**STAFF SUMMARY AND RECOMMENDATION**

**Substance Abuse Foundation of Long Beach, Inc.**

**January 30, 2003**

**Resolution Number: HII-135**

**I. PURPOSE OF FINANCING:** SAF seeks to refinance three existing loans on two properties located in Long Beach. This refinancing will result in an overall savings of approximately \$14,000 per year which will improve SAF's operating cash flow and build equity in the properties.

In addition to the HELP II loan, SAF has applied for a HealthCAP loan. The HealthCAP loan, if obtained, will be used to purchase a new facility, refinance other existing debt and purchase equipment.

***Refinance existing loans on two properties* .....\$434,000**

Loan proceeds will be used to refinance three existing loans on two properties. The first property located at 3125 East 7<sup>th</sup> Street was purchased in April 1988 for \$258,500. Currently, this property has two loans outstanding with interest rates of 12.5% and 11%, with approximate loan balances of \$175,000 and \$53,000, respectively. The property is a mixed-used structure that encompasses approximately 3,800 square feet. It houses a drug and alcohol treatment complex at the front of the lot which includes a certified Drug/Medical outpatient clinic. The treatment complex includes a reception room, a large group counseling and education room; a small group counseling room, four private counseling/treatment offices and restroom facilities. In addition, there is a private and secure urine-testing area as well as a medical records/reception area.

At the rear of the lot, SAF maintains a 24-hour residential treatment facility. This structure is handicapped accessible and includes two large private bedrooms with built-in closets and storage areas. The building also includes a community kitchen and dining room that feeds the clients three meals and nutritious snacks daily. Also included is a large storage garage and two parking spaces at the rear of the lot. According to management, the value of the property is estimated at \$600,000.

The second property, located at 2825 East 7<sup>th</sup> Street was purchased in June 1996 for \$220,000. The interest rate on this note is 8.5% and the loan balance is approximately \$207,000. This two-story 3,500 square feet facility serves as a transitional housing facility where homeless and indigent clients reside while participating in the nearby treatment center. Each resident must complete at least 90 days of treatment and continue to access supportive recovery and

needed rehabilitation services while residing in the building. The facility has 12 one-bedroom apartments and each apartment has a private kitchen, dining area, living room and bathroom. All units are fully furnished and equipped. According to management, the value of the property is estimated at \$485,000.

SAF is in the process of having both properties property appraised. The combined appraised value on the properties must be satisfactory to the Authority's policies of a loan to value ratio that does not exceed 95%.

<b>Financing Costs</b> .....	<b><u>7,000</u></b>
Authority Fee .....	\$5,000
Title/escrow fees .....	2,000
<b>Total</b> .....	<b><u>\$441,000</u></b>

**Financing structure:**

- 15-year fully amortized loan term in the amount of \$400,000.
- 180 equal monthly payments of approximately \$2,762 (total annual payments of \$33,144).
- Total interest payments of approximately \$92,219.
- First position liens on the properties located at 3125 and 2825 East Seventh Street, Long Beach, California.
- Second position lien on corporate gross revenue pledge. (Subordinate to a prior loan with National Cooperative Bank Development Corporation).

### **Financial Discussion:**

**SAF's financial position is stable with consistent profitability over our review period. Further aiding stability is SAF's strong market presence in the Long Beach area.**

SAF's financial position is stable with consistent profitability supported by a strong demand for its services. Since fiscal 2000, SAF's total revenues have increased over 34% primarily as a result of increased government contracts. Further, as a result of Proposition 36 and the California Department of Correction's Parolee Registration Participation Program, SAF experienced a steady increase in clients. In May 2002, SAF bought a building and used its cash to renovate the building. The renovation will be completed in February 2003 and is expected to generate additional income for SAF.

**Although heavily leveraged, SAF has a stable debt service coverage ratio.**

SAF's balance sheet is stable with significant net assets. SAF's fixed assets continue to grow as well as its long-term debt as SAF acquires additional properties. Its debt-to-unrestricted net assets ratio is heavily leveraged at 4.17x. With the proposed HELP II loan financing, proforma debt service coverage ratio will remain an adequate 1.93x, indicating SAF's ability to meet future debt service payments.

In addition, proforma debt service coverage ratio that includes the HealthCAP loan will be 1.49x which indicates that SAF has the ability to meet the additional debt service payments.

Although the organization is heavily leveraged, the balance sheet is otherwise strong with net assets more than doubling over the 3-year review period.

SAF's interim cash position is approximately \$2,900 as funds were used to renovate an existing facility located on Pacific Avenue in Long Beach. An additional \$38,000 will be required to complete the HELP II loan transaction. As of January 23, 2003, management indicates that funds in the amount of \$145,000 are in place as a result of collections of accounts receivable.

**IV. ORGANIZATION:**

**Background:** SAF was incorporated in November 1988 as a non-profit organization. It is the largest provider of residential and outpatient abuse and alcohol treatment recovery service in the Long Beach/South Bay area. Over the past 14 years, it has grown from a 6-bed residential treatment program with a small outpatient component, to a large 225-bed residential treatment and rehabilitation agency with 92 licensed treatment beds and outpatient services including drug/medical services that provide treatment for over 150 clients daily. Currently, SAF operates one facility over 14 property sites.

The mission of SAF is to provide excellent community-based drug/alcohol treatment services and service-enriched transitional housing for people who wish to recover from substance abuse, rebuild their lives and remain drug-free and self-sufficient within the community. The emphasis is serving the homeless, indigent and special needs populations who are typically the most underserved in the community including those with HIV/AIDS, mental health diagnoses, pregnant and parenting female addicts, dual and multi diagnosed, those with criminal justice backgrounds, public benefits recipients and homeless veterans.

**Licenses:** SAF is licensed as an adult residential alcohol and/or drug abuse/recovery or treatment facility with the Department of Alcohol and Drug Programs.

**Competition:** SAF provides 92 licensed treatment beds and maintains a 37% market share in Long Beach. SAF also has an additional 133 beds of services enriched housing for the homeless as well as extensive outpatient treatment and rehabilitation services which makes it the largest provider of comprehensive treatment and supportive services for disadvantaged people in the Long Beach metropolitan area. Also, SAF is the principal provider in the community of comprehensive

substance abused treatment, rehabilitation and supportive hours for economically disadvantage men and women who are dual-diagnosed with substance abuse and mental illness and those with HIV/AIDS who have a problem with addiction.
