## CalSavers is coming! Here's what you need to know:

The state is launching a new retirement program that will enable employers to provide their employees with access to a payroll deduction Individual Retirement Account (IRA) at no cost to the employer or taxpayer. CalSavers is a voluntary workplace IRA program for private sector workers designed to be simple and portable from job to job. CalSavers will be professionally managed by a private sector financial firm with oversight from a transparent public Board.

When CalSavers launches statewide on July 1, 2019, state law will require all businesses with five or more employees to either offer a retirement savings vehicle from the existing market or register for CalSavers. Deadlines for employers to comply will roll out over a three year period based on the size of business.

CalSavers is a great way for employers to facilitate their employees' access to a portable retirement program. There are zero fees for employers. Since CalSavers is not an employer sponsored plan, employers will have no fiduciary liability, and it will be administratively easy for employers to facilitate. Please visit [www.calsavers.com](http://www.calsavers.com) or email [CalSavers@treasurer.ca.gov](mailto:CalSavers@treasurer.ca.gov) to learn more about the program and how you can become an early adopter.
