July 11 & 12 CDLAC Technical Assistance Workshops

CDLAC is pleased to announce two technical workshops coming to Sacramento and Los Angeles!

Take advantage of this opportunity for face-to-face technical assistance (TA) with staff! CDLAC is offering a combination of lecture, hands-on examples, and TA in these workshops that are valuable for all stakeholders submitting an application. Gain the training that will help you submit a complete application and secure a spot for your project in an allocation round. One-on-one troubleshooting is available.

Workshop Structure & Objectives

Each workshop structure is identical and covers the same application submittal material.

Choose the date and location that works best for you.
