AGENDA ITEM 4: Overview LAIF Operations and PMIA Performance

PMIA Performance

Ms. Solich reported that the total PMIA fund was \$58.4 billion. The daily rate was 5.15%, the quarter to date rate was 5.18% and the year to date rate was 5.24%. The average life of the portfolio was 216 days.

Ms. Solich stated that the Fed Fund's rate was now at 4.75% which is 50 basis points lower than the month before when the Fed took action to forestall the fallout of the sub prime meltdown. With a weakness in the housing related reports but with the strong jobs reports last week there is a reduced expectation that the Fed will cut rates again in October 2007. The Fed is keeping all options open.

Ms. Solich stated that both she and Mr. Dowell have been responsive to the questions that have been coming from the local agencies regarding sub prime exposure and to the media

as well. Both she and Mr. Dowell will be addressing ABCP and bank exposure in their session at the conference.

Ms. Solich gave an outline of her presentation for the conference including charts and graphs. Mr. Wells asked if there were going to be evaluation sheets distributed at the end the conference sessions for feedback. Ms. Solich stated that yes there will be evaluation sheets in the conference packets.

LAIF Operations

Ms. Milliron presented the LAIF operations report. There had been one apportionment rate since the last board meeting on May 9, 2007. The quarterly apportionment rate ending June 30, 2007, was 5.23% with administrative costs of .22% of earnings. As of September 30, 2007, there were 2,620 participants in LAIF. There were 1741 Special Districts, 54 Counties, 472 Cities, 202 Trustee accounts and 151 Bond accounts. LAIF continues to be approximately 31% of the total Pooled Money Investment Account. As of close of window October 10, 2007, LAIF deposits total \$19,142,084,248.06.

Ms. Milliron stated that the programming of the LAIF monthly online statements was close to being completed. Staff expects to implement a pilot program at the end of the year with a few selected LAIF participants testing the process. The project should be completed in the first quarter of 2008. Ms. Milliron stated that Treasurer Lockyer approved Citibank N.A. as the State's seventh depository bank. The State started doing business with Citibank N.A. on August 01, 2007, but due to the bank's documentation requirements for the LAIF participants, LAIF transactions executed by Citibank N.A. were delayed until September 4, 2007. All in all it was a smooth transition for both the LAIF participants and staff.

Ms. Milliron stated that she and Mr. Dowell attended the Association of Public Treasurers in the United States and Canada's Annual Conference in August in San Diego. In September they attended the California Joint Power's Authority's Conference in South Lake Tahoe. Mr. Dowell gave a presentation on "Safety, Liquidity, Yield, Have We Forgotten What Comes First". The presentation was very informative and well received by the attendees.
