Item #7 County of Tulare Investment in Mental Health Wellness Grant Program for Children and Youth First Amendment to Resolution No. CY 2021-09 (Action Item)

Ms. Hariri presented. The County of Tulare (County) requested Authority approval to amend the milestone conditions of being open and operational from September 30, 2022, to June 30, 2023, and the deadline to submit all disbursement documentation from December 31, 2022, to September 30, 2023. Ms. Hariri reported that the County began recruiting staff for the mobile crisis support team (MCST) in February 2022 but encountered difficulties in hiring candidates. As a result, in April 2022, the County decided to contract with a service provider that would be able to staff and operate the MCST program. A service provider was identified, and the County anticipated the contract to be executed before January 2023. Ms. Hariri reported that in addition to the hiring difficulties, the County also postponed the purchase of the MCST vehicle. The County anticipated that the vehicle would be purchased before November 2022, and the delivery date would be before May 2023.

Attendees: (via teleconference) Dr. Casie Ennis, Division Manager; Diane Higginbotham, Administrative Specialist; and Ryan Caceres, Administrative Specialist, Tulare County Health & Human Services Agency, Mental Health Branch.

Dr. Ennis thanked the Authority and gave an overview of the County's hiring struggles.

Member McDonald relayed the State Controller's concerns regarding the struggle in finding new hires for behavioral and health professionals, and if the County was having a difficult time finding new hires, why would the service provider have an easier time. Member McDonald also asked about the service providers' qualifications requirements.

Dr. Ennis responded that the service provider would have an easier time hiring because they offer competitive pay and insurance benefits, which the County cannot match. The qualifications include provisions of clinical and crisis services and trained staff. The service provider, Tulare County Office of Education, had extensive experience working with the school systems, and provided social work programs for the youth. The service contract with the County would allow the service provider to add additional trained staff that would focus on providing MCST services.

Member Kropke asked about the definition of the clinical position for the MCST and about the pay scale.

Dr. Ennis explained that the clinical position included licensed marriage and family therapists, licensed social workers, and licensed professional counselors.

Mr. Caceres provided information regarding the pay scale difference of annual salaries for clinicians provided by the County and the service provider.

Member Silva asked if the behavioral health services also included social services.

Dr. Ennis responded that currently the services were only MCST support and that the County intended to expand services in the future by adding peer support specialists to the team.

Member Dorsey commended the County's resourcefulness considering the staffing challenges that existed.

Chair Noda asked if there were any additional questions or public comment; there were none.

The County of Los Angeles (County) requested Authority approval to amend the milestone condition of being open and operational from September 30, 2022, to April 30, 2023, for its 15 Crisis Residential Treatment Programs (CRTP). Ms. Hariri reported that the reasons for the delay in opening the facilities located at LA+USC Medical Center Campus, Olive View-UCLA Medical Center Campus, Rancho Los Amigos National Rehabilitation Center, and Martin Luther Jr. Medical Center, were due to delays in the execution of the remaining three service provider agreements and the licensing site reviews for the community care licensing were taking longer than anticipated.

Ms. Yanagimoto-Pinedo introduced her new boss, Connie Draxler, Acting Chief Deputy Director.
