Project Expansion: Renovate an existing facility to develop three new dental operatories

Summary of Project:

Eastern Plumas Hospital District (Grantee) plans to renovate an existing dental clinic in Sierra County to develop three new dental operatories that will provide dental services for special health care needs patients, including children and adults, who have disabilities that prevent them from receiving routine or specialty care due to their physical, developmental, or cognitive condition. The renovated dental clinic will address a critical gap in care by providing essential dentistry services for this population, which is currently underserved in the region. The Grantee anticipates the renovated dental clinic will serve approximately 480 special health care needs patients annually. Upon completion of the project, special health care needs patients will constitute 50 percent or more of the total number of patient visits of those receiving dental services in the operatories paid for with grant funds. Grant funds will be used for renovation and the purchase of equipment and furnishings. Additional leveraged funding will be used to cover expenses that exceed the grant award amount. Staff evaluated the plan and has determined that the project is likely to be feasible and sustainable.
