

CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE

Estimated Public Benefits Single-Family Housing Program Pool December 14, 2011 Allocation

State and local governmental agencies and joint powers authorities can issue tax-exempt mortgage revenue bonds (MRB) or mortgage credit certificates (MCC) to assist first-time homebuyers purchase homes. These agencies and authorities may issue MRBs, the proceeds of which back below market interest rate mortgages. As an alternative to issuing MRBs, state and local governmental agencies and joint power authorities may issue MCCs. The value of the credit equals up to 20% of the interest payments made annually on the program participant's first mortgage. Homebuyers use the MCC to reduce their federal tax liability by applying the credit to their net tax due. Homebuyers may purchase single-family homes; either free-standing detached homes, condominiums or townhouses. Program participants must meet program income limits and must purchase a home that falls within the program's purchase price limitations.

The California Debt Limit Allocation Committee is responsible for administering California's annual tax-exempt private activity bond program, known as "the annual State ceiling". For calendar year 2011, California's State ceiling is \$3.539 billion. Each year the Committee divides the annual State ceiling among several bond programs, known as "Program Pools", including the Single-Family Housing Program Pool. For calendar year 2011, the Committee reserved approximately \$750 million or 21.2% of the State ceiling for the Single-Family Housing Pool. The \$750 million of bond authority will be allocated throughout the 2011 calendar year.

The Committee awarded a total of \$26,020,406 of the 2011 State Ceiling on December 14, 2011 and authorized the use of \$270,000,000 of available 2008 carryforward allocation to the Single-Family Housing Program for two (2) local Mortgage Credit Certificate Programs and one (1) statewide Mortgage Credit Certificate Program. These allocations will assist approximately 1,546 first-time homebuyers, of which at least 618 will be lower income households and approximately 326 will purchase newly constructed homes.
