Subject: PMIA Quarterly Report

California Government Code Section 16481.2 requires the Treasurer to submit a quarterly report on the resources of the Pooled Money Investment Account (PMIA) to the Pooled Money Investment Board (PMIB). This report must be transmitted to the PMIB within 30 days of the close of a quarter and must contain the following:

1. The type of investment, name of issuer, date of maturity and the par and dollar amount of each security, investment and money within the treasury (i.e., the investment portfolio and demand accounts of the PMIA).
2. The weighted average maturity of the investments within the treasury.
3. Any funds, investments, or programs, including loans, under the management of contracted parties.
4. The market value as of the date of the report (quarter-end), and the source of this valuation for any security within the treasury.
5. A statement of Compliance with the Investment Policy.

The required information is contained in the following two sections:

Section I contains: (1) a summary of the PMIA resources, including the investment portfolio size and average life and the amount of demand account bank balances; and (2) an analysis of the PMIA investment portfolio by type of investment.

Section II contains: (1) market valuation by security type; and (2) a detailed listing of the PMIA portfolio holdings, including the investment type, name of issuer, par value, book value, market value and the source of the market value for each security held in the portfolio at quarter-end.

Compliance with Investment Policy

As required by California Government Code Section 16481.2 I confirm, to the best of my knowledge, that during the quarter ended December 31, 2023, all investments made on behalf of the Pooled Money Investment Account complied with the guidelines and provisions of the Investment Policy for the Pooled Money Investment Account. There were no funds, investments, or programs, including loans, that were under management of contracted parties.

Repurchase Agreements, Time Deposits, PMIA & General Fund loans, and Reverse Repurchase agreements are carried at portfolio book value (carrying cost).

The value of each participating dollar equals the fair value divided by the amortized cost (0.993543131).
As an example: if an agency has an account balance of \$20,000,000.00, then the agency would report its participation in the LAIF valued at \$19,870,862.61 or \$20,000,000.00 x 0.993543131.
