Except as allowed for projects basing cost on assumed third party debt, the “as if vacant” land value and the existing improvement value established at application for all projects, as well as the eligible basis amount derived from those values, shall not increase during all subsequent reviews including the placed in service review, for the purpose of determining the final award of Tax Credits. The sum of the third party debt encumbering the property may increase during subsequent reviews to reflect the actual amount.

CTCAC Significant Information / Additional Conditions: None.

CDLAC Analyst Comments: None.

Resyndication and Resyndication Transfer Event: None.

Standard Conditions

The applicant shall issue bonds within time limits specified by CDLAC.

The applicant anticipates financing more than 25% of the project aggregate basis with tax-exempt bond proceeds as calculated by the project tax professional. Therefore, the federal credit reserved for this project will not count against the annual ceiling.

State tax credit recipients are limited to cash distributions from project operations pursuant to California Revenue and Taxation Code Section 12206(d). By accepting the tax credit reservation, the applicant/owner is agreeing to comply with the statutory limitations and requirements.

CTCAC makes the preliminary reservation only for the project specified above in the form presented, and involving the parties referred to in the application. No changes in the development team or the project as presented will be permitted without the express approval of CTCAC.

The applicant must pay CTCAC a reservation fee calculated in accordance with regulation. Additionally, CTCAC requires the project owner to pay a monitoring fee before issuance of tax forms.

As project costs are preliminary estimates only, staff recommends that a reservation be made in the amount of federal credit and state credit shown above on condition that the final project costs be supported by itemized lender approved costs and certified costs after the buildings are placed in service.

All unexpended funds in reserve accounts established for the project must remain with the project to be used for the benefit of the property and/or its residents, except for the portion of any accounts funded with deferred developer fees.

All fees charged to the project must be within CTCAC limitations. Fees in excess of these limitations will not be considered when determining the amount of credit when the project is placed-in-service.

If the applicant has requested the use of a CUAC utility allowance, CTCAC's Compliance staff will review the CUAC documentation for this project prior to placed in service. Until written approval is received from CTCAC, this project is not eligible to use a utility allowance based on the CUAC.

The applicant/owner shall be subject to underwriting criteria set forth in Section 10327 of the regulations through the final feasibility analysis performed by CTCAC at placed-in-service.

Credit awards are contingent upon applicant's acceptance of any revised total project cost, qualified basis, and tax credit amount determined by CTCAC in its final feasibility analysis.

CDLAC Additional Conditions

The applicant/owner is required to comply with the CDLAC resolution and the terms of the bond and tax credit award as presented in the application and summarized in this staff report. CTCAC will verify the project complied with all terms of the award at placed-in-service review.

If points were awarded by CDLAC for housing type, the project shall comply with the housing type requirements at the time of CTCAC's Placed In Service review. The housing type requirement shall be conditioned in the CTCAC Regulatory Agreement and CTCAC Compliance staff shall verify the project is meeting those housing type requirements, consistent with California Code of Regulations, title 4, section 10322(i).
