**Staff Recommendation:** Staff recommends the Authority approve a resolution in an amount not to exceed \$104,000,000 for Stanford University, which meets the standard bond issuance guidelines for "A" or better rated debt.

\* J

#### STAFF SUMMARY AND RECOMMENDATION BOND' FINANCING PROGRAM

#### March 29, 2001 Resolution Number: 185

#### **STANFORD UNIVERSITY (the "University")**

I. PURPOSE OF FINANCING: The University makes a significant investment in its facilities for teaching, research and related activities through a Capital Plan which is reviewed annually by the Board of Trustees. This results in a three-year plan, which includes projects that are in progress or will commence during that three-year period. It is subject to change based on funding availability and University priorities. In December 2000, the Santa Clara County Board of Supervisors approved the General Use Permit (the "2000 GUP") and the Stanford University Community Plan (the "Community Plan") which govern the University's use and development of University lands within the county for at least ten years. The combined 2000 GUP and the Community Plan allow Stanford to develop approximately 2 million net square feet of new academic facilities and approximately 3,000 new housing units for students, faculty, and staff, while preserving open space and natural resources.

The University's capital improvement projects proposed in this financing include new construction that will meet the current shortage and increased demand for housing, provide needed library shelving capacity, and meet fire hazard protection. In addition, seismic upgrades and strengthening are necessary, infrastructure for water, steam, electric, and drainage systems as well as other improvements.

For fiscal 2001, the University anticipates spending \$295 million for capital improvement projects, which includes this proposed financing. The remaining sources of funds will be gifts, university funds, and issuance of additional debt, including \$50 million taxable medium term notes apart from this proposed financing.

\* ¥

#### **Uses of Funds:**

#### Construction/Renovation ..... \$103,098,644

Housing Projects and Dining – The existing graduate housing system is full and there is also a shortage in undergraduate housing. The offcampus housing market is expensive with a low vacancy rate, and in general is not a viable option for many Stanford graduate students. To satisfy the housing requirements, the University has embarked on a residential building program with 508 units completed last year. There are approximately 2,000 new graduate units being planned for Escondido Village, three new row houses with 150 beds at Mayfield Undergraduate Row Houses, and 125 beds for undergraduate housing at Manzanita, as well as an enlargement to Manzanita dining hall.

Academic Facilities and Infrastructure – New buildings and renovations to existing facilities are planned including: completion of seismic retrofitting and systems updating of academic and support buildings; systems upgrades of various existing classroom, library, laboratory, and student activity facilities; construction of several major new academic and research facilities including the James H. Clark Center for Biomedical Engineering and Sciences, the Mechanical Engineering Laboratory and the Photonics Center; projects involving internal utility systems; and parking and campus transportation projects.

(a) Recalculates 2000 audited results to include the payment of this proposed financing.

Stanford University

#### **Financial Discussion:**

# Stanford University is a solid organization with consistently high student demand and a strong research presence.

The University is considered one of the nation's most prestigious universities maintaining a leading market position, exceptionally strong student demand, and an array of programs. Among the most selective universities, Stanford accepts approximately 15% of its freshman applicants and its strong yield of over 65% indicates that it is the first choice for a nationally diversified student population. Approximately half of Stanford's over 14,000 students are undergraduates. The University maintains a broad array of commensurately strong graduate and professional programs. Its programmatic mix combined with the high demand for its programs contributes to a healthy net tuition per student of over \$16,500.

In addition, Stanford is one of the nation's leading research universities and its well-established research programs should continue to contribute to ongoing steady support from a variety of sponsors. Research revenues are the University's largest single revenue component, contributing approximately 30% of the University's revenue.

#### The University continues to demonstrate extremely favorable operating performance supported by diverse revenue streams along with a strong balance sheet reflecting substantial liquidity.

