner.

(1)(A) Set Aside application selection. Beginning with the top ranked application from the Homeless Set Aside, subject to the conditions in Section 5231(e)(1)(B), followed by the Extremely Low/Very Low Income Set Aside, and the Mixed Income Set Aside, the highest scoring applications in each Set Aside shall be awarded an Allocation pursuant to the procedures in Section 5231(f). A project that meets the criteria of both the Homeless Set Aside and the Extremely Low/Very Low Income Set Aside shall be eligible for an allocation from either Set Aside. If the Homeless Set Aside is undersubscribed in a competitive round the remaining funds will transfer to the Extremely/Very Low Income Set Aside. All New Construction Projects, exclusive of Rural Projects, that do not receive an allocation from a Set Aside shall be eligible for an allocation from their respective geographic region pursuant to subdivision (e)(2).

(B) For purposes of the Homeless Set Aside only, applications for projects in which at least 45% of the tax credit units are designated for homeless households as defined in Section 10315(b)(1)-(4) of the CTCAC regulations at affordable rents consistent with Section 10325(g)(3) of the CTCAC regulations shall be awarded an Allocation prior to any other application eligible for the Homeless Set Aside provided that those

California Debt Limit Allocation Committee Regulations

projects earn at least 95% (rounded down to the nearest whole number) of the maximum available points pursuant to Section 5230.

(2) Geographic region application selection. Bonds available in the New Construction Pool that are not reserved to a Set Aside shall be allocated to the highest ranking applications according to the geographic allocation described in Section 5022. Projects receiving an allocation in the Rural, Preservation, Other Rehabilitation, or BIPOC Pools or in the Homeless, Extremely Low/Very Low Income, and Mixed Income Set Asides shall not be counted towards the geographic apportionments.

(3) In the final allocation round of the year, any bonds remaining in any QRRP pool, Set Aside, or geographic region shall be allocated to the highest-ranking ~~New Construction~~ Project or Projects. Those amounts shall not be added to the respective QRRP pool, Set Aside, or geographic region in the following year, and any allocations pursuant to this paragraph shall not be subtracted from the geographic allocations in the following year.

~~(4) At the last allocation meeting of the year, the Committee shall establish a waiting list of new Construction Projects that have not received an allocation in the final allocation round, ordered from highest to lowest ranking.~~

(f) If the last project allocation in a Pool, Set Aside, or geographic region requires more than the bonds remaining in that Pool, Set Aside, or geographic region, those overages shall be subtracted from that Pool, Set Aside, or geographic region in determining the amount available in the Pool, Set Aside, or geographic region for the subsequent allocation round. The last project to be allocated in a Pool, Set Aside, or geographic region shall not receive an Allocation unless at least 80%, or 100% in the final round of the year, of the requested Allocation for that project is remaining in that Pool, Set Aside, or geographic region for that round. When the first or next highest-ranking project does not meet the 80% or 100% rule above, that project, as well as any subsequent projects in rank order that also do not meet the 80% or 100% rule, may be skipped over to the next highest-ranking project that meets the 80% or 100% rule. However, a project shall not be funded by this skipping process unless it has a point score within one point of the first project skipped and has a final tiebreaker score equal to at least 75% of the first skipped project's final tiebreaker score. If bonds within a Pool, Set Aside, or geographic region remain unallocated at the end of an allocation round, they shall be added to the subsequent round amounts in the same Pool, Set Aside, or geographic region. In the final allocation round of the year, the allocations within a Pool, Set Aside, or geographic region shall not exceed the amount of bonds available in the Pool, Set Aside, or geographic region.

(g) If two or more Applications are awarded the same total number of points, those Applications shall be ranked according to the highest amount of public benefit per dollar of cost-adjusted Bond and State Credit Allocation requested.

(1) A project's public benefit is the sum of all of the following:

(A) The project's unit production benefit, which is the product of the bedroom-adjusted number of tax credit units multiplied by \$50,000. To calculate a project's bedroom-adjusted number of tax credit units, the Committee shall first multiply the number of tax credit units of each bedroom count by the adjustment factor for units of that bedroom count. A project's bedroom-adjusted number of tax credit units shall be the sum of each of these products. The adjustment factors shall be .9 for a studio unit, 1 for a 1-bedroom unit, 1.25 for a 2-bedroom unit, 1.5 for a 3-bedroom unit (up to no more than 30% of the total units, then those additional units shall be counted as 2-bedroom units), and 1.75 for a 4-bedroom or larger unit (up to no more than 10% of the total units, then those additional units shall be counted as 2-bedroom units).

(B) The project's rent savings benefit, which is the product of the sum across all tax credit units of each unit's difference between the monthly fair market rent established by HUD for the county in which the project is located and the area median income monthly gross rent limit for that unit at the targeted rent level for the appropriate bedroom size, all calculated according to the methodology

California Debt Limit Allocation Committee Regulations

for tax credit rents, multiplied by 180. If this calculation results in a negative number for any particular unit, then the rent savings benefit for that unit shall not be lower than zero. Units with federal project-based rental assistance shall be assigned targeted rent levels of 30% AMI regardless of their actual income targeting. If the average affordability of tax credit units, exclusive of units with rental assistance, is less than 40% AMI, then the calculation shall assume a targeted rent level of 40% AMI for each tax credit unit that does not have rental assistance.

(C) The project's population benefit, which is comprised of an ELI benefit and a special populations benefit.

1. The ELI benefit is the product of the number of tax credit units targeted at 30% of AMI or below, limited to no more than 50% of tax credit units, multiplied by \$20,000.
2. The special populations benefit is the product of the number of tax credit units restricted to persons with Special Needs, as defined in Section 10325(g)(3) of the CTCAC regulations, or veterans, limited to no more than 50% of tax credit units, multiplied by \$10,000.

(D) The project's location benefit, which is comprised of a Resource Area benefit, a Community Revitalization Area benefit, and a transit/walkability benefit. If a project is eligible for both a Resource Area benefit and a Community Revitalization Area benefit, the applicant shall select only one of these benefits. The Resource Area benefit and Community Revitalization Area benefits shall not be additive.

1. The Resource Area benefit is one of the following:

- (i) The product of the bedroom-adjusted number of tax credit units in a Large Family or Permanent Supportive Housing Project located in a Highest Resource Area as specified on the CTCAC/HCD Opportunity Area Map multiplied by \$30,000.
- (ii) The product of the bedroom-adjusted number of tax credit units in a Large Family or Permanent Supportive Housing Project located in a High Resource Area as specified on the CTCAC/HCD Opportunity Area Map multiplied by \$20,000.
- (iii) The product of the bedroom-adjusted number of tax credit units in a Large Family or Permanent Supportive Housing Project located in a Moderate Resource Area as specified on the CTCAC/HCD Opportunity Area Map multiplied by \$10,000. An applicant may choose to utilize the census tract or census block group resource designation from the CTCAC/HCD Opportunity Maps in effect when the initial site control was obtained up to seven calendar years prior to the application.

2. The Community Revitalization benefit is the product of the bedroom-adjusted number of tax credit units that are located in a Community Revitalization Area and are a component in the Area's Community Revitalization Plan multiplied by \$20,000.

- (i) A project is ineligible for this benefit if it receives a Resource Area benefit.
- (ii) A project is ineligible for this benefit if it receives a Community Revitalization Area benefit.

