Meeting Date: March 24, 2010

***Consideration and Approval of Proposed Regulation Changes for the Bond Program
Pertaining to General Fees, Small Business Assistance Fund Fees, and Provisions Relating to
Small Business Financings***

Prepared by: *Patricia Tanous*

Summary. On September 23, 2009, the Board granted approval to amend and file emergency regulations to modify General Fees, Small Business Assistance Funds (SBAF) Fees, Eligibility for Assistance, and Assistance sections of the CPCFA regulations. After review and analysis of the current regulations an additional modification to the General Fees and Eligibility for Assistance categories has been added (see Attachment B – items in red were approved in September and the items in blue are the new additions), Staff now requests Board approval to amend and file permanent regulations to modify the General Fees, Small Business Assistance Fund (SBAF) Fees, Eligibility for Assistance, and Assistance sections of the CPCFA regulations. To accomplish these changes it requires modification of the regulations:

- 1) To revise Section 8034 – General Fees to include two new categories of fees;
- 2) To revise Section 8035 – Small Business Assistance Fund Fees to lower the fees;
- 3) To revise Section 8042 – Eligibility for Assistance to define eligibility; and
- 4) To revise Section 8043 – Assistance to clarify who is eligible for assistance.

The primary driver as these changes is to offer a SBAF fee reduction to encourage companies to accelerate issuance of tax-exempt bonds through CPCFA. Additionally, the changes address an issue with fees for a possible new structure for financings.

Upon approval staff will proceed concurrently with the emergency and permanent rulemaking process.

Background. CPCFA funded projects are subject to two fees: A General Fee of two tenths of one percent (.002) and a SBAF fee of up to one percent (.01) of the face value of the bonds issued.

The General Fee is charged to large businesses and is used to pay salary expenses, benefits, office space rent, supplies, contract services with the Information Technology Department, personnel services, etc. for CPCFA. Furthermore, these fees are used for the California Recycle Underutilized Sites (CALReUSE) Assessment Program, and the Sustainable Communities Grant and Loan Program (SCGL). These fees also enable CPCFA to provide assistance to the California Industrial Development Financing Advisory Commission (CIDFAC) and the California Alternative Energy and Advanced Transportation Financing Authority (CAEATFA) in the form of personnel and loans to fund costs of implementing new programs. Additionally, the SBAF fees are used for the California Capital Access Program (CalCAP).

The SBAF fees that are collected from large businesses are used to help small businesses pay for some of the costs of issuing bonds (i.e., Fees charged by issuer's counsel, bond counsel,

underwriter, underwriter counsel, financial advisors, trustee, State Treasurer’s Office Agent for Sale, California Debt Limit Allocation Committee, California Debit and Investment Advisory Commission, etc.).

Business Model. Although CPCFA is facing financial challenges (in September 2008 staff recommended, and the Board approved, a restructuring of the SBAF subsidy formula, in effect cutting the program by approximately 50%), staff is looking to reduce the SBAF fees to encourage large businesses to issue bonds. Staff feels that due to the current economic downturn in the United States, and more importantly the State of California, a reduction would be beneficial to encourage businesses to continue to expand.

As stated, in September 2008 the Board approved a restructuring of the SBAF subsidy formula, cutting the program by approximately 50%. Staff is now looking to make a further cut to the subsidy by imposing a limit on the total amount of bonds issued on behalf of a small business (and its Affiliates) to a total of \$25,000,000. Once a small business has issued more than \$25,000,000 in bonds the company will then pay an Administrative Fee of one tenth of one percent (.001) of the face value of the bonds issued or they may choose to pay an annual fee of each year for the life of the bonds in the amount of five one-hundredths of one percent (.0005) of the remaining balance of the bonds, with a minimum annual fee of \$1,000 and a maximum annual fee of \$75,000.

In September 2009, CPCFA had not issued any new bonds for the calendar year of 2009. Between September 23, 2009, and March 24, 2009, CPCFA issued a total of \$171,700,000 in new bonds. Of the new bonds issued, \$139,000,000 were issued on the behalf of large businesses. On February 24, 2010, the Board approved the issuance of \$83,000,000 for Recology, Inc., a large business; these bonds will be issued in early April 2010. A total of \$1,462,500 in SBAF contributions have, or will have, been made to CPCFA utilizing the reduced SBAF fees, versus a total of \$2,220,000 would have been collected using the original fee structure. Staff feels that had the fee reduction not been in place, the likelihood of issuing bonds on behalf of these large businesses would have been decreased significantly.

Summary of Changes.

Substantive Regulation Changes

- 1. Section 8034 - General Fees (Administrative Fee).** Addition of two new annual fee categories. Any bond issued that is not eligible for allocation of volume cap will be assessed a fee of one tenth of one percent (.001) of the face value of the bonds issued. Furthermore, an applicant that is a small business as defined in Section 8020 but which has individually or with its affiliates, for whom more than \$25,000,000 in bonds have been issued by the Authority the fee shall be two-tenths of one percent (.002) of the face value of the bonds issued. An annual fee of five one-hundredths of one percent (.0005) of the outstanding balance yearly (minimum annual fee of \$1,000 and a maximum annual fee of \$75,000). The initial fee of one tenth of one percent (.001) would be waived for small businesses not eligible for allocation of volume cap, as defined in Title 4, Division 11, Section 8020.

It is standard practice among the other issuing authorities to charge an annual fee. Typically, issuers charge between five (5) and twenty (20) basis points (or .05% to .2%) per year. Please see Attachment A for a fee comparison chart for further details.

- 2. Section 8035 - Small Business Assistance Fund Fees.** Reduce the current maximum SBAF fee from one percent (.01) to sixty-six one-hundredths of one percent (.0066) of the face value of any tax exempt bonds issued.

Clarifying Regulation Changes

- 1. Section 8042 - Eligibility for Assistance.** Addition of two sections defining the types of projects that will now be required to pay the annual fee under Section 8034 – General Fees.
- 2. Section 8043 – Assistance.** Clarification of eligibility related to Section 8042. Projects that are not eligible for volume cap allocation would be required to pay general fees, as outlined in Section 8034 (a).

Attachment B is a redline version of those portions of the regulations that highlights the proposed amendments.

Regulatory Process. Staff filed the emergency rulemaking package with the Office of Administrative Law (OAL) on October 20, 2009. The emergency regulations have been in effect since October 27, 2009 and will expire on April 27, 2010. Staff will apply for 90-day extension prior to April 26, 2010 to continue the emergency regulations while the permanent regulation process is being conducted. After Authority approval to amend the existing regulations, permanent rulemaking packages will be filed with the Office of Administrative Law (OAL).

To begin the permanent rulemaking process, the staff will prepare a notice of a proposed rulemaking to be published in the California Regulatory Notice Register, mail the notice to interested persons, and post the notice, text, and initial statement of reasons on our website. The notice starts the OAL 45-day public comment period. After that time, staff will review and respond to any comments and present the final form of the regulations to the Authority for approval. If there are substantial modifications, the revised regulations must be published in the Register again for a 15-day public comment period before Authority approval. After Authority approval, a permanent rulemaking file is submitted to OAL, and OAL has 30 working days to review the regulations for compliance with the Administrative Procedure Act and the Authority’s statute. Once OAL approves the regulations, they are filed with the Secretary of State and become effective as permanent regulations 30 days later.

If federal tax law or other legal provisions prevent the imposition of the above fees,

each fee shall be the maximum that can legally be charged.