Total University assets in fiscal 2000 increased to \$14.9 billion while total University liabilities increased to \$2.8 billion. The University maintains a large portfolio of liquid investments and a relatively low level of debt, with 0.14 as its most recent debt-to-expendable net assets ratio. The University's unrestricted net assets increased \$1.4 billion in fiscal 1999 and \$2.3 billion in fiscal 2000. The increase in net assets is directly attributable to unparalleled investment performance along with record-level gifts and pledges. The University's revenue stream remains highly diversified with its academic operations generating a strong margin and debt service coverage of over 27 times in fiscal 2000. The University's superior financial strength is further demonstrated by the pro forma debt service coverage, which would remain solid (almost 26 times) with this proposed financing.

In 1997, Stanford Health Services merged with UCSF Medical Center to form UCSF-Stanford Health Care. With volatility in the health care marketplace and declining government reimbursement, management tried to confront these challenges but the merger dissolved effective March 31, 2000. Following the dissolution of the two entities, operating losses were recorded and split evenly. The University's share of the loss had no material impact on its financial performance.

#### III. STUDENTS, COLLEGE COSTS, AND FACULTY STATISTICS:

#### **Applicant** Pool

As one of the nation's most prestigious universities, Stanford attracts large numbers of highly qualified applicants for admission to its undergraduate and graduate programs. This provides assurance that the University can easily maintain stability of enrollment. For the academic year 2000-01, the University enrolled 6,548 undergraduate and 6,779 graduate students. During FY 1999, 1,737 bachelor degrees and 2,904 advanced degrees were conferred. The following table provides a summary for the last five years of undergraduate and graduate applications, admissions and enrollment.

| Fall Semester         | Applications     | Offered<br>Admission | Selectivity Ratio | New<br>Enrollments |
|-----------------------|------------------|----------------------|-------------------|--------------------|
| 1996                  | 17,545           | 2,833                | 16.1%             | 1,754              |
| 1997                  | 18,068           | 2,769                | 15.3%             | 1,778              |
| 1998                  | 20,218           | 2,630                | 13.0%             | 1,702              |
| 1999                  | 19,221           | 2,718                | 14.1%             | 1,770              |
| 2000                  | 19,580           | 2,538                | 13.0%             | 1,679              |
| * Headcount, not full | -time equivalent |                      |                   |                    |

| 2000-01                     | 6,548                | 6,779           | 13,327           | n.a.              | n.a.              | n.a.                    |

Similar to new enrollments, total enrollments remained fairly constant over the past five years. Accordingly, the number of degrees awarded remained fairly constant as well.

#### UndergraduateTuition, Fees, Room and Board

The University's tuition, room, board and fees for a full-time student for 2000-01 is \$32,471. A five-year summary of comprehensive fees is provided below. Total cost has increased an average of 3.5% per year over the last 5 years.

|                  |                                   |                   | -                      |
|------------------|-----------------------------------|-------------------|------------------------|
| Academic<br>Year | Undergraduate Tuition<br>and Fees | Room and<br>Board | Undergraduate<br>Total |
| <br>1996-97      | \$20,940                          | \$7,340           | \$27,830               |
| 1997-98          | \$21,300                          | \$7,560           | \$28,860               |
| <br>1998-99      | \$22,110                          | \$7,769           | \$29,879               |
| 1999-00          | \$23,058                          | \$7,881           | \$30,939               |
| 2000-01          | \$24,441                          | \$8,030           | \$32,471               |

#### **Faculty Summary**

The total number of faculty has increased modestly in the last decade. The following table provides a breakdown of the faculty for each of the last 5 academic years.

| Academic Year | Tenured<br>Full Time | Other<br>Full Time | Part Time<br>FTE | Total FTE |
|---------------|----------------------|--------------------|------------------|-----------|
| 1996-97       | 836                  | 614                | 17.65            | 1,467.65  |
| 1997-98       | 917                  | 582                | 17.36            | 1,516.36  |
| 1998-99       | 927                  | 628                | 18.69            | 1,573.69  |
| 1999-00       | 934                  | 667                | 16.73            | 1,617.73  |
| 2000-01       | 922                  | 716                | 16.44            | 1,654.44  |

Stanford University

#### IV. BACKGROUND:

#### General:

Founded in 1885, Stanford University is one of a select group of American universities that has achieved eminence in both undergraduate and graduate education and in a broad range of academic disciplines. It is internationally recognized for the quality of its teaching and research, its distinguished faculty and its outstanding student body. Situated on 8,200 acres near Palo Alto in Santa Clara County, the University is 35 miles southeast of San Francisco and 20 miles northwest of San Jose. The program of instruction at the University is organized around seven schools: Business, Earth Sciences, Education, Engineering, Humanities and Sciences, Law and Medicine.

