CalCAP for Small Business

CalCAP Provides Support to Financial Institutions When They Make Loans to Small Businesses

Loan Loss Reserve
CalCAP for Small Business (SB) uses SSBCI 2.0 funds to make matching contributions to loan loss reserve accounts for participating financial institutions (PFIs). This proven financing mechanism incentivizes PFIs to address the financing needs of California’s small business borrowers (SBBs).

How It Works
SBB can use technical assistance from CalOSBA calosba.ca.gov and/or Small Business Development Centers Californiasbdc.org, to compare options and prepare to apply for capital.

SBB applies to PFI; PFI applies its underwriting standards and decides to enroll the loan in CalCAP SB, PFI sets the contribution rate of 2 - 3.5%.

PFI and SBB each pay the contribution rate to the loan loss reserve account; PFI submits an enrollment application to CalCAP within 15 days of loan issuance.

CalCAP matches both the PFI’s and SBB’s contributions and adds the SAC amount if applicable; up to 100% reimbursement for a claim is available to PFI from the loan loss reserve account.
