### Project Financing

Estimated Total Project Cost: \$7,416,134      Per Unit Cost: \$145,414      Construction Cost Per Sq. Foot: \$68

Construction Financing		Permanent Financing	
Source	Amount	Source	Amount
Washington Mutual	\$5,000,000	Washington Mutual	\$1,100,000
Deferred Developer Fee	\$896,318	Investor Equity	\$6,316,134
Investor Equity	\$1,519,816	<b>TOTAL</b>	<b>\$7,416,134</b>

### Determination of Credit Amount(s)

Requested Eligible Basis:	\$6,871,772
Applicable Fraction:	100%
Qualified Basis Credit Reduction (2%):	\$137,435
Adjusted Qualified Basis:	\$6,734,337
Applicable Rate:	8.30%
Total Maximum Annual Federal Credit:	\$558,950
Total State Credit:	\$2,020,301
Approved Developer Fee in Project Cost:	\$896,318
Tax Credit Factor: Multi-Housing Investments, LLC	\$0.83

Applicant requests and staff recommends annual federal credits of \$558,950 and total state credits of \$2,020,301, based on a qualified basis of \$6,734,337 and a funding shortfall of \$6,316,134.

### Cost Analysis and Line Item Review

The requested eligible basis, \$6,871,772, is below TCAC's threshold basis limit of \$8,383,129. The basis limit was increased by the following extraordinary features: 3 or more energy efficiency/resource conservation/indoor air quality items; for exceeding Title 24 by at least 15%, using natural linoleum/ceramic tile/natural rubber for all kitchens and bathrooms where no VOC adhesives or backing is used, using vent kitchen range hoods to the exterior of the building in at least 80% of the units, and distributive energy technologies such as micro turbines and/or renewable energy sources such as solar energy.

Annual operating expenses **exceed** the minimum operating expenses established in the Regulations, and the project pro forma shows a positive cash flow from year one.

Staff has calculated federal tax credits based on **8.30%** of the qualified basis, or, in the case of acquisition Credit or Credit combined with federal subsidies, **3.60%**. Applicants are cautioned to consider the expected federal rate when negotiating with investors. TCAC's financial evaluation at project completion will determine the final allocation.

**Special Issues/Other Significant Information:** The applicant has stated that the installation of a solar energy infrastructure will eliminate tenant utility allowances and has presented proposed tenant rent exclusive of a utility allowance. This award is based on the documentation presented, which indicates tenants will not pay for the utilities covered by utility allowances. If, at any time, this is altered such that tenants are responsible for utility charges, the applicant must, without delay, submit new proposed tenant rents and utility allowances to TCAC for review and approval.

**Legal Status:** Staff has reviewed the Applicant's responses to the questions contained in the Legal Status portion of the Application. No information was disclosed that raised any question regarding the financial viability or legal integrity of the applicant.

**Recommendation:** Staff recommends that the Committee make a preliminary reservation of tax credits, in the following amount(s) contingent upon standard conditions and any additional conditions imposed by the Committee:

Federal/Annual	State/Total
\$558,950	\$2,020,301

### Standard Conditions

An application for a carryover allocation must be submitted by **October 31, 2008**, as required by regulation section 10328(d), together with the applicable allocation fee and all required documentation. The time for meeting the "10%" test and submitting related documentation will be no later than six (6) months after the date of the executed carryover allocation (as defined by IRC Section 42 and IRS Notices). The applicant must ensure the project meets all Additional Threshold Requirements for the housing type of the proposed project.

The applicant must submit all documentation required for a Final Reservation no later than February 1 of the year that the building(s) must be placed in service pursuant to Section 42(h)(E)(i) of the Internal Revenue Code of 1986, as amended. The applicant shall provide the Committee a Final Reservation application providing the documentation for the project set forth in Section 10322(i)(1) of these regulations. Failure to provide the documentation at the time required may result in rescission of the Credit reservation and cancellation of a carryover allocation.

TCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of TCAC.

The applicant must pay TCAC a performance deposit and allocation fee calculated in accordance with regulation. The performance deposit must be paid by cashier's check within 20 calendar days of any preliminary reservation. The allocation fee must be paid within a time period specified in the preliminary reservation letter. The allocation fee will be due prior to execution of a carryover allocation or issuance of tax forms, whichever comes first. Additionally, TCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of **federal credit and state credit** shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within TCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by TCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis and tax credit amount determined by TCAC in its final feasibility analysis.

If points were awarded for service amenities, the applicant will be required to provide such amenity or amenities identified in the application, for a minimum period of ten years and at no cost to the tenants.

Applicants that received points for sustainable building methods (energy efficiency) must submit the certification required by Section 10325(c)(8) at project completion.

Applicants that received increases (exceptions to limits) in the threshold basis limit under Section 10327(c)(5) must submit the certification required by Section 10322(i)(2)(P) at project completion.

**Additional Conditions:**

Applicants that received 20 points for readiness to proceed must meet ALL of the following requirements. The applicant must be ready to begin construction within 150 days of the Credit Reservation which is [November 17, 2008](#), as evidenced by submission, within that time of, recorded deeds of trust for all construction financing, payment of all construction lender fees, issuance of building permits and notice to proceed delivered to the contractor. Failure to meet this timeline will result in rescission of the Credit Reservation.