3. The transit/walkability benefit is the sum of the following:

California Debt Limit Allocation Committee Regulations

(i) The product of the bedroom-adjusted number of tax credit units within the project, multiplied by the number of transit site amenity points the project receives pursuant to Section 5230(m), multiplied by \$4,000;

(ii) The product of the bedroom-adjusted number of tax credit units within the project, multiplied by the number of non-transit site amenity point categories for which the project is eligible for the maximum points pursuant to Section 5230(m) (see CTCAC regulation Section 10325(c)(4)(A)2. through 9.), multiplied by \$4,000. For purposes of this subdivision, the site amenity distances shall be measured by a walkable path;

(iii) The product of the bedroom-adjusted number of tax credit units included with a project that has received an award from HCD's Transit Oriented Development Program or Affordable Housing and Sustainable Communities Program, or that is located within $\frac{1}{4}$ mile of a transit stop with service at least every 30 minutes during peak hours (or at least two departures during each peak period for a commuter rail station or ferry terminal) or within $\frac{1}{2}$ mile of a transit stop with service at least every 15 minutes (or at least four departures during each peak period for a commuter rail station or ferry terminal) multiplied by \$25,000. For purposes of this subdivision, a "transit stop" is a bus rapid transit station, light rail station, commuter rail station, ferry terminal, bus station, or public bus stop, and "peak hours" are from 7:00 a.m. to 9:00 a.m. and from 4:00 p.m. to 6:00 p.m., Monday through Friday.

The documentation must be specific and may include, but is not limited to, a site plan detailing the layout of the subject property, unit mix per stage of the phase, any unique features of the property which inhibits phasing, a description of infrastructure costs, and a cost breakdown by phases.

Chapter 3. Single Family Housing

Article 1. Definitions

§ 5260. Definitions.

In addition to the definitions set forth in Government Code section 8869.82 and unless otherwise required by the context, the following terms as used in this chapter are defined as follows:

“Applicable Median Family Income” means the applicable median family income defined by 26 U.S.C. section 143(f)(4), except that the definition of income contained in subdivision B of 26 U.S.C. section 143(f)(4) shall not apply to Applicants for a Single Family Housing Program.

“Fair Share Allocation Amount” means the amount of Allocation each Local Issuer shall receive pursuant to the Fair Share Basis definition.

“Fair Share Basis” means that each county shall receive a proportionate share of the amount reserved for Local Issuers based on the population of the county relative to the State's total population. Populations will be based on data published by the California State Department of Finance Demographics Unit. Where there is more than one Local Issuer in a county, each Local Issuer shall receive a proportionate share of the county's reservation based on the population of the jurisdictions served by an Issuer relative to the county's total population, or as agreed upon by the participating Local Issuers.

“Homeownership Assistance” means financial assistance, including down-payment assistance, closing cost assistance, soft-second financing for the purchase of a home, or such alternative homeownership assistance as proposed by the Applicant in the Application and approved by the Committee. The Homeownership Assistance must; one, be in a minimum amount of \$7,500 or 3% of the purchase price of the home, whichever is greater; two, be structured in the form of either a grant or a deferred payment loan where the payment of principal and interest is deferred until such time as the home is sold or re-financed; and three, include an incentive, to be proposed by the Applicant, for Program Participants to fully perform the three (3) year service commitment. Applicants will not be required to establish a distinct and separate homeownership program; existing programs may be used. The Committee may delegate to the Chair or to the Executive Director of the Committee the authority to accept and consider homeownership assistance of different types or characteristics than those specifically enumerated or required by this definition. The Committee may establish, or concur with the establishment of, higher assistance limits to ensure program participation in high cost areas.

“MCC Application” means the Application titled “Application for an Allocation of the State Ceiling on Qualified Private Activity Bonds for a Mortgage Credit Certificate Program” (revised 03 15 2018), which is hereby incorporated by reference.

“MRB Application” means the Application titled “Application for an Allocation of the State Ceiling on Qualified Private Activity Bonds for a Single-Family Housing Bond Program” (revised 11 30 2018), which is hereby incorporated by reference.

“Performance Achievement Index” means the percentage of households that participated in a Single Family Housing Program having met the goals set forth in section 5266 expressed as a percentage of the minimum goal committed to by the Applicant. For example, if the number of households earning eighty percent (80%) or less of the Applicable Median family Income of the area consisted of only 38% of the participants in a program, then based on a committed goal of 40%, the Performance Achievement Index would equal 95% (38% divided by 40%).

Article 3. Eligibility Requirements

§ 5420. Justification of Tax-Exempt Funds.

Article 5. Allocation Procedure

§ 5440. Ranking.

Upon a determination that an Application has met the minimum requirements set forth in article 3 and article 4 of this chapter, Allocations from the Exempt Facility Project Pool will be ranked using the following criteria:

(a) Allocations will be first awarded to Applications in which the Project Sponsor is a First Tier Business, and the Exempt Facility Project proposed by the Application is in direct response to a Regulatory Mandate.

California Debt Limit Allocation Committee Regulations

(b) If any part of the Exempt Facility Project Pool remains unallocated after the Committee makes the Allocations under subdivision (a) of this section, the Committee will then consider other Applications in which the Project Sponsor is a First Tier Business, but the proposed Exempt Facility Project is not in response to a Regulatory Mandate.

(c) If any part of the Exempt Facility Project Pool remains unallocated after the Committee makes the Allocations pursuant to subdivisions (a) and (b) of this section, the Committee will then consider Applications in which the Project Sponsor is not a First Tier Business, but the Exempt Facility proposed by the Application is in direct response to a Regulatory Mandate.

(d) If any part of the Exempt Facility Project Pool remains unallocated after the Committee makes the Allocations pursuant to subdivisions (a), (b), or (c) of this section, the Committee will then consider all other Applications for Exempt Facility Projects.

NOTE: Authority cited: Section 8869.94, Government Code. Reference: Section 8869.84(c), Government Code.

Article 2. Eligibility Requirements

§ 5460. Application Process.

Applications for an Allocation of the Student Loan Program Pool shall be considered in accordance with the provisions of chapter 1 and the submission of a Student Loan Application.

NOTE: Authority cited: Section 8869.94, Government Code. Reference: Sections 8869.84(c), 8869.85(a) and 8869.85(b), Government Code.

§ 5461. Minimum Requirements.

In order to be considered for an Allocation for a Student Loan Program, an Applicant must meet the following minimum requirements:

(a) California Non-profit Status. Must be a California nonprofit corporation organized pursuant to section 150(d) of the Internal Revenue Code of 1986, as amended, that possesses the authority to directly or indirectly make or finance student loans under the Higher Education Act of 1965, as amended, or be a state agency.

(b) CEFA Requirement. Before applying to the Committee for allocation of a portion of the State Ceiling pursuant to Government Code section 8869.82 and 8869.85, an entity that is seeking to issue qualified scholarship funding bonds must first obtain CEFA board approval, pursuant to Title 4, California Code of Regulations, section 9073(a), unless such entity became a qualified scholarship funding corporation as defined in subsection (d) of section 150

California Debt Limit Allocation Committee Regulations

of Title 26 of the United States Code prior to January 1, 2006. CEFA may in its discretion determine not to grant approval to any entity regardless of whether the entity meets the threshold criteria as an Eligible Candidate as defined in Title 4, California Code of Regulations, section 9072(b). CEFA will consult and coordinate with the Committee prior to making a final determination.

(c) A portfolio itemizing the total dollar amount and corresponding percentage of student loans originated by the Applicant which assist financially needy borrowers in California. The data relied upon may be direct or derived from sources deemed by the Executive Director to be accurate.

