

CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE
Public Benefit Analysis
Small-Issue Industrial Development Bond Programs and Projects
July 25, 2007 Allocation

Small-Issue Industrial Development Bonds (IDBs) are tax-exempt private activity bonds that are issued through state and local governmental agencies to assist manufacturing facilities finance capital expenditures. Today, most IDBs support expansions of existing manufacturing. IDBs offer considerable interest rate savings to small and midsize manufacturers in contrast to conventional loans. When used by manufacturers, IDBs serve to retain and create new jobs within their communities.

The California Debt Limit Allocation Committee (“Committee”) is responsible for administering California’s annual tax-exempt private activity bond program, known as “the annual State ceiling”. For calendar year 2007, California’s State ceiling is approximately \$3.09 billion. Each year the Committee divides the annual State ceiling among several bond programs, known as “Program Pools”, including the Small-Issue Industrial Development Bond Project Pool. For calendar year 2007, the Committee reserved \$68 million, or 2.2%, of the State ceiling for the IDB Project Pool. The \$68 million of bond authority will be allocated throughout the 2007 program year.

The Committee awarded \$18,500,000 million to Small-Issue Industrial Development Bond Projects on July 25, 2007. This represents 27% of the \$68 million IDB Project Pool and .60% of the 2007 \$3.09 billion State ceiling.

The Small-Issue Industrial Development Bond project funded on July 25, 2007 will create a total of 110 new jobs and retain a total of 222 existing jobs in San Diego and Sonoma Counties. Of these, 89 new and 102 retained jobs are in the City of San Diego, 21 new and 120 retained jobs are in the City of Petaluma.
