UPDATED PROGRAM NOTICE

To: Participating Financial Institutions & Interested CalCAP Borrowers and Stakeholders

From: Renee Webster-Hawkins, Executive Director EM for RW-H

Date: July 9, 2019

Re: Designation of Natural Disaster Areas as Severely Affected Communities

The credit enhancements offered by the Authority for loans enrolled in the California Capital Access Loan Program (CalCAP) for Small Business, the Collateral Support Program, the CalCAP/Seismic Safety Program, and the CalCAP/ADA Program are eligible for supplemental contributions for borrowers whose businesses and properties are located in a Severely Affected Community. The Authority's regulations define a Severely Affected Community as an "economically distressed geographic area", and is measured as an area where the unemployment rate of the city or county is 110% of the state unemployment average or more, based on data published monthly by the Employment Development Department. The regulations also authorize the Executive Director to designate other comparably distressed areas from time to time. (See 2 CCR Section 8070(y).)

On July 4th and 5th, Governor Newsom declared a state of emergency for additional counties due to the effects of the natural disasters occurring in Kern and San Bernardino counties. Therefore, I have determined that it is proper to authorize any eligible borrowers based in these counties to be deemed as located in a Severely Affected Community, and that any loan made to these borrowers and enrolled in the eligible CalCAP programs shall be eligible for the supplemental credit enhancement. All the counties currently designated as Severely Affected Communities due to a state of emergency declaration are listed on the chart below, effective as of the declaration date and in effect until the end date listed.

Table with 3 columns: Date of Declaration, Counties, End Dates for SAC. Rows include dates from July 26, 2018 to July 4, 2019 and corresponding counties and end dates.
