

CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE

Estimated Public Benefits Single-Family Housing Program Pool December 16, 2009 Allocation

State and local governmental agencies and joint powers authorities can issue tax-exempt mortgage revenue bonds (MRB) or mortgage credit certificates (MCC) to assist first-time homebuyers purchase homes. These agencies and authorities may issue MRBs, the proceeds of which back below market interest rate mortgages. As an alternative to issuing MRBs, state and local governmental agencies and joint power authorities may issue MCCs. The value of the credit equals up to 20% of the interest payments made annually on the program participant's first mortgage. Homebuyers use the MCC to reduce their federal tax liability by applying the credit to their net tax due. Homebuyers may purchase single-family homes; either free-standing detached homes, condominiums or townhouses. Program participants must meet program income limits and must purchase a home that falls within the program's purchase price limitations.

The California Debt Limit Allocation Committee is responsible for administering California's annual tax-exempt private activity bond program, known as "the annual State ceiling". For calendar year 2009, California's State ceiling is \$3.308 billion. Each year the Committee divides the annual State ceiling among several bond programs, known as "Program Pools", including the Single-Family Housing Program Pool. For calendar year 2009, the Committee reserved approximately \$500 million or 15.1% of the State ceiling for the Single-Family Housing Pool. The \$500 million of bond authority will be allocated throughout the 2009 calendar year.

The Committee awarded a total of \$581,710,771 of the 2009 State Ceiling on December 16, 2009 to the Single-Family Housing Program and authorized the use of \$98 in 2008 carryforward allocation. Of this amount, \$153,034,574 was allocated to Mortgage Credit Certificate Programs and \$428,676,197 was allocated to Mortgage Revenue Bond Programs. These allocations will assist approximately 2,717 first-time homebuyers, of which at least 1,087 will be lower income households and approximately 317 will purchase newly constructed homes.
