# California Health Facilities Financing Authority Investment in Mental Health Wellness Act of 2013 May 1, 2014 Report

Authored by President pro Tem Darrell Steinberg, Senate Bill 82 of 2013 is intended to significantly improve access to mental health crisis services available to California's residents by funding a major statewide expansion of crisis residential and stabilization beds and mobile crisis capacity. Upon enactment by the Governor on June 27, 2013, the California Health Facilities Financing Authority ("the Authority") has taken early and sustained action to advance this mission.

Created as a competitive grant program for California's counties, SB 82 appropriated:

- \$142,500,000 capital funding to support the development of programs for the delivery of crisis services;
- \$6,800,000 for personnel costs associated with the operation of mobile crisis support (of which \$4,000,000 is from Mental Health Services Act ("MHSA") funding and an estimated \$2,800,000 is to be accessed by counties by way of federal reimbursement dollars); and
- \$500,000 to the Authority for its cost of administering the new grant program.

The Authority hit the ground running and has been very busy since June of last year. The Authority held public forums in four cities (Sacramento, Oakland, Fresno and Santa Ana) and one webinar to gain stakeholder comment and advice for the design of the grant program. Authority staff also met individually with stakeholders and many technical experts to assist with the development of the emergency regulations. And Authority staff visited and observed existing mental health crisis programs throughout the state to get a sense of their operation. Emergency regulations were approved by the Authority's Board on October 31, 2013 and once approved by the Office of Administrative Law, the first funding round for SB 82 grants opened just five months after SB 82 was signed into law.

The Authority held three information sessions to help grant applicants learn about application requirements and, by the close of the first funding round application period (January 22, 2014), the Authority received 33 applications from 37 counties<sup>1</sup> for services of benefit to residents in  $46^2$  of California's 58 counties.

At its recent April 24, 2014 board meeting, the Authority board authorized grant awards for 20 of those 33 applications which, if all programs are implemented as planned, will benefit 28 counties. These awards total:

- \$71,331,343.91 in capital funding, and
- \$3,974,289.42 in MHSA personnel funding.

<sup>&</sup>lt;sup>1</sup> Merced, Madera, Tuolumne, Calaveras, and Mariposa Counties were co-applicants.

<sup>&</sup>lt;sup>2</sup> Butte County proposed crisis residential treatment beds would be made available to four additional counties, including Sutter, Yuba, Glenn and Tehama. The additional counties were not co-applicants. And Shasta County proposed crisis residential treatment beds would be available to five additional counties, including Tehama, Modoc, Trinity, Siskiyou and Lassen. The additional counties were not co-applicants.

The awards aim to create 827 crisis residential and stabilization beds, 39 mobile crisis vehicles and to provide personnel funding for up to 60 mobile crisis staff.

A second funding round will commence in early June 2014 and is expected to be complete by September 2014. The Board fully expects to commit all funds appropriated for SB 82 projects by the close of this funding round, though spending from both funding rounds will continue for some time before all approved projects are completed.

A detailed summary of the awards conferred by the board providing a description of the projects funded for each county, the amount of each grant awarded, a description of other sources of funding for each project and the target population to be served by the counties is attached as Exhibit A.

Final Allocations – First Funding Round Approved April 24, 2014

	Applicant	Capital Funding Awarded			Personnel Funding Awarded	Total Final Allocation	# of	# of	# of	Other Funding Sources	Target
	Аррисант	Crisis Residential <sup>1</sup>	Crisis Stabilization <sup>2</sup>	Mobile Crisis Vehicles <sup>3</sup>	Mobile Crisis <sup>4</sup>	Awarded	Beds	Vehicles	Staff	for Projects	Population
1.	Alameda County	\$4,806,949.37	\$0.00	\$0.00	\$0.00	\$4,806,949.37	16			Medi-Cal, county general funds, private funding and Supplemental Security Income (SSI).	Adults ages 18-64 (which includes transitional age youth ages 18-24) within Alameda County.