(d) A proposal of interest rates and other discounts (time period is the next academic year commencing July 1 following the award of Allocation), a description and dollar amount of discounts (i.e. interest rate, guarantee fee, origination fee, etc.). Note: Information will be used in analysis of Application in the subsequent year.

(e) A description of marketing activities and status as a lender, anticipated total dollar amount and number of student loans made to two year, four year and other schools, the eligibility requirements for a loan, the benefits to student borrowers, the mechanism(s) or system(s) for the direct delivery of loans to eligible students and any other features unique to the Program.

(f) Demonstrate actual participation in the California Student Loan Market using the STUDENT MARKETMEASURE Standard Report 10D or other sources deemed by the Executive Director to be accurate. Applicant must include information from the most recently completed federal fiscal year with their Application.

(g) Completion of the Student Loan Self-Scoring Sheet to show what they anticipate to receive in allocation.

NOTE: Authority cited: Section 8869.94, Government Code. Reference: Sections 8869.84(c), 8869.85(a) and 8869.85(b), Government Code.

Article 3. Evaluation Criteria

§ 5470. Evaluation and Ranking.

The following criteria will be used to evaluate, rank, and award Allocations from the Student Loan Program Pool:

(a) Allocations from the Student Loan Program Pool will be first awarded to Applications in which the Applicant is a Direct Lender and evaluated based on the following criteria:

(1) The total dollar amount and number of student loans originated by the Applicant in California. The data relied upon will be derived from the STUDENT MARKETMEASURE Standard Report 10D or other sources deemed by the Executive Director to be accurate. The time period shall be the most recently completed federal fiscal year. The Applicant's pro-rata share of the Student Loan Program Pool will in part be determined by the total dollar amount of student loans originated in California. The Committee will consider the incongruity between the federal fiscal year and the Allocation Round when evaluating the data.

(2) Proposed total cost of borrowing per borrower for the next academic year. This cost estimate should include origination fees, interest costs, and all other fees or expenses incurred by a borrower.

(3) Previous year average interest rate. Information provided must refer to the time period of the current academic year. In addition, this information must include averages and weighted averages for the following figures for each student loan program:

(A) Statutory interest rate.

California Debt Limit Allocation Committee Regulations

(B) Total discount

(C) Discounted interest rate.

For this time period, the Applicant must show the percentage breakdown of usage for all federal student loan programs: Subsidized Stafford, Unsubsidized Stafford, PLUS Parent and PLUS Graduate. This breakdown will be used to determine the weighted averages for the aforementioned figures.

(4) Comparison of Proposed and Actual Interest Rate. The weighted averages will be used to determine whether or not the Applicant was within 25% of the discounted interest rate that they proposed in the prior year. Based on the Committee's assessment, an Applicant could be rewarded and/or penalized for the actual discounted interest rate they provided during the current academic year.

(5) The extent to which the Applicant timely disburses student loans as evidenced by its use of previous and existing allocations from the Committee for direct lender student loan programs. The Committee will evaluate the impact of unused Bond proceeds on the Applicant's present demand for Allocation.

(b) Subsequent to the determination made pursuant to subdivision (a) of this section, Allocation that remains unallocated will then be considered for Applications in which the Applicant is a purchaser of student loans in the secondary market and evaluated based on the following criteria:

(1) The degree to which financially needy students benefit based on an evaluation of the percentage of borrowers with subsidized Stafford loans currently held in portfolio versus borrowers with only unsubsidized Stafford loans.

(2) The use of recycled funds for additional programs that may benefit students other than loan purchase programs, such as grants, new loans, scholarships, student outreach, and borrower benefit programs offered by the Applicant.

(3) The leveraging of the Qualified Private Activity Bond Allocation awarded to the Applicant through the use of taxable bonds and other taxable securities.

(4) The extent to which the Applicant has timely and effectively used previous and existing allocations from the Committee for secondary market loan purchase programs.

§ 5620. Scoring Criteria.

Upon a determination that an Application meets the minimum requirements pursuant to Section 5610, Applications will be scored based on the following criteria:

California Debt Limit Allocation Committee Regulations

(a) Past Program Performance. For each allocation round, programs will be evaluated based on the percentage of the previous year's allocation used by each applicant in comparison to the percentage of the previous year's allocation used by the other applicants in the allocation round.

(b) Actual Versus Proposed Average Interest Rate and Loan Amount. For each allocation round, programs will be evaluated and ranked based on each applicant's deviation between the currently proposed and previous year's actual average interest rates, as well as the currently proposed and previous year's actual average loan amount, in comparison to the allocation round's other applicants' proposed and previous year's actual average interest rates and currently proposed and previous year's actual average loan amount.

(c) Additional Points. In a competitive application round, additional points will be awarded to Applicants that commit to the goal of providing allocation to Beginning Farmers that provide the following public benefits:

(1) Job Creation. A maximum of 20 points will be awarded to programs that use a substantial portion of allocation for programs that will add jobs to local economy (one point per job with a maximum of 20 points). Points will be awarded in the following manner:

(A) one (1) point will be awarded for each full time job;

(B) part time jobs will receive a tenth of a point, rounded to the nearest tenth of a point, based on the job's full time equivalency.

(2) Borrower Preparation. A maximum of 15 points will be awarded to programs that provide a technical assistance component for the following areas:

(A) Five (5) points will be awarded to Applicants that make available financial management education and/or training;

(B) Five (5) points will be awarded to Applicants that make available land management education and/or training; and/or

(C) Five (5) points will be awarded to Applicants that make available resource conservation education and/or training.

(D) Evidence of the aforementioned technical assistance program(s) shall be submitted with the application and shall include, but is not limited to, third-party contracts or agreements for the provision of training, training schedules, program curricula and narratives describing the training programs and written assurance of the education/training provider that beginning farmers will be eligible for the education/training for a minimum period of twenty-four (24) months after the beginning farmer's financing is approved by the Applicant.

(3) Farm to Fork. Nine (9) points will be awarded to Applicants that use a substantial portion of allocation for programs that establish or enhance farming operations producing edible agricultural commodities for sale and consumption within 200 miles of the farming operations financed by proceeds from a beginning farmer bond. Evidence of the program shall be submitted with the application and shall include, but is not limited to, a description of the program identifying how the program will operate, proposed buyers and sales contracts.

AGENDA ITEM 8

Supplemental Bond Allocation

Request Above the Executive

Director's Authority

(Cal. Code Regs., tit. 4, §5240)

CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE*August 6, 2024***Supplemental Bond Allocation Request Above the Executive Director's Authority****(Cal. Code Regs., tit. 4, §5240)**

(Agenda Item No. 8)

BACKGROUND:

Pursuant to California Code of Regulations, title 4, section 5240(a), requests for Supplemental Allocations for Qualified Residential Rental Projects may be submitted to the California Debt Limit Allocation Committee (CDLAC) during any Allocation Round throughout the year. Staff is required to review each request for Supplemental Allocation and make a recommendation to CDLAC regarding any possible award of additional Allocation. CDLAC has delegated authority to the CDLAC Interim Executive Director to award Supplemental Allocation to projects where the total supplemental request is no more than 10% of the project's original allocation and no more than 52% of the aggregate depreciable basis plus land basis, pursuant to California Code of Regulations, title 4, section 5240(b). The CDLAC Interim Executive Director oversees the administration of CDLAC and is responsible for ensuring the various functions of CDLAC are carried out. Awards of Supplemental Allocations are required to be memorialized in a CDLAC resolution. All applicable requirements imposed on the associated initial project Allocation, including, but not limited to, the expiration of the Allocation, bond issuance deadlines, extensions, transfers of Allocation, carry-forward elections, and reporting will be equally applicable to Supplemental Allocations.