#### Administration:

The University is governed by a Board of Trustees consisting of a minimum of 25 and a maximum of 35 members, including the President of the University. Current membership of the Board is 32. The Board is responsible for determining policies for operation and control of the University including, among other things, the adoption of the University budget, establishment of schools and departments, investment and accounting policies, debt policy and land use and development. The Board conducts its business through seven standing committees, including the Committees on Finance, Development, Audit, Academic Policy, Land and Buildings, Alumni and External Affairs and the Medical Center. The Board nominates and selects its successors, eight of whom shall be alumni Trustees.

The Stanford Management Company ("SMC") was established in 1991 to manage all financial and real estate investment assets of the University. In addition to providing investment management services, SMC is responsible for special investment-related activities such as securities lending, and selection, liaison and oversight of custodians. SMC assists in the management of the University's debt portfolio and oversees several trusts and investment entities established by the Board.

#### **Accreditation and Affiliations:**

The University is fully accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges ("WASC"), the primary accrediting body for institutions of higher education in the western United States. The last WASC accreditation was in year 2000.

The University also has professional accreditation from the Accreditation Board for Engineering and Technology using criteria and standards developed and accepted by United States engineering communities. The following undergraduate curricula are accredited at the University: Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Engineering and Mechanical Engineering.

Stanford University

#### Academic Programs:

Stanford is a major research and teaching university offering a wide range of undergraduate, graduate and professional degree programs. The Schools of Earth Sciences, Engineering and Humanities and Sciences (which includes the arts, humanities, sciences and social sciences) offer both undergraduate and graduate degree programs. The Schools of Business, Education, Law and Medicine offer graduate and professional degree programs. Undergraduate students are admitted to the University and have access to any undergraduate major and to classes and research opportunities in all seven schools. Degree programs are offered by departments and through interdepartmental programs involving faculty from multiple departments in one or more Schools. The University, its Schools and its academic programs hold all appropriate accreditations.

Stanford's research enterprise extends throughout the University. In addition to research conducted in the Schools, Stanford has a number of interdisciplinary research institutes and centers which bring together faculty and students from throughout the University to collaborate on research topics that cross traditional boundaries. A representative sample includes the Stanford Linear Accelerator Center, the Hansen Experimental Physics Laboratory, the Stanford Humanities Center, the Center for Computer Research in Music and Acoustics, the Center for Integrated Systems, the Institute for International Studies and the Center for Economic Policy Research. Extensive library and archival resources are available through the Stanford University Libraries and the Hoover Institution on War, Revolution and Peace.

#### **Competition:**

Student quality is extremely high and Stanford remains one of the most selective universities in the nation. The University's applications overlap mostly with prominent Ivy League institutions on the East Coast specifically, Harvard, Yale, Princeton and MIT. The University tuition is generally set somewhat below these institutions.

| CEFA, Series Q                          | -                  |  | 104,000   |
| Total                                   | -                  | <u>\$1,379,919</u>                     | <u>\$1,533,919</u>  |

N/A – Not applicable

 <sup>(1)</sup> Represents primarily the debts of wholly owned real estate investments.
 <sup>(2)</sup> Stanford plans to simultaneously issue taxable medium term notes unrelated to this proposed financing.

#### VI. **STAFF RECOMMENDATION:**

Staff recommends the Authority approve a resolution in an amount not to exceed \$104,000,000 for Stanford University, which meets the standard bond issuance guidelines for "A" or better rated debt.