DISCUSSION:

Five applicants requested a Supplemental Allocation above the Executive Director's authority. Staff has reviewed the applications for compliance and accuracy. The project's applicants have submitted letters to support their requests.

RE: Supplemental Allocation and Request for 90-day Extension - Resolution No. 23-255

Request for 90-day Extension

Klein Financial Corporation (the “Developer”) respectfully requests a 90-day extension to the current CDLAC closing deadline of September 3, 2024. In addition, we request a waiver of any forfeiture of the performance deposit or assignment of any negative points to the Project Sponsor that could be imposed by this request. The project’s costs have increased dramatically and we are restructuring the capital stack to achieve feasibility and if we are granted the supplemental allocation, then the project will need additional time to coordinate with its lender and investor.

Also, the project continues to work with its engineer, architect, contractor, and subcontractors to reduce costs with value engineering which need to be processed through the City of Vallejo.

Supplemental Allocation (revised 40-unit project)

The West Harbor Park property will consist of 122 residential units located in 3 new residential apartment buildings. 20% of the units will be restricted to tenants earning less than 50% AMI and will be owned by a separate partnership from the market rate units under the legal name of West Harbor Park Affordable Partners LP to be able to separately allocate the tax credits. The West Harbor Park Affordable Apartments project will consist of the 24 affordable units, plus one manager unit within the 122-unit West Harbor Park development

In August 2023, the partnership submitted a CDLAC application for only the 24 restricted units (20% set aside) to minimize the amount of bond allocation requested. The project was awarded a \$3,925,000 (**\$163,541/unit**) allocation on 12/6/23 and subsequently received a 90-day extension with a new issuance deadline of 9/3/24.

Construction and interest expense costs have increased dramatically and to partially offset these costs, we plan to convert 16 of the market rate units to tax credits units using the LIHTC income averaging rule to generate additional tax credit equity. To satisfy the 50% test on the revised 40-unit tax credit affordable property, the project submitted a supplemental allocation request for \$5,225,000 which equates to an overall CDLAC allocation per unit figure of **\$228,750/unit** which is a very efficient execution.

- Approximately \$2,700,000 of the supplemental request is for the original 24 units and;
- Approximately \$2,525,000 of the supplemental request is for the new 16 units

The gross amount of the supplemental request is relatively small, and we are creating 16 additional tax credit units. The increase requested is consistent with other, recent, supplemental requests that have been approved. For example, a property in Hollywood recently received a supplemental allocation of \$11,500,000 with a tax-exempt bond allocation of approximately \$510,000/unit. Another project in Los Angeles has received 2 supplemental allocations totaling approximately \$10,400,000 with a tax-exempt bond allocation of approximately \$660,000/unit.

Therefore, given the increase in costs, the requirement to satisfy the 50% test and the 66.67% increase in affordable units generated, we respectfully request approval of the supplemental allocation. **It is essential that the reviewers realize, there is no alternative mechanism – other than the Supplemental Request Process – to increase the number of affordable units in a project (consistent with the Mandate of the Committee to maximize the number of affordable units), once a project sponsor has received a bond allocation.** Note: The project is not receiving any state tax credits or other forms of government grants/subordinate loans and as part of our feasibility agreement with our equity partner, we agreed to increase the number of tax credit units.

Supplemental Allocation (existing 24-unit project)

If the supplemental request outlined above for the 40-unit project is not allowed, then we would like to request \$2,725,000 in supplemental tax-exempt bonds for the existing previously approved 24-unit project. This request is over 10% of the original bond allocation but below previously approved supplemental percentages (73.3% SUP% City of LA project) granted by the committee. As outlined above, the project's development costs have increased substantially and with the approved supplemental bond allocation, the project will finance 52.36% of the aggregate basis with tax-exempt bonds. With the supplemental allocation the total approved bonds would be \$6,650,000 (\$277,083/unit) which is at or below industry averages.

We have been working on this project since June 2019 and have incurred significant predevelopment costs and are hopeful that we can move forward now with the construction of 40 new affordable tax credit units; but, if the Committee elects not to approve the 40 unit application, we request that the increased allocation for the 24 unit application be approved. The time extension will be necessary in either case, since the finalization of the closing documents with our lender and investor must wait for the result of this hearing, to make the final adjustments and schedule the closing dates.

To the best of our recollection, in the past 45 years, Klein Financial Corporation has not requested a supplemental allocation. We appreciate your consideration of this request.

Sincerely,

Re: Request for approval of supplemental bonds above the Executive Director's (Cal. Code regs. Title 4, section 05240(b)(1))
Project: 710 Broadway
Applicant: 710 Broadway Development Co., LLC
Original Resolution Number: 22-155

Dear Ms. Wiant:

In February of 2022, Related California Residential and the Santa Monica-based non-profit developer Community Corporation applied to the California Tax Credit Allocation Committee ("TCAC") and the California Debt Limit Allocation Committee ("CDLAC") for an allocation of tax-exempt bonds and low-income housing tax credits. On June 15th, 2022, CDLAC and TCAC awarded the project a reservation of 4% low-income housing tax credits and an allocation of tax-exempt bonds. Since the project applied to CDLAC and TCAC in February of 2022, construction costs have escalated at an unprecedented rate and the federal reserve has raised interest rates at a pace that has not been seen since the early 80s. There was no way these substantial headwinds could have been predicted. In addition, the scope of building became more complex to design and construct than anticipated. These factors have resulted in nearly a \$19 Million aggregate increase in the overall budget.

The project's original resolution awarded \$14,415,236 of tax-exempt bonds. The applicant is requesting an additional \$9,823,160 in a supplemental allocation of tax-exempt bonds for a revised tax-exempt bond allocation of \$24,238,296. With the approval of a supplemental bond allocation, the project will finance 52.0% of the aggregate basis with tax-exempt bonds. In accordance with CDLAC regulations, committee approval is required for a total supplemental request that exceeds 10% of the projects committee-approved allocation. Please accept this letter as a formal request to obtain authorization to exceed the limit so that the project can maintain feasibility and deliver the new construction of 57 much-needed below market rate units to the City of Santa Monica, which is dramatically under-supplied with quality affordable housing. It should also be noted that the project is providing 28 moderate income units, which are not part of the tax-exempt bond financing package, in one of the first and only models of a true mixed-income project.

Thank you for your consideration and we are available as needed to address further questions.

Sincerely,

Re: Vintage at Folsom (Resolution No. 23-261)

Dear Ms. Wiant:

I represent the sponsor of the above referenced project. On December 6, 2023 the California Debt Limit Allocation Committee (CDLAC) allocated \$21,612,924 in tax-exempt bonds to the project. Earlier this month we submitted a request for a supplemental allocation to be considered at the August 6, 2024 CDLAC meeting. Working toward closing this week realized we had utilized an outdated model for that request and are now submitting this request to modify our supplemental request. A corrected Attachment 15 and Attachment 40 are attached reflecting the following:

As the project has moved toward bond issuance changes it has been determined that due to changes in the financial environment and final bids from the general contractor that the allocated bonds will not be sufficient to meet the 50% test. The development team has modified the construction loan structure to mitigate the increase in construction loan interest and identified some additional sources to address the other increased costs but still requires a supplemental bond allocation in the amount of \$5,393,566 to meet the 50% test and maintain the project feasibility. With the approval of this supplemental bond allocation the project will finance 52% of its aggregate basis with tax-exempt bonds but because the supplemental allocation request exceeds 10% of the original allocation (24.96%) CDLAC regulations require it be approved by the committee.

Please accept this letter as a formal request to modify our previously submitted supplemental request and approve a supplemental bond allocation in the amount of \$5,393,566 for the Vintage at Folsom project so that the project can move forward and provide 135 units of much needed affordable senior housing in the Folsom community.

I appreciate your consideration of this request and am available to discuss if helpful.

Sincerely,

Re: Kawana Springs Apartments (500 Kawana Springs Rd., L.P.)
Project No. 20-520
10% Supplemental Bond Threshold Waiver Request

To Whom it May Concern:

We have submitted a Supplemental Application for an allocation of additional Tax-Exempt Bonds and 4% Tax Credits for Kawana Springs Apartments, CDLAC Application #CA-20-520, which is nearly construction complete. The \$4,456,125.00 request of additional tax-exempt bonds is an increase of 11.65% over the original \$38,250,000.00 award. This is the first and only supplemental request being made for this development. The additional bonds are required for the project to meet the 50% test due to significant cost increases since the start of construction in late 2020.

This request is a direct result of COVID-19, two extraordinary weather events causing "rain bombs" and the 20%+ inflationary events over the last several years. These unprecedented challenges, are the driving factors of the supplemental bond request for 11.65%, which exceeds the 10% threshold for Committee approval.

While the development has faced unexpected and unprecedented delays and challenges, it is scheduled to be complete in August and fully leased by the end of the year.

RE: Rancho Sierra Senior Apartments Application No. 22-438 Supplemental Qualified
Private Activity Bond Allocation Request

Dear, Treasurer Ma,

Rancho Sierra Senior Apartments was originally awarded \$18,319,798 of Qualified Private Activity Bonds in Resolution No. 22-111, adopted on June 15, 2022. Following this, Many Mansions ("the Sponsor") received a supplemental allocation of \$1,372,702 from the 2023 Qualified Private Activity Bonds, bringing the total allocation to \$19,692,500, as per Resolution 23-103, adopted on February 6, 2023.

The Rancho Sierra Senior Apartments project, aimed at providing essential affordable housing for low-income seniors and seniors experiencing homelessness, has encountered unforeseen challenges that have significantly increased costs. These difficulties have jeopardized the project's timely completion and financial stability, necessitating additional bond financing.

We are now seeking a second supplemental bond allocation due to unforeseen events, including unknown existing subterranean utility infrastructure conditions that have escalated construction costs.

Project Progress and Initial Developments

The project commenced successfully with the securing of a construction loan on March 10, 2023, followed by the issuance of the Notice to Proceed to Cannon Constructors on April 19, 2023. The completion of a prototype unit for design review on April 1, 2023, and the initiation of construction on May 11, 2023, indicated a promising start.

Upon the discovery of non-conforming utility infrastructure omitted from the survey, the project experienced a 130-day delay. This delay was due to a conflict between the Camrosa Water District's existing specifications and future specifications required for compatibility with the County of Ventura's Lewis Road Campus Infrastructure Project. The technical jurisdiction to provide these specifications was the responsibility of the Water District, which deferred assignment to the County of Ventura. The County, responsible for inspections and sign-off, could not provide these specifications prior to the commencement of upgrades.

Upon resolution of the required specifications and an updated construction timeline, the project site began to receive the shipment of the modular structures on the adjacent staging parcel. Building permits were ultimately issued on October 10, 2023, 130 days beyond the original date, causing a considerable impact on extended overhead and general conditions. This, in turn, delayed the installation

of the modular structures into the rainy season, which historically runs between December through March.

Unanticipated Weather-Related Challenges

Due to this 130-day delay, water protection of the modular structures became a significant concern for the Project's Development Team. Preparations were made to mitigate any challenges during the stacking of the structures and the installation of the permanent TPO roof. Despite the Team's best efforts, the project encountered significant setbacks beginning with a severe rainstorm on January 20, 2024. This storm inflicted substantial interior damage to the units due to considerable water infiltration.

Extensive Remediation Efforts

In response to the storm damage, ATI Restoration LLC conducted a comprehensive moisture mapping assessment on February 12, 2024, which revealed elevated moisture levels and extensive water damage. Subsequently, Charles Taylor Environmental performed a detailed moisture assessment on February 19, 2024, confirming the necessity for extensive remediation work. The initial remediation estimate was \$589,067.09, with the complexity of the situation indicating further inevitable costs.

Impact of Subsequent Storm Events

Despite enhanced waterproofing measures, a second major rainstorm occurred on March 23, 2024, causing additional water damage to the structures. This event exacerbated the remediation efforts and increased costs, resulting in a revised remediation estimate of \$1,227,138.33. The repeated water intrusion necessitated a comprehensive review of the building's waterproofing and structural integrity, further delaying progress and escalating expenses.

Compounding Costs and Delays

The unanticipated weather events and subsequent remediation efforts have led to substantial project delays and increased costs. These challenges were further compounded by issues with the installation of windows by Factory OS, necessitating corrective actions and extending the project timeline. The water damage on both occasions was extensive, affecting all units and requiring immediate remediation and repair, including mold treatment, drywall remediation, electrical work, insulation, and painting.

The remediation work has concluded after the successful issuance of clearance certificates from Charles Taylor, and restoration work is currently ongoing alongside the General Contractor's construction activities. Both contractors are working strategically to minimize the impact on the Project's critical path. This situation has caused a serious financial strain on the project, and Many Mansions has provided the necessary financing to prevent further delays. The Development Team has been working tirelessly and diligently to structure a financial plan that will ensure the successful completion of this project.

Request for Supplemental Bond Financing

The Rancho Sierra Senior Apartments project represents a critical lifeline for vulnerable seniors in need of safe, affordable housing. The added costs and delays have imposed an immense financial burden on Many Mansions due to the limited Builder's Risk coverage, specifically due to the stated policy sub-limit of \$750,000 for each of the loss dates described above, representing Builder's Risk Claim #01 and

Builder's Risk Claim #02. These sub-limits will provide \$1,500,000 of insurance proceeds, which are entirely inadequate to address the overall impact of the hard construction cost increase of \$6,869,939 alone. To address this financial gap, Many Mansions is requesting this supplemental bond financing to ensure we can successfully complete Rancho Sierra Senior Apartments and deliver these new units to our community.

To address the financial challenges without compromising the 50% test rule, we are seeking an additional allocation of supplemental tax-exempt bonds. **The total supplement request from the 2024 State Ceiling of Qualified Private Activity Bonds is \$6,055,500.**

(Agenda Item No. 9)

Action:

Approve bond issuance deadline extension requests and waiver of the forfeiture of the performance deposit on listed projects.

BACKGROUND:

Pursuant to California Code of Regulations, title 4, section 5100, there are certain expirations date for issuing Qualified Residential Rental Project Bonds days depending on the circumstances at the time of allocation.

Per the resolutions for each project, if the bond allocation transferred to the applicant has not been issued by the issuance deadline, the applicant shall notify CDLAC and carryforward the allocation to the next approved project to be awarded a bond allocation in accordance with California Code of Regulations, title 4, Section 5133.

Per section 5051 of the CDLAC Regulations, an extension of the expiration date for Qualified Residential Rental Bonds granted pursuant to Section 5101 or 5132 will result in forfeiture of the Project's performance deposit to the extent that the performance deposit has not previously been forfeited.

DISCUSSION

The applicants for the projects below are requesting bond issuance deadline extensions and waivers of performance deposit forfeitures outside of the Executive Director's authority. All the allocations for the projects were awarded on December 6, 2023; except for CA-24-553 Pacific Street Apartments Four which will be awarded at the August 6, 2024 Round 1 QRRP Meeting, and the supplementals for 801 E. 5th Street (CA-23-401, CA-23-679, CA-24-579) which were awarded on October 12, 2023, November 8, 2023 and May 31, 2024.

RE: Request for 5-Day Hardship Extension for 803 E. 5th St (23-109, 23-227 and 24-122)

Dear Mrs. Selby:

CRCD 5th Street LP respectfully requests an allocation expiration date extension of five (5) additional days from our current August 6th closing deadline due to unforeseen challenges per Section 5101 of the California Debt Limit Allocation Committee Regulations. This request applies to supplemental allocations under resolutions 23-109, 23-227, and 24-122. This would make our new mandatory closing date Tuesday, August 13, 2024.

Our project, 803 E. 5th St., has been impacted by uncontrollable and unforeseeable circumstances during the escrow closing process regarding the restructuring of the development's limited partnership and financing. We have been able to progress the closing to just a few remaining open items, but require more time to finalize the key elements of the limited partnership agreement given the complex nature of the exiting General Partner and the entering Administrative General Partner.

This makes it impossible for us to finalize the issuance of the supplemental bonds awarded under resolutions 23-109, 23-227, and 24-122 by the required August 6th, 2024, deadline.

Request for Waiver of Forfeiture of Performance Deposit

In addition to the request for an extension, we would also like to take this time to request a waiver of the forfeiture of our performance deposit. We believe that we have performed to the best of our abilities to push this project forward and are committing significant financial resources from our own operating capital to ensure a successful closing.

Should you have any questions, please contact Alejandro Martinez, (323) 842-4774 or email alejandro@crcdpartners.com.

Request for 5- day Hardship Extension of Allocation Expiration date and a Waiver of the Forfeiture of the Performance Deposit and Negative Points

Dear Ms. Wiant:

On behalf of the sponsor for the 803 E. 5th St (the “Project”) and in accordance with Section 5101 of the California Debt Limit Allocation Committee (CDLAC) Regulations, the City of Los Angeles (the “City”) requests a five (5) days extension of the allocation expiration date from August 6, 2024 to August 13, 2024, and a waiver of the forfeiture of performance deposit and negative points.

The City’s request is based upon sponsor’s written request (attached) which is due to uncontrollable and unforeseeable circumstances.

The City and the project team are working diligently to resolve all outstanding matters in order to close financing and comply with CDLAC’s bond issuance deadline. In light of the foregoing, we respectfully request a 5-day extension of City’s bond closing deadline through August 13, 2024.

The City of Los Angeles very much appreciates your consideration of this request. Please indicate your approval (and/or additional conditions) under separate cover. If you have any questions related to this matter, you can contact Cecilia Rosales of my staff at (213) 808-8189.

RE: Supplemental Allocation and Request for 90-day Extension - Resolution No. 23-255

Request for 90-day Extension

Klein Financial Corporation (the "Developer") respectfully requests a 90-day extension to the current CDLAC closing deadline of September 3, 2024. In addition, we request a waiver of any forfeiture of the performance deposit or assignment of any negative points to the Project Sponsor that could be imposed by this request. The project's costs have increased dramatically and we are restructuring the capital stack to achieve feasibility and if we are granted the supplemental allocation, then the project will need additional time to coordinate with its lender and investor.

Also, the project continues to work with its engineer, architect, contractor, and subcontractors to reduce costs with value engineering which need to be processed through the City of Vallejo.

Supplemental Allocation (revised 40-unit project)

The West Harbor Park property will consist of 122 residential units located in 3 new residential apartment buildings. 20% of the units will be restricted to tenants earning less than 50% AMI and will be owned by a separate partnership from the market rate units under the legal name of West Harbor Park Affordable Partners LP to be able to separately allocate the tax credits. The West Harbor Park Affordable Apartments project will consist of the 24 affordable units, plus one manager unit within the 122-unit West Harbor Park development

In August 2023, the partnership submitted a CDLAC application for only the 24 restricted units (20% set aside) to minimize the amount of bond allocation requested. The project was awarded a \$3,925,000 (**\$163,541/unit**) allocation on 12/6/23 and subsequently received a 90-day extension with a new issuance deadline of 9/3/24.

Construction and interest expense costs have increased dramatically and to partially offset these costs, we plan to convert 16 of the market rate units to tax credits units using the LIHTC income averaging rule to generate additional tax credit equity. To satisfy the 50% test on the revised 40-unit tax credit affordable property, the project submitted a supplemental allocation request for \$5,225,000 which equates to an overall CDLAC allocation per unit figure of **\$228,750/unit** which is a very efficient execution.

- Approximately \$2,700,000 of the supplemental request is for the original 24 units and;
- Approximately \$2,525,000 of the supplemental request is for the new 16 units

The gross amount of the supplemental request is relatively small, and we are creating 16 additional tax credit units. The increase requested is consistent with other, recent, supplemental requests that have been approved. For example, a property in Hollywood recently received a supplemental allocation of \$11,500,000 with a tax-exempt bond allocation of approximately \$510,000/unit. Another project in Los Angeles has received 2 supplemental allocations totaling approximately \$10,400,000 with a tax-exempt bond allocation of approximately \$660,000/unit.

Therefore, given the increase in costs, the requirement to satisfy the 50% test and the 66.67% increase in affordable units generated, we respectfully request approval of the supplemental allocation. **It is essential that the reviewers realize, there is no alternative mechanism – other than the Supplemental Request Process – to increase the number of affordable units in a project (consistent with the Mandate of the Committee to maximize the number of affordable units), once a project sponsor has received a bond allocation.** Note: The project is not receiving any state tax credits or other forms of government grants/subordinate loans and as part of our feasibility agreement with our equity partner, we agreed to increase the number of tax credit units.

Supplemental Allocation (existing 24-unit project)

If the supplemental request outlined above for the 40-unit project is not allowed, then we would like to request \$2,725,000 in supplemental tax-exempt bonds for the existing previously approved 24-unit project. This request is over 10% of the original bond allocation but below previously approved supplemental percentages (73.3% SUP% City of LA project) granted by the committee. As outlined above, the project's development costs have increased substantially and with the approved supplemental bond allocation, the project will finance 52.36% of the aggregate basis with tax-exempt bonds. With the supplemental allocation the total approved bonds would be \$6,650,000 (\$277,083/unit) which is at or below industry averages.

We have been working on this project since June 2019 and have incurred significant predevelopment costs and are hopeful that we can move forward now with the construction of 40 new affordable tax credit units; but, if the Committee elects not to approve the 40 unit application, we request that the increased allocation for the 24 unit application be approved. The time extension will be necessary in either case, since the finalization of the closing documents with our lender and investor must wait for the result of this hearing, to make the final adjustments and schedule the closing dates.

To the best of our recollection, in the past 45 years, Klein Financial Corporation has not requested a supplemental allocation. We appreciate your consideration of this request.

Sincerely,

Re: Request for Extension (Citrus Grove Apartments)
CDLAC Resolution 23-284 (Application 23-646)

Dear Ms. Wiant:

Please accept this letter as our request for the Committee to grant a 90-day extension to the above referenced Project's readiness deadline, currently set for September 16th, 2024. During a comprehensive site evaluation aimed at finalizing the project's scope, the sponsor's Vice President of Construction identified significant structural concerns. Initially, what appeared as localized wood rot on a building deck was, upon detailed inspection, found to be extensive damage. The unforeseen deterioration, primarily under decks and landings, represents \$1.3 million in critical life and safety repairs due to concealed wood rot. Further investigation revealed that water intrusion at the juncture of flashing and stucco, along with compromised waterproof deck coatings, had exacerbated the issue, remaining undetected until now.

The scope of these additional repairs has resulted in a financial shortfall of \$1.5 million. This unexpected gap promoted a reassessment with the sponsor's financial partners which took additional time to work through. The Project has since secured social enterprise funds to address the shortfall. The resultant delays have also led to concerns from Housing and Community Development (HCD) regarding meeting the impending deadline. Given the unforeseen severity and immediate necessity of these life and safety repairs, we are seeking an extension. The gravity of the situation and the critical nature of the repairs warrant prompt attention and action.

We respectfully request the Committee to consider granting a 90-day extension to the Project's CDLAC readiness deadline. In addition, we respectfully request a waiver of forfeiture of the performance deposit and assignment of negative points, as the circumstances were outside of the sponsor's control. Thank you very much for your consideration of this request. Please let me know if you require any additional information.

Sincerely,

Jon Penkower

Re: One San Pedro Phase I (aka 327 Harbor Apartments) - Resolution No. 23-290

Dear Ms. Wiant:

I am writing to request waiver of negative points and waiver of the forfeiture of performance deposit, and an additional sixty (60) day extension to issue the tax-exempt bonds for 327 Harbor Apartments (the "Project").

The Project is in the San Pedro area of the City of Los Angeles and is the first offsite phase of a proposed 1,600-unit mixed use community that will replace a 1940's public housing development known as Rancho San Pedro that consists of 478 housing units. The Housing Authority of the City of Los Angeles (HACLA) has partnered with National Community Renaissance of California (National CORE), Century Housing Corporation and The Richman Group (together the "Developer"), to demolish and replace the public housing units with new mixed finance residential units. The Developer has acquired the Project site and will be permit ready to begin construction this summer. HACLA will take title of the land prior to closing the construction financing and will provide a long-term ground lease on which the project will be built.

The Developer and HACLA applied in September 2023 for an allocation of QRRP tax-exempt private activity bonds and 4% federal tax credits and received an allocation in December 2023. The current deadline to issue the bonds is September 16th. HACLA, together with Developer, respectfully request a sixty (60) day extension until November 15, 2024, for the following reasons:

- As part of HUD's Rental Assistance Demonstration (RAD) application for the 7 RAD PBVs, the HUD office of Fair Housing and Equal Opportunity (FHEO) reviews the application for the proposed number of units (ADA units) available for the persons with disabilities, to verify that it complies with federal standards. As part of this review, the FHEO office determined that the number of ADA units required by the California Tax Credit Allocation Committee (TCAC) was not in compliance with federal regulations and issued a letter of disapproval on March 19th, 2024. Following the issuance of the letter, both the developer and HACLA engaged in communications with the FHEO office and TCAC staff to find a resolution, however these negotiations took approximately three months to resolve. HACLA was not able to submit the RAD application until the FHEO approved the housing plan for the project, HACLA received approval from the FHEO office on June 6th, 2024. The delayed RAD application submittal pushed back HUD's review of our RAD application, HUD's issuance of the RAD Conditional Commitment (RCC) and HUD's approval of all financing documents, therefore, further delaying the issuance of the bonds and financial closing process.

Together, we transform lives and communities

- To maximize Project financing, we are utilizing a Fannie Mae MTEB structure where the tax-exempt bonds are being issued via a public sale with Fannie Mae credit enhancement rather than a private placement which was originally anticipated. Fannie will not provide its approval of the credit enhancement until HUD completes the RAD approval process and it then takes a few weeks to close after Fannie allows us to post the preliminary official statement. (We will be submitting an official request to CDLAC to amend the original bond allocation resolution to reflect this public offering structure.)

Based on the above item, which was unforeseen and outside of the Developer's control, we are requesting that CDLAC approve an additional 60-day extension.

Please let me know if you have any questions. Thank you for your consideration.

Sincerely,

Re: One San Pedro Phase I (aka 327 Harbor Apartments) - Resolution No. 23-290

Dear Ms. Wiant,

On behalf of the sponsor for One San Pedro Phase I (the “Project”), the Housing Authority of the City of Los Angeles (the “Applicant” or “HACLA”) requests a 60-day extension to the September 16, 2024, bond issuance deadline. We respectfully request extending the bond issuance deadline to November 15, 2024. We also request a waiver of negative points and a waiver of forfeiture of the performance deposit.

HACLA presents these requests in response to written notification (attached) received from the Project’s sponsor indicating that additional time is needed to address the following issues:

- The United States Department of Housing and Urban Development (“HUD”) Rental Assistance Demonstration (“RAD”) application needed to be reviewed and approved by HUD’s office of Fair Housing and Equal Opportunity (“FHEO”) regarding the proposed amount of ADA units available for persons with disabilities as required by federal regulations. The RAD application could not be submitted to HUD’s Office of Recapitalization for their approval until FHEO’s June 5, 2024 approval of the housing plan. This delay by FHEO pushed back HUD’s review of the RAD application, RAD Conversion Commitment (“RCC”) and the approval of all financing documents as well as the issuance of the bonds and closing process.
- For economic reasons, the Bonds are being issued via a public sale with Fannie Mae credit enhancement for the permanent series rather than via a private placement. From the time that Fannie allows to post the Preliminary Offering

Statement (POS) to closing, about 3 extra weeks will be required. Fannie will not provide its approval until the RAD process has been completed with HUD.

One San Pedro Phase I is the critically important first step of a multi-phased and sequentially scheduled complete redevelopment of Rancho San Pedro. This redevelopment initiative will transpire across more than a dozen years and provide quality affordable housing to hundreds of residents. The 60-day bond issuance extension will greatly assist HACLA with keeping the overall Rancho San Pedro redevelopment initiative on schedule. HACLA very much appreciates your consideration of our request.

Please indicate your approval (and/or additional conditions) under separate cover. If you have any questions related to this matter, you can contact John Castanon at (213) 435-0167 / John.castanon@hacla.org or Francisco Lopez at (213) 513-3069 / Francisco.lopez@hacla.org.

Re: Requests for Extension
(Two Worlds Apartments - Application 23-656)
(St. Andrews Apartments - Application 23-657)
(Panorama Apartments - Application 23-659)

Dear Ms. Wiant:

Please accept this letter as our request for the Committee to grant an additional 45-day extension to the each of the above referenced projects' readiness deadline of September 16, 2024.

As the sponsor was working diligently through all required approval items with HUD and LAHD, they have run into a few delays with summer schedules and an unexpected redesign on a seismic issue that needed to be addressed for final review and approval. This has now been completed and the team is moving the forward based on the minor redesigns for the buildings. Unfortunately, it has set them back in time and we would really appreciate the 45-day extension to finalize and close the financing on the properties so the needed rehabilitation of the buildings can commence.

We respectfully request the Committee to consider granting a 45-day extension to the Project's CDLAC readiness deadline. In addition, we respectfully request a waiver of forfeiture of the performance deposit and assignment of negative points.

Thank you very much for your consideration of this request. Please let me know if you require any additional information.

Re: Requesting a 90-day CDLAC deadline extension for the Pacific Street Apartments Four Project (CDLAC Application No. 24-553)

Dear Ms. Marina Wiant:

I am writing on behalf of the California Municipal Finance Authority (the "Authority") to request a 90-day CDLAC deadline extension for the Pacific Street Apartments Four Project. The Project is scheduled to be awarded allocation on August 6, 2024.

In anticipation of receipt of a bond award, we request an extension pursuant to Section 5101 of the CDLAC Regulations. The 9% portion of the project was submitted to TCAC in July. Preliminary indications are that it will receive an award this round. The readiness deadline for that portion of the project will be up to 194 days from the October TCAC meeting date.

Through this extension, we seek to establish the readiness deadline for the final 9% award as the governing readiness deadline. This is consistent with the proposed regulation changes to be considered at the August meeting – language added to Section 5100(b)(3)(i), if approved, will set the expiration date as the later of the deadline assigned by CDLAC or CTCAC.

Hybrid projects are an important aspect of the state's strategy to stretch limited 9% credits farther and allow for the creation of more affordable units. In order to be successful and efficient, the two components of the hybrid project are planned to close simultaneously.

The Pacific Street Apartments combined project will create 110 new homes for low-income individuals and families in Placer County. We respectfully request that you grant this extension in order to allow for an efficient implementation of this hybrid project.

This letter also requests a waiver of forfeiture of the performance deposit and negative points.

Should you have any questions or need further information, please don't hesitate to contact me. I can be reached at (760) 930-1221

Thank you for your consideration.

**Request to Waive Forfeiture of the Performance Deposit and Negative Points for the Return of
Allocation for Qualified Residential Rental Project
(Cal. Code Regs., tit. 4, §§5052, 5230)**
(Agenda Item No. 10)

Action:

Consider the request to waive the forfeiture of the performance deposit for the Grisham Community Housing Project, application CA-23-640, following the return of the allocation.

BACKGROUND:

Pursuant to California Code of Regulations, title 4, section 5052, applicants bear the risk of forfeiting all or part of the performance deposit if the allocation is not used in accordance with the conditions and/or timeframes set forth in the CDLAC Resolution.

DISCUSSION:

The Grisham Community Housing Project received an allocation of \$13,192,000 on December 6, 2023, which was returned on June 3, 2024. The housing sponsor is requesting a waiver of the forfeiture of the performance deposit of \$65,960 and a waiver of negative points.

The bond issuer, California Municipal Finance Authority, or the project sponsor, Abode Communities will speak on behalf of the project.

Re: Requesting to Return Bond Allocation and waive the forfeiture of performance deposit and waive any negative points for Grisham Community Housing (CDLAC Application No. 23-640)

Dear Ms. Wiant:

I am writing on behalf of the California Municipal Finance Authority (the "Authority") to request to return \$13,192,000 of private activity bond allocation and waive the forfeiture of performance deposit and waive any negative points for Grisham Community Housing (Resolution No. 23-278).

On December 6, 2023, Abode Communities received a Resolution from the California Debt Limit Allocation Committee transferring a portion of the 2023 State Ceiling on Qualified Private Activity Bonds for the development of the affordable housing project known as Grisham Community Housing ("Project"). Abode Communities recently received a bid from their General Contractor that was approximately \$8M over budget. The new construction estimate was so much higher than the original estimate that they are not able to address the current issues at the property. As a result, they have decided to cancel the project and return the allocation to CDLAC.

Should you have any questions or need further information, please don't hesitate to contact me. I can be reached at (760) 930-1266.

Very truly yours,

AGENDA ITEM 11

**Request to Waive the Maximum Bond
Allocation Amount (\$75,000,000) for
Round 2 Qualified Residential Rental
Project (Cal. Code Regs., tit. 4 §5232)**

THE CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE
August 6, 2024

**Request to Waive the Maximum Bond Allocation Amount (\$75,000,000) for
Round 2 Qualified Residential Rental Project (Cal. Code Regs., tit. 4 §5232)**
(Agenda Item No. 11)

ACTION:

Approve waiving the maximum bond allocation (\$75,000,000) amount for Qualified Residential Rental Projects (QRRP) that will apply in Round 2 of 2024. This does not guarantee the project(s) will be recommended for or awarded bond allocation.

BACKGROUND:

CDLAC regulation, California Code of Regulations, title 4, section 5232(a), limits the bond allocation to no more than \$75,000,000 for any proposed Qualified Residential Rental Project (QRRP) during a Competitive Application Process. Where a QRRP is located within one-fourth mile of another QRRP involving the same Project Sponsor or Related Party to the Project Sponsor, the Allocation amount, in the aggregate, cannot exceed \$75,000,000 within a calendar year.

Additionally, CDLAC regulation Section 5232(b) states:

“The Committee may waive the maximum allocation amount if the Committee determines that the demand for allocation for QRRPs is such that the maximum allocation amount is not warranted. An Applicant requesting an Allocation in excess of seventy-five million dollars (\$75,000,000) may seek a waiver from the Committee based on the following factors:

- (1) The Qualified Residential Rental Project qualifies as an At-Risk Project [as defined in California Code of Regulations, title 4, section 5170]; or
- (2) Documentation is provided in the Application indicating why a QRRP cannot be developed in phases at a \$75,000,000 level. The documentation must be specific and may include, but is not limited to, a site plan detailing the layout of the subject property, unit mix per stage of the phase, any unique features of the property which inhibits phasing, a description of infrastructure costs, and a cost breakdown by phases.”

DISCUSSION:

The projects below are requesting a waiver and meets the requirements pursuant to CDLAC regulation section 5232(b):

APPLICATION NUMBER	NAME	TOTAL ALLOCATION	TIMEFRAME
CA-TBD	Santa Monica Christian Towers	In Excess of \$75,000,000	Round 2 (FY2024 – August 27, 2024)

The applicant for Santa Monica Christina Towers has indicated that it is a proposed acquisition/rehabilitation high-rise project which includes 163 units in one 13-story building. The building is over 60 years old and will require substantial rehabilitation of all building systems which cannot be done in multiple phases. Because of the combined cost of the acquisition and substantial rehabilitation the applicant is requesting approval to the maximum bond allocation prior to their application submission.

Staff have determined that an approval of this waiver request will not impact the possible award of any other project.

Re: Santa Monica Christian Towers
Santa Monica, Los Angeles, California
Bond Allocation Greater Than \$75,000,000

Dear Ms. Wiant:

The Project Sponsor is requesting an exception to the \$75,000,000 allocation limit (Section 5232 of the CDLAC Regulations) for the proposed project known as "Santa Monica Christian Towers."

The project is applying for an allocation of Tax-Exempt Bonds and 4% Tax Credits in Round 2 FY2024 (August 27, 2024) and your approval of our exception request ahead of the application deadline would be greatly appreciated.

Santa Monica Christian Towers is a proposed acquisition/rehabilitation high-rise project comprised of 163 units in one 13-story building originally constructed in 1963 and designated for Seniors in the City of Santa Monica, County of Los Angeles. The project is located at 1233 6th Street, Santa Monica, CA 90401.

The rehabilitation of the project will include a seismic retrofit of the building as required by the City of Santa Monica's Mandatory Seismic Retrofit Requirements for Non-Ductile Concrete Buildings. The building is also over 60 years old and requires substantial rehabilitation of all building systems. The work cannot be done in phases because the project is a single structure. Combined, the cost of the acquisition, seismic retrofit and substantial rehabilitation will require us to request a bond allocation in excess of the \$75,000,000 allocation limit.

A substantial number of the units' affordability restrictions expire in 2028. This proposed acquisition/rehabilitation with bonds and 4% tax credits shall preserve affordability of this project long-term.

Thank you for your consideration.

Sincerely,

Jordan Pynes, President
